Note: <888> 09/30/09 Wednesday 9:10 P.M.. After dinner, I watched a program on CNBC about Walmart.com: Save money. Live better.. They seem to have more overhead in their business plan than I do. I have noticed in the few of the stores of theirs that I have been in that they have very high ceilings, and I would assume all of the heat in the winter goes up into the high ceilings. They probably should install blade fans in the high ceilings to blow down the heat in the winter to save a bit of money. CIO

Note: <888> 09/30/09 Wednesday 7:05 P.M.. I was awoken at 9 A.M. this morning, when the Greenwich Hospital outpatient clinic called to let me know, I will get my flu shot next week, when I see the intern on my cholesterol follow up. I also chatted with a relative. I went back to bed until 11 A.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I chatted with a relative. I made my bed, and I washed the breakfast dishes. I faxed a newspaper article to another relative. I chatted with that relative and the other relative. I showered, and I cleaned up. I threw out the garbage. I went downtown, and I walked the entire length of Greenwich Avenue and the train station area. I used the bathroom at the senior and the arts center before and after the walk. I stopped by CVS during the walk. I was asked by one of the construction people at the Ralph Lauren construction site what type of sidewalks they use on Greenwich Avenue. I mentioned that they use both triangular and squares. I recommended they look at the new sidewalk on the east side of the Greenwich Post Office plaza. They told me they had to chat with the town officials tomorrow. I finished my walk. I sat out briefly. I then went by the Greenwich Library, and I read the Greenwich Time. I chatted with a town official about the sidewalk question. While chatting with him, an elderly patron fell on the sidewalk at the front of the side parking area, having stepped on it, thinking it was part of the sidewalk, when it was the curb. The patron was all right. I suggested to the town official they put a yellow stripe on the curb, so people do not trip there again. I then returned home. One of my neighbors had fallen in her apartment, and was being taken out by ambulance, when I returned. I do not know her status. I chatted with a relative.

I ate half of a 9.5 ounce can of CVS smoke almonds. I will now make my usual linguine and tomato meat sauce dinner, which I will put grated parmesan and Romano cheese on,

and I will eat with a glass of watered down punch. A .75 liter bottle of Perrier frozen and broke in my refrigerator today, and I cleaned out the glass, and I threw it away, when I went out. CIO

Note: <888> 09/30/09 Wednesday 1:10 A.M.. I ordered 3M Silicone Paste (Dielectric Grease) for \$16.99 and \$9.95 shipping and \$1.02 tax for \$27.96 total. One uses it to grease the windows tracks on my power windows in the Audi, so they will go up and down smoothly. Currently, the passenger side front window does not always come up, when one puts it all of the way down, so this probably will fix the problem. CIO

Note: <888> 09/29/09 Tuesday 11:55 P.M.. I went out after the last note. I went by the Stop and Shop, and I bought a two pound bag of onions for \$1.69 and a bulb of garlic at \$2.99 a pound for .54 for \$2.23 total. I went downtown. I used the bathroom at the senior and the arts center. I walked the entire length of Greenwich Avenue and the train station area. I used the bathroom at Starbucks midway through my walk. There is a new jewelry store going in near the new AT&T store at the top of Greenwich Avenue on the west side of the street. I sat out for a while after my walk. I next went by the Greenwich Automotive Services Gulf station, and I bought \$10.01 of self service premium for \$3.219 a gallon for 3.110 gallons for 44.5 miles driving since I returned last Wednesday and at odometer reading of 64941 miles for 14.309 miles per gallon in mixed driving. I also cleaned the outside windows and checked the tires all around for 32 PSI. I chatted with the service manager about the price of tea in China. I then returned home.

Note: <888> 09/29/09 Tuesday 5:55 P.M.. I woke up last night, and I ate a 9.5 ounce can of CVS smoked almonds along with two slices of Stop and Shop white deli cheese and some watered down punch. I finally woke up at 8 A.M. this morning. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I chatted with a relative. I went back to bed until 1 P.M.. I surfed the internet, and I chatted with a relative twice. I ate a ham and cheese sandwich on a bulkie roll with mayo and a dill pickle slice and watered down punch. My 3 P.M. appointment was cancelled. I showered, and I cleaned up. I went outside, and I threw out some garbage. I walked around the building, and I chatted with neighbors. Greenwich Housing Authority officials were inspecting the building. The Greenwich Red Cross was giving out flu shots in the Community Room, but they only take Medicare not Medicaid, so I called to make an appointment to get my flu shot at the Greenwich Hospital outpatient clinic which takes Medicaid. I picked up my mail. I read the last two months of computer magazines, and then I threw them out. I chatted with a neighbor. CIO

Note: <888> 09/28/09 Monday 6:50 P.M.. I woke up at 10 A.M. this morning, when a relative called. I made my bed, and I showered, and I cleaned up. I drove over the Greenwich Hospital, and I had my blood drawn to check for my cholesterol level. I then returned home. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I chatted with a relative.

I then went out, and I got on I-95 East bound at exit two, and I drove to exit 9, and I head a few blocks west on U.S.1, and I went to Oil Star in Stamford, Connecticut at 942 East Main Street, 1-203-325-3171.

I had a \$5 off coupon, so I had my oil and oil filter changed and fluids checked for \$54.40.

The Oil Star Service package was \$38.79, with an extra charge for 1.25 quarts more of Castrol 10W30 oil of \$4.76, a disposal fee of \$1.77, a Audi-VW oil filter part number 0418156 for \$11, less \$5 off discount coupon and \$3.08 tax for \$54.40.

The odometer reading was 64,928 miles.

They reset the oil light. The chassis is sealed. Brake Fluid level is not accessible. Power Steering Fluid is OK. Transmission fluid is non accessible. Battery fluid is maintenance free. Windshield Washer fluid is full. Engine Air Filter is OK. Door hinges were lubed. Wipers are OK. Rear Differential Fluid is non accessible. Front differential fluid is non accessible. Coolant is OK. Tires pressure checked.

I then went to Joseph Banks by the Stamford Town Mall, and the \$400 blue blazer that my relative bought me for half price for \$200 in size 50 Long, I exchanged for a 50 regular at no more cost. While there, I chatted with a relative on the wireless.

I then returned back to Greenwich on U.S. 1 west. I used the bathroom at the senior and the arts center. I chatted with a relative on my wireless. I walked the entire length of Greenwich Avenue and the train station area. I chatted with someone from Martha's Vineyard. I stopped by the Greenwich Hardware store. I toured CVS. On the way back down Greenwich Avenue, I stopped by the Greenwich Hardware store, and I bought for a dollar two each of the three smallest size black rubber washers. I might be able to use

them on my broken leaky Water Pik, if I try to use it again. I will put them in the bathroom medicine cabinet. I then went by the Greenwich Library, and I chatted with staff. I read the Greenwich Time. I then went by the Stop and Shop, and I bought a yesterday's cherry pie for \$3.50, a half gallon of Tropicana premium orange juice for \$3, and fresh Chiquita bananas for .69 a pound for \$1.56 for \$8.06 total. I then returned home, and I put away my purchases. I hung the new blue blazer in the left living room closet in the hanging clothing bag holder that came with it.

Note: <888> 09/27/09 Sunday 3:05 A.M.. I watched a movie about Genghis Khan - Wikipedia, the free encyclopedia . His relative the His Highness the Aga Khan's 72nd Birthday - Mowlana Hazar Imam's 72nd Birthday - December 13, 2008 has a small house in Greenwich, Connecticut in a top secret location, which they have owned since 1922, when his grandfather started the www.un.org . I have a feeling they tend to keep an eye on him, since he is suppose to be important. I think he also has an apartment on Central Park West in Manhattan. He is suppose to have some sort of house in Kenya where he was raised. His villa in Geneva, Switzerland made the world press when Ronald Reagan and Mikail Gorbashav held a conference there. He is also suppose to have a 600 room palace on the Isle of Capri in Italy. He has a large palace in France where his family was photographed for a wedding last summer a year ago. He also has a palace in New Delhi, India. He also has a house near Bombay, India that is a traditional English style house. He has stud farms in Ireland and Scotland. His family are buried in a pyramid in Egypt. He also has a public park in Cairo, Egypt. He has a religious studies institute in Old Westbury, Long Island. He has a Toyota car dealership in Western Canada and also a Honda car dealership in Western Canada. He is suppose to have over 600 homes worldwide, so he probably he has a hard time figuring out where he is all of the time. The doorman at the Waldorf Astoria in Manhattan also looks like him, so possibly he has some involvement with them. The Waldorf Astoria also owns the Casa Marina Hotel in Key West, Florida, so he might be involved there too. He has a Canadian Bombardier jet to travel around. He has a degree in medicine from www.harvard.edu , and he was the United Nations High Commissioner for refugees about 20 years ago. He visited Atlanta and San Antonio earlier this summer, so he might still be in this country, but he tends to be a relatively private individual. He is going through a divorce, so where ever he is, he might be looking for a wife. He has two sons and one daughter, and they went to Harvard, Yale

and Williams. More than likely since he is legally a Swiss citizen, he is political neutral like all Swiss, but since he is suppose to have a large fortune, he obviously is involved in some sort of geo politics. More than likely if he were here in Greenwich, Connecticut at the present moment, there would be a few more people around than there are, but with the U.N. events in Manhattan, he might be there. From what I know, I only know one person that claims to have ever met him and that was Tony Pigato from Sao Paulo, Brazil, so possibly he has a house in Brazil too. I do know his grandfather used to steal the Duke of Windsor's girl friends, and his father who weighed over 600 pounds use to get his weight in diamonds on his birthday every year, and all of the proceeds would go to his charities. More than likely they have some sort of group of business managers who keep track of things for them, while they travel. CIO

Note: <888> 09/27/09 Sunday 12:10 A.M.. I watched a bit of television after the last note. I went to bed about midnight. I woke up at 7 A.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I programmed the large Sharp remote control for the living room television and stereo setup. I went back to bed until 1 A.M.. I washed the breakfast dishes, and I made my bed. I watched a bit of the History Channel. I ate two hot dogs with buns with ketchup and mustard and dill pickle slice and 1/4th of a 6.3 ounce tube of Pringle sour cream and onion potato chips and watered down passion punch. I chatted with a relative. I showered, and I cleaned up. I went out about 5:30 P.M.. I threw out some garbage. I went downtown. I walked the entire length of Greenwich Avenue and the train station area. I stopped by Zen stationary, and I played and Amazing 8's scratch card for a dollar, but I lost. I stopped in at Peter Tesei's new republican first selectman campaign office, and I chatted with the volunteer setting up the office on Railroad Avenue across the street from the movie theatre. I stopped by the Senior and the Arts center, and I chatted with a visitor that use to live in Greenwich. I use the bathroom there. The Greenwich Board of Health sign in front of the Senior Center about flu shots being available soon at the Eastern Greenwich Civic center had its letters rearranged on the south side of the placard, so I put them back in the right order. There seemed to be a couple of the telephone numbers missing. I stopped by CVS, and I bought three cans of CVS 9.5 ounce smoked almonds for \$10 all, and four 6.38 ounce Pringle vinegar and salt potato chips for \$6 all for \$16 total. I then bought a 15 ounce Alberto VO5 Kiwi and Lime herbal shampoo for .99 and a similar conditioner for .99 and .12 tax for \$2.10 total. I noticed when walking upper Greenwich Avenue, that the new AT&T store looks like it is just about ready to open. I finished my walk, and I sat out for a while. I chatted with somebody from Irvine, California. I then used the bathroom at Starbucks. I recommended to them that since they work in the general public, they should wash their hands frequently with antibacterial soap to avoid the flu. They are thinking about using rubber gloves to handle the money. I next drove down by the waterfront on Steamboat Road, and I chatted with the most frequent fisherman there. He is cold, and he is going to Islamarda in the Florida Keys this winter. I next went by the Stop and Shop. I bought buy one get one free of packages of Purdue boneless breasts of chicken for \$7.63 for one, and the \$7.49 one free. I also bought 80% lean hamburger meat for \$1.99 a pound for \$3.39 and \$3.36, and one of them had a manager's special dollar off coupon. I also bought a 8.5 ounce box of Triscuits rosemary

and olive oil for \$2.99 and a 24 ounce container of Progresso Italian bread crumbs for \$2.99 for \$19.36 total. I then returned home. I put away my purchases. I made six hamburger patties out of the ground beef, and I froze them as well as one of the packages of Purdue boneless breasts of chicken. I chatted with a relative. I made my usual breaded boneless breast of chicken meal with my usual steamed vegetable mixture with olive oil, and I ate it with watered down passion punch. CIO

I went ahead and made the first payment of four payments on my next six months automobile insurance policy with www.geico.com that starts this October 7, 2009, when the old policy expires. The payments have gone up about \$10 a payment for about \$80 a year increase, so I made a \$122.45 payment which works out to about \$979.60 a year. I have full coverage on the Audi including comprehensive insurance. Thus the insurance on the Audi costs me about \$2.69 a day, which is quite a bit on my budget. Also this year, although I have driven about 3,000 miles since the last oil change in November 2008, I made three round trips to Kennebunkport, Maine, so that works out to about half the mileage, so I really only drive a little over 1,500 miles a year locally, which works out to \$979.60 divided by say 3300 miles a year to \$.2969 a mile for insurance driving the Audi or to make it simple, insurance on the Audi at my rate of driving costs about 30 cents a mile. End of Scott's Notes week of 09/24/09:

Note: <888> 09/24/09 Thursday 3:45 P.M.. I posted some pictures of my trip to Kennebunkport, Maine this month <http://mikelouisscott.com/kpt-0909/> . I will now send out my weekly notes. CIO

Note: <888> 09/24/09 Thursday 2:40 P.M.. I went outside briefly. I finished configuring the FIC server. I did a Vista Complete PC backup of it to the second internal and the Bytecc External hard drives. I cleaned up my email inbox folder.

I ate two tuna fish sandwiches with 1/4th of a 6.2 ounce tube of Pringle sour cream and onion potato chips and a dill pickle slice and watered down passion punch. I used an English muffin for one of the tuna fish sandwiches. CIO

Note: <888> 09/24/09 Thursday 12:30 P.M.. I woke up at 6 A.M. this morning. I ate breakfast of oatmeal with honey and milk, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I chatted with a relative. I showered, and I cleaned up. I went outside, and I chatted with neighbors, and I threw out some garbage. I emptied the ashtray on the north end of the building. I uninstalled McAfee Internet Security 2008 on the primary Vista computer, and I installed McAfee Internet Security 2009 on it. I am doing the same thing on the FIC server, but first I restored my backup from May 28, 2009, and installed the Windows updates and the other changes. CIO

Note: <888> 09/23/09 Wednesday 8:45 P.M.. I will now shut down the primary Vista computer and go to bed soon. Cloudy tomorrow and a high of 78 degrees Fahrenheit. CIO

Note: <888> 09/23/09 Wednesday 8:25 P.M.. I microwaved a 21 ounce Maria Callendar frozen lasagna dinner which I put grated parmesan and Romano cheese on, and I ate it with a glass of watered down punch. CIO

Note: <888> 09/23/09 Wednesday 7:25 P.M.. Yesterday after the last note, I reheated and ate the baked haddock, scalloped potatoes, and I also had left over salad and watered down orange juice. I finished most of my packing, and I loaded the car. I watered all of the plants around the house including the deck and the new grass in back. I finished reading PC World magazine. I went out with a relative, and we went to dinner at the Ramp in Cape Porpoise at 5 P.M.. I had a 8 ounce hamburger with cheese and French fries and a glass of water. I returned to my relatives' house, and I went to bed at 7:30 P.M.. I woke up a couple of times, and I chatted with another relative that returned at 9:30 P.M..

I finally woke up at 4:15 A.M. this morning. I ate breakfast of oatmeal with sugar and a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I showered, and I cleaned up. I said good bye to a relative. I finished packing the Audi. I left with another relative at 5:30 A.M..

We drove out of Kennebunkport, Maine on Route 9 North to U.S. 1 west to the access road to the Maine turnpike. I took a pit stop at the Amtrak train station. We drove south on the Maine Turnpike, and I paid a \$2 toll at the end. We got off the New Hampshire turnpike at exit 2, and I paid a .75 toll, and I took Route 101 west to Manchester, New Hampshire. We then got on I-293 west and got off shortly there after at Brown road south access to the Manchester, New Hampshire airport. I helped my relative bring her luggage into the terminal. I used the bathroom, and I said good bye. I paid the \$2 parking fee for less than an hour. I then got back on I-293 east to I-93 south to I-495 west. I took a pit stop at the Lowell, Massachusetts rest area. I then drove west on I-495 west to I-290 west, and I passed the first Massachusetts turnpike exit in Worcester, and I took the second Massachusetts turnpike exit just after the Webster exit, and I got on the Massachusetts turnpike west. I stopped at the Charlton rest area. I use the bathroom, and I ate half a sandwich that I had brought with me. I chatted with a relative on my wireless telephone.

At the Gulf pumps, I bought \$19.20 of self service premium at \$2.919 a gallon for 6.578 gallons odometer reading of 65766 miles for 175.7 miles driving since filling up yesterday for 26.71 miles per gallon driving mostly at highway traffic speeds. I then got off the Massachusetts turnpike, and I paid a .50 toll, and I took I-84 west. I stopped at the Connecticut welcome center. There were a lot of Asian tourists there taking pictures of the Connecticut welcome center with expensive professional cameras. I then took I-84 West to I-91 South to I-15 west on the Wilbur Cross parkway. I took a pit stop at the North Haven and the New Canaan rest areas. I got off the Merritt parkway at North street, and I drove south into downtown Greenwich.

I went to the Chase Bank just west of the top of Greenwich Avenue. I then went by the Greenwich Automotive Services Gulf station, and I bought \$14.20 of self service premium at \$3.219 a gallon for 4.412 gallons at odometer reading of 64896 miles for 148 miles since the last fill up for 33.545 miles per gallon. It has been 3,000 miles since my last oil change last November 2008, so I need to get the oil and filter changed at Oil Star in Stamford, Connecticut some time soon. My relative also bought me a Joseph Banks blue blazer in size 50, and I need to exchange it for about a size 46 at the Stamford store too. I then went by the Valley Road post office, and I picked up the last two weeks of mail. I then returned back to my apartment. I brought up my luggage. I turned on the air conditioner, hot water, air purifier, and toilet water. I took down the items from the Audi trunk that I had store in the apartment and put them in the Audi trunk. I unpacked my belongings. I ate the other half of the ham and cheese sandwich with cold filtered water. I also brought down four Maine apples. I watered the plants. I made up fresh batch of punch. I sorted out the mail. I threw out some garbage, and I chatted with neighbors. I move the Audi to its usual place. I chatted with a friend and two relatives. I started the primary work and the FIC server computers. I installed the updates. McAfee Internet Security 2008 expires on them today, and I have two three license copies of McAfee Internet Security 2009, so I will install it on three of the computer soon. I put the Boston Red Sox mouse pad on the left side of the Epox computer. CIO

Note: <888> 09/23/09 Wednesday 5:45 P.M.. I was back home today at 1:20 P.M.. More to come later. CIO

Note: <888> 09/22/09 Tuesday 12:30 P.M.. I woke up at 9 A.M. This morning. I ate breakfast of oatmeal with sugar and a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I showered, and I cleaned up. I brought the garbage can and recycle bin in from the street. I washed the two garbage cans out with Clorox and water. I showered, and I cleaned up. I started a load of laundry, and I am now on the dry cycle. I went to downtown Kennebunkport to the Big Apple Mobil station, and I paid .75 to check my tires at 32 PSI all around, and I also checked the spare tire for 60 PSI. I put \$10.01 of self service premium gasoline in the Audi at \$2.879 a gallon for 3.477 gallons for 44.7 miles driving in the past week at odometer 64598 for 12.86 miles per gallon in local driving. I have begun to pack and load the car. I will go to bed at 8 P.M. Tonight, and be awake at 4:15 A.M. Tomorrow. We have to leave here at 6 A.M., and I will drop my relative off at the Manchester, New Hampshire airport around 8 A.M., and I will take I-93 South down to I-495 West and continue my journey back to Greenwich, Connecticut. I will now shut down the computer and pack it up. I am going out to dinner at 5 P.M. Tonight, and I will probably go to bed early at 8 P.M.. CIO

Note: <888> 09/21/09 Monday 9:45 P.M.. Partly cloudy tomorrow and high of 77 degrees Fahrenheit. I will now shut down the computer, and I will go to bed in a little while. Today is the first day, the Greenwich Hospital Thrift shop opens in its new location across from the Hamilton Avenue school on Old Track Road. CIO

Note: <888> 09/21/09 Monday 9:30 P.M. I showered, and I cleaned up again. Our relatives arrived at 6 P.M. I ate dip and crackers and orange juice and fruit and nut mix. For dinner, we had baked breaded haddock, potatoes au gratin, mixed green salad, and I also drank watered down orange juice and ate the last piece of berry pie. I cleaned up the kitchen and started the dishwasher. We said good bye to the visiting relatives. Earlier I put the garbage and the recycle material and papers out by the street for pickup tomorrow. CIO

Note: <888> 09/21/09 Monday 5:20 P.M. I woke up at 10 A.M. Today. I ate breakfast of oatmeal with honey and a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I showered, and I cleaned up. I read part of PC World magazine. We went out, and we drove along the Kennebunkport waterfront to Bradbury's grocery store in Cape Porpoise, where we got some supplies. We then went by Chick's fish monger in the lower village. We then returned to my relatives' house. I reheated and ate the last five ribs of rack of lamb and two pieces of toast with butter with watered down orange juice. I chatted with a friend on my wireless phone. We went out. I went directly to the east end of the Kennebunk beach, and I took some pictures, and I waited for my relatives to arrive. We sat out at the beach for a couple hours enjoying the sunny day at the beach, and I took some more pictures. We returned back to the family house. I peeled five large potatoes and sliced them with the Cuisinart along with two thirds of a large peeled onion. My relatives are making scalloped potatoes out of them. We have other other relatives coming over at 6 P.M. Tonight for dinner. CIO

Note: <888> 09/20/09 Sunday 10:15 P.M. I watched the first half of Mission Impossible III, and I quit watching it once I reached the end part that I had already seen. I emptied the dishwasher. I will now shut down the computer, and I will go to bed soon. Sunny tomorrow and high of 76 degrees Fahrenheit. CIO

Note: <888> 09/20/09 Sunday 8:10 P.M. For dinner, I ate two barbecued hamburgers on toasted buns with ketchup and sliced onions and two ears of corn on the cob with butter and a glass of watered down orange juice. I cleaned up the kitchen. CIO

Note: <888> 09/20/09 Sunday 6:10 P.M. I went out with my relatives, and we drove along the Kennebunk beach to the far west end, and then I stood out briefly at the west end of the beach enjoying the view. We then drove along the Kennebunkport waterfront as far as the Cape Arundel Inn, and then we returned to my relatives' house. CIO

Note: <888> 09/20/09 Sunday 4:30 P.M. Organ music in Greenwich <http://greenwich-gossip.blogspot.com/> . CIO

Note: <888> 09/20/09 Sunday 4:20 P.M. I woke up at 10 A.M. This morning. I ate breakfast of oatmeal with honey and a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I showered, and I cleaned up. I walked around the outside of the house. I went out with my relatives, and we went by T.J. Maxx in Biddeford, Maine. I toured

www.bestbuy.com next door, but there was nothing that I could afford. They have a 40 inch LCD Proscan television for \$500, but I do not know anything about it. We next drove west on Route 111 to west to Route 4 and Route 202 north to Alfred, Maine, where we bought a half peck of McIntosh apples for \$5.85 at the Giles family orchards. They also have fresh herbs and spices there in large quantities and lots of apples. We then took went back down to Route 4 West to Sanford, Maine, and we drove south down Route 109 south and just before the rotary, we filled up the Volkswagen Passat at the Irvine gasoline station. Near the Sanford airport, we stopped at Shane's homemade ice cream parlor, and my relatives got Maple Walnut ice cream cones. We then took Route 99 back into Kennebunk, and we pass a bird conservation area in wild blueberry fields to save some endangered sparrow. We then stopped at CVS in Kennebunk, and I used the bathroom. They did not have the model Water Pik 100 that I have a \$5 off coupon for, and I also have a good through today \$5 off \$25 coupon at CVS, so I did not get anything. We then returned to my relatives' house. I ate a ham and cheese sandwich with Pringles and a piece of berry pie with watered down orange juice. CIO

Note: <888> 09/19/09 Saturday 10:50 P.M.. I read the www.nytimes.com . I read Architectural Digest. I emptied the dishwasher. One wine glass broke in the dishwasher. I will now shut down the computer, and I will go to bed shortly. Sunny tomorrow with a high of 76 degrees Fahrenheit. CIO

Note: <888> 09/19/09 Saturday 8:45 P.M.. We watched some television. I ate cheese and dip with watered down passion punch. For dinner, I ate 6 barbecued ribs of rack of lamb, flavored rice, steamed broccoli with butter, and lettuce, tomato, and mozzarella cheese with vinaigrette dressing and watered down orange juice. I cleaned up the kitchen. CIO

Note: <888> 09/19/09 Saturday 6:10 P.M.. We took some pictures. We went out after the last note. We drove along the waterfront in Kennebunkport passed Walker's Point. There are still lots of tourists visiting the area to see the Bush compound. We drove out to the end at Cape Porpoise. We then went by Sanborne's fish monger, and we got four ears of fresh Maine corn on the cob. We then drove along the Kennebunk beach. We then went by Old Vines, the new wine bar in the lower village next to the Kennbunk bakery, and we looked at the menu in the window. We then returned to my family compound. I started the dry cycle on the laundry. I took a nap. I put away the laundry. I swept off the deck. CIO

Note: <888> 09/19/09 Saturday 1:10 P.M.. I woke up at 9 A.M. This morning. I ate breakfast of oatmeal with honey and a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I cleaned up the kitchen. I made my bed. I went out with a relative to the Kennebunkport post office, we then returned back to my family's house, and then went to Chick's seafood shop. I put a half dozen of the Miracle Gro tree spikes in the ground around the plum tree in front of the house. I watered the plants all around the house and the new grass. I also watered the plants on the deck. I took down the U.S.A. Flag, and I folded it properly, and I put it in the tool cabinet at the garage entrance inside the house. I ate a ham and cheese sandwich with pringles and watered down orange juice. I will now shower and clean up and start a load of laundry. I will then go out with my relatives. CIO

Note: <888> 09/18/09 Friday 10:40 P.M.. I watched some television with relatives. I will now shut down the computer and go to bed. Sunny tomorrow and a high of 67 degrees Fahrenheit. CIO

Note: <888> 09/18/09 Friday 8:30 P.M.. For dinner, I ate two ears of corn on the cob with butter, the reheated baked breaded fillet of Icelandic haddock, sliced tomatoes with slices of mozzarella cheese and vinaigrette dressing, a slice of berry pie, and watered down orange juice. Last night, I also ate a piece of berry pie. I cleaned up the kitchen. My relative returned from going out to dinner around 7 P.M.. CIO

Note: <888> 09/18/09 Friday 5:15 P.M.. I woke up at 9 A.M.. I ate breakfast of oatmeal with honey and a sliced banana, watered down orange juice with vitamins and supplements, four cinnamon sticks, and coffee with sugar and half and half. I cleaned up the kitchen. I made my bed. The housekeeper and yard person arrived. The yard person brought a ladder to check out the attic for an opening in the upstairs dryer duct. There is a disconnection that will be fixed at a later date. I showered, and I cleaned up. I went out with my relatives, and we went to T.J. Maxx in Biddeford, Maine. I toured www.bestbuy.com next door to see the latest computer equipment which is more expensive than what I use at home. From T.J. Maxx, my relative bought me a Sharper Image universal remote control for \$5, and a XL Ralph Lauren sleepware plaid bottoms for \$7.99 and a XXL plaid sleepware top for \$9.99. Also my relative bought a full queen size light blue bed spread for the bunk room bed that I sleep in at night, so I will be a bit warmer. We next went to Lowes, and we go a box of Miracle Gro tree spike fertilizer spikes and a box of Miracle Gro fertilizer. We then went by the Kennebunk Stop and Shop, and we returned the DVD from last night. It costs a dollar a day to rent the DVDs from the Stop and Shop DVD machine. We then went by the Kennebunkport post office. We then returned to my family house. I ate a ham and cheese sandwich with watered down orange juice. I then took a nap. Another relative has gone out to dinner with friends. CIO

Note: <888> 09/17/09 Thursday 11:10 P.M.. Before dinner, I ate dip and crackers with watered down orange juice. After dinner, I cleaned up the kitchen. We watched the British movie about hard times after World War I called "Easy Virtue" which was written by Noel Coward. I emptied the dishwasher. I will now go to bed shortly. Sunny tomorrow with afternoon showers and a high of 71 degrees Fahrenheit. CIO

Note: <888> 09/17/09 Thursday 6:25 P.M.. I ate some Red Sox peanuts with the shells that I had to peel off on the deck out back. I cleaned the green three level bird feeder, and I put it away for the winter in the garage at the right rear. I shucked three ears of native Maine corn that came from Mrs. Sanborne in Cape Porpoise. We are also having haddock from Iceland that my relative got from her along with a tossed green salad. I will eat it with watered down orange juice. CIO

Note: <888> 09/17/09 Thursday 5:25 P.M.. My relatives have all returned. We are not going to T.J. Maxx in Biddeford today, but we might go late tomorrow morning. I am going out to dinner tomorrow night with a relative and two of the relative's friends. I washed the

wheels on the Volkswagen Passat, since they got dirty last night, when I parked by the Ramp restaurant at Cape Porpoise.

The reason, I do not swim in the ocean anymore is that I had a bad experience the last time I was living out in Nantucket. It was the third week of October 1983, and I was swimming on the south shore of Nantucket where I regularly swam, but I had gone further west on the South Shore out by the Mount Vernon Farm. I was swimming all by myself about a 100 yards out from shore, and I got caught in an extremely strong Rip Tide. I had always been told that if you get caught in a Rip Tide, you have to swim with it, so that is exactly what I did instead of swimming across it back into shore. It felt like a whale had swam up along side of me, and I was dragged about a mile further east down the beach, and not any closer to shore. However, at about that point a sand spit sticks out from the sewer beds at the Jetties beach, so although the rip tide did not bring me into shore, it brought me into a very shallow water spot, where I could walk back into shore. There are no other sand spits sticking out from the south shore of Nantucket after that to the east, so I would have been dragged out into the open ocean by the strong rip tide current pulling me towards Portugal. After that I was more reserved about my ocean swimming. Besides back then I weighed about 150 pounds, and today I weigh about 210 pounds, so I am not as good a swimmer as I was back then, particularly since I have not done much swimming since then. CIO

Note: <888> 09/17/09 Thursday 4:00 P.M.. I went out with a relative, and we went by Chick's seafood shop, and a relative got some cracked crab. We then went by the Kennebunkport post office. We then returned to my relatives' house. We then went downtown by the Colonial Pharmacy for a relative to get something. I took a few pictures. We then went to the east end of the Kennebunk beach, and we chatted with locals. We walked out by the breakwater. I took some pictures of the relative and two boats in the water at a very low tide. The tide was so low you could land a plane at Kennebunk beach. We sat out for a while. We then drove back by St. Ann's and I took pictures of some red and white hydrangeas. We just now returned to the relatives' house. We are waiting for another relative to return. CIO

Note: <888> 09/17/09 Thursday 1:50 P.M.. I ate a ham and cheese sandwich with mayo and potato chips and watered down orange juice. CIO

Note: <888> 09/17/09 Thursday 1:20 P.M.. My relatives are back with the groceries. One of my relatives had a telephone call that I gave a message to.

The Barbour warehouse outlet store in Kittery, Maine is listed at http://www.thekitteryoutlets.com/store_display.cfm?storeID=278&entrypoint=fromlist .

If you want to look at the regular price of Barbour items, you can look here <http://www.bestgear.com/barbour> or <http://www.barbour.com/> . My quilted jacket I got for \$50 is regularly \$149, and the quilted vest, I got for \$25 is regularly \$110, and the Country shirts, I got for \$25 are regularly \$100, so the Barbour outlet store is a good deal, if they

have the item you need in your size. They have men's leather jackets for \$300 and men's and formal and field coats for \$150. CIO

Note: <888> 09/17/09 Thursday 12:15 P.M.. I woke up at 9 A.M. This morning. I ate breakfast of oatmeal with honey and a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I cleaned up the kitchen. I made my bed. I watered the plants all around the house, and I also watered the new grass in back of the house. I showered, and I cleaned up. My relatives went to the Stop and Shop in Kennebunk. I will go to the beach with one of the relatives this afternoon, and then we will go to T.J. Max in Biddeford, Maine late this afternoon. The primary wireless internet access from a neighbor is not working this morning, but lower baud internet access from another neighbor is still working. CIO

Note: <888> 09/16/09 Wednesday 9:45 P.M.. I watched some television with my relatives. I will now shut down the computer, and I will go to bed. Mostly sunny tomorrow with a high of 66 degrees Fahrenheit. CIO

Note: <888> 09/16/09 Wednesday 8:45 P.M.. After the last note, I ate a bacon, cheese and tomato sandwich with watered down orange juice. At 12:40 P.M., we left, and we went by the Kennebunkport post office. We then drove west out of town on Route 9 to Route 1 West into Wells, and we got on the Maine turnpike south in Wells, and we drove to the end and paid a \$2 toll. We then got off at exit 2 of the New Hampshire turnpike, and we paid a .75 toll. We took Interstate 101 west to I-93 South to I-293 South to the Manchester, New Hampshire airport. We did not pay to park in the hourly parking since one of my relatives have a handicap parking permit. They had a wheel chair at Southwest air for my relative on a cane to use. We met the arriving relative, and we picked up the luggage. I also used the bathroom. We went back the same way. When I drive my relative back to the Manchester, New Hampshire airport next Wednesday morning, I will take I-93 South to I-495 West to return back to Greenwich, Connecticut. At the Maine turnpike, we got off at exit 3 for Kittery, Maine, and we went by Barbour British clothing outlet store. My relatives bought me for early Christmas presents, two medium weight long sleeve XX Large wool shirts in small plaid pattern for \$25 each, a white quilted vest for \$25, and a baby blue quilted jacket for \$50 and both in XX Large. I used the bathroom at Eddie Bauer next door. We stopped by the Comfort bedding store next. We then drove up U.S. 1 back to Kennebunkport, taking Route 9 back into town. I saw three different thrift shops along U.S. 1 while we were driving the 20 mile stretch of road. We went to the Ramp restaurant in Cape Porpoise. I had fried clams, with French fried potatoes and cole slaw and ice tea with a splenda and wedge of lemon. We returned back to my relatives' house. I put away the laundry, and I will now chatted with my relatives for a while. CIO

Note: <888> 09/16/09 Wednesday 12:15 P.M.. I swept off the deck. I started the dry cycle on the laundry. I saw on of Maine's biggest businesses drive by Poland Spring <http://www.polandspring.com/> . I will now shut down the computer. We have to leave about 12:30 P.M. To pick up a relative at the Manchester, New Hampshire airport who is coming in about 2:40 P.M.. It is a 75 mile drive there with local roads to get to the Maine turnpike. CIO

Note: <888> 09/16/09 Wednesday 11:35 A.M.. I woke up at 9 A.M. This morning. I ate breakfast of oatmeal with honey and a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I cleaned up the kitchen. I made my bed. I showered, and I cleaned up. I am starting a load of laundry. I used to leaf blower to clean off the front driveway and front sidewalk. I chatted with a friend on the wireless. A relative who reads the local newspapers told me that a lot of the Catholic churches in Maine are going to have to shut down for lack of donations. The local newspaper article mentioned that St. Joseph's Roman Catholic church in Saco, Maine is having financial difficulties. I noticed when we drove by it yesterday, they have a computer repair shop across the street from its entrance. Also Saco, Maine has an Amtrak train station, a www.army.mil recruiting station, and a social security office. Thus like a lot of other economically depressed communities, they might have a bit of infrastructure to help them recover from the Obama recession. CIO

Note: <888> 09/15/09 Tuesday 11:20 P.M.. I watched a bit of television. I will now shut down the computer, and I will go to bed soon. Partly cloudy tomorrow with a high of 62 degrees Fahrenheit. CIO

Note: <888> 09/15/09 Tuesday 8:05 P.M.. After the last note, we went by the Kennebunkport post office. We then drove up U.S. 1 to <http://primevw.com> , and my relative had the oil changed on the Passat. I read the www.nytimes.com while they were doing the work. They also have Prime Toyota and Hyundai and another dealership Subaru in the same area. We then returned via U.S. 1 south which has construction. A relative called on the wireless whether to bring a hair dryer. Apparently there is one in the house. We stopped by CVS at Kennebunk. We then returned to my relatives' house, and I took a 2.5 hour nap. We then watched the evening news. We ate dip and crackers, and I had watered down orange juice. For dinner, I had the reheated spaghetti with tomato meat sauce and a reheated barbecued boneless center cut pork tenderloin with grated Parmesan cheese and a tossed green salad and watered down orange juice. I cleaned up the kitchen. There is not too much happening this time of year in downtown Kennebunkport, except a few buses a day of retired senior citizens visiting off the cruise ships that arrive in Portland, Maine this time of year. We have to pick up another relative at the Manchester, New Hampshire airport tomorrow afternoon about 2 P.M.. It is 70 miles away, so will have to leave about two hours before that. CIO

Note: <888> 09/15/09 Tuesday 12:10 P.M.. I removed the air conditioners from the windows in the library and the master bedroom. The gutter cover person was here to make some minor adjustments. The yard person supervised those adjustments. I watered the hanging and new plants in front and the flower box and new grass in back. I ate a turkey and cheese sandwich with potato chips and a glass of watered down orange juice. We will go out to get the oil changed on the Volkswagen Passat in Saco, Maine soon. CIO

Note: <888> 09/15/09 Tuesday 10:00 A.M.. I was awake at 8 A.M. This morning. I ate breakfast of oatmeal with honey and a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and

half and half. I showered, and I cleaned up. I brought in the empty garbage can from the street, and I put it in the garage. CIO

Note: <888> 09/14/09 Monday 11:25 P.M.. I watched some television. Last night, I woke up, and I ate a bowl of potato chips. I just now ate a bowl of potato chips and a oatmeal cookie. I will now shut down the computer, and I will go to bed soon. High tomorrow of 74 degrees Fahrenheit and sunny. CIO

Note: <888> 09/14/09 Monday 8:25 P.M.. I uploaded some pictures to https://www.google.com/accounts/ServiceLogin?hl=en_US&continue=http%3A%2F%2Fpicasaweb.google.com%2Fhl%2Flogin%3Fcontinue%3Dhttp%253A%252F%252Fpicasaweb.google.com%252Fhome&service=lh2<mpl=gp&passive=true for relatives to look at.

I washed my Audi with a bucket of soapy water and wet towel and the hose, and then I dried it with a towel.

I went out with a relative, and we went by the Stop and Shop in Kennebunk, and I returned some bottles for recycling. We then went by the Irvine gasoline station, and we filled up a relative's car. We then went by CVS.

On the CVS blood pressure machine, I am 134, 78, 80 which is not too bad. English muffins there are \$1.99 for a dozen.

We then returned to my relatives' house. We had heated triscuts with cheese and chutney, and I also had some watered down orange juice. We watched the evening news.

For dinner, we ate spaghetti with tomato meat sauce and grated Parmesan cheese, and I also had watered down orange juice. I cleaned up the kitchen, and I started the dishwasher. I threw out another bag of kitchen garbage that I put in the trash can out by the road. CIO

Note: <888> 09/14/09 Monday 3:45 P.M.. I woke up at 10:30 A.M. This morning. I ate breakfast of oatmeal with honey and half of a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I put bone meal around the two plants in the southeast corner of the property. I sprayed the two rose bushes with rose spray. I emptied the kitchen garbage. I put the big garage garbage can out by the street to be picked up tomorrow. I showered, and I cleaned up. The gutter cover people are coming tomorrow instead of today. I watched some television. We have to get a relative's oil changed tomorrow afternoon up at the Volkswagen dealership in South Portland, Maine. Wednesday afternoon we are picking up a relative at the Manchester, New Hampshire airport. We went by the Kennebunkport post office. We then sat out at the eastern end of the Kennebunk beach. I walked east to the breakwater, and I took some pictures. I walked west about halfway west on the Kennebunk beach. I chatted with a relative and other beach goers. I walked back east the breakwater, and I took some more pictures. Starting on Wednesday, September 16, 2009, anyone in the world can park on the Kennebunk beach parking road along side of it. We drove along the Kennebunk beach to the far end to the west. We drove back to my relatives' house after

looking at some waterfront cottages on the west side of the harbor.

Note: <888> 09/13/09 Sunday 7:25 P.M.. I ate two oatmeal cookies before going to bed last night. I woke up at 10:30 A.M. This morning. I ate breakfast of two scrambled eggs, three strips of microwaved bacon, a toasted English muffin with butter, and watered down orange juice with vitamins and supplements. I showered, and I cleaned up. I took some pictures of the family house, and I walked down by the waterfront, and I took some pictures. I took some pictures of a relative on the deck. We went out, and I took some pictures by St. Ann's episcopal church by the sea. We the drove over to the eastern end of Kennebunk beach, and we sat out in the sun by the ocean for about an hour. I took some more pictures. I saw a former Presidential boat leaving the harbor. We then drove by the waterfront on Kennebunkport. We looked at new neighborhood on the left as one passes Walker's Point. They have built a lot of new houses around here out in the woods as the area has become more developed over the years. I then upload the pictures at https://www.google.com/accounts/ServiceLogin?hl=en_US&continue=http%3A%2F%2Fpicasaweb.google.com%2Fhl%2Flogin%3Fcontinue%3Dhttp%253A%252F%252Fpicasaweb.google.com%252Fhome&service=lh2<mpl=gp&passive=true , so other relatives could look at them and save them.

I ate dinner of two boneless center cut pork tenderloins barbecued on the grill, steamed broccoli and baby carrots with butter, and a microwaved mixture of brown and wild rice along with watered down orange juice. I cleaned up the kitchen. CIO

I watched the last quarter of the University of Michigan wolverines beating the fighting Irish of Notre Dame. For dinner, I ate seasoned baked haddock, two ears of corn on the cob with butter, a tossed green salad, and watered down orange juice. I cleaned up the kitchen. It has quit raining for now. CIO

Note: <888> 09/12/09 Saturday 3:15 P.M.. I will now take a nap. CIO

Note: <888> 09/12/09 Saturday 2:55 P.M.. I ate a turkey and cheese sandwich with a bowl of fish chowder and a glass of watered down orange juice. I put away the laundry, and I put clean sheets on my bed. CIO

I ate breakfast of oatmeal with honey and half of a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and coffee with sugar and half and half. I showered, and I cleaned up. I stripped the bed, and I am doing a load of laundry, and I just started the dry cycle. I went out with a relative, and we drove around the back area of Kennebunkport near the waterfront. We then went by the Kennebunkport post office. We then drove along the Kennebunk beach. We looked at the nice houses on Country Club Road just north of the Kennebunk beach. We sat in the car watching about two dozen surfers surfing the rough surf in the rain at the Kennebunk beach. We then returned to my relatives' house. There are a lot of tourists downtown in the rain. The gutter covers on the rear deck area of the house and the south side seem to be working just fine in the heavy rain.

I ate breakfast of oatmeal with honey and half of a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and a coffee with sugar and half and half. The housekeeper and lawn person were here this morning. The lawn person sometime in the future is going to check the upstairs drier vent in the attic to see if possibly a mouse ate through the hose, which is how it possibly got into the drier during last winter.

I showered, and I cleaned up. I went out with a relative, and we went by the Kennebunkport post office. We then by Irvine gasoline station in Kennebunk. We were driving my Audi, and my relative bought me \$16 of self service premium gasoline at \$2.879 a gallon for 5.559 gallons at odometer reading of 64544 for 155 miles driving since the Massachusetts turnpike rest area driving up here for 27.883 miles per gallon driving. We

then went by the Stop and Shop, and we got groceries. Earlier in the day, I checked the oil in Audi, and I put in about 1/3rd of a quart of Pennzoil 10W40 oil in it. When we returned back to my relatives' house, I brought in the groceries. I ate a turkey and cheese sandwich and a cup of popcorn chicken nuggets and some potato chips and watered down orange juice. I took a nap from 4 P.M. To 6 P.M.. We watched the evening news. I chatted with a friend on the wireless. I ate the reheated baked Scottish wild salmon and two ears of corn on the cob with butter and watered down orange juice. I cleaned up the kitchen. While watching www.foxnews.com, we watched the Space Shuttle land at Edwards air force base in California. I read today's New York Time www.nytimes.com , and there is a bit more about the 400th anniversary of the Dutch discovering Manhattan. CIO

Note: <888> 09/10/09 Thursday 11:10 P.M.. I watched some television, and I read the www.nytimes.com .

Note: <888> 09/10/09 Thursday 8:00 P.M.. I took some pictures outside around the house of the new improvements at sunset, but in the lower light, I am not sure they will come out. We watched the local and national news, and we ate some crackers with cheese and hummus, and I had a glass of watered down orange juice.

We ate dinner of baked filet of Scottish wild salmon, corn on the cob with butter, a tossed green salad, and I drank a glass of watered down orange juice. I cleaned up the kitchen.

Note: <888> 09/10/09 Thursday 5:15 P.M.. I watered the plants all around the house and the new grass too. A relative returned at 3:30 P.M., and we drove along the Kennebunkport waterfront passed Walker's Point to Sanborne's seafood and organic produce. My relative bought two nice ears of Maine organic corn and 1.5 pounds of Scottish wild salmon for \$10.99 a pound. They also have 1.5 pound lobsters. We then returned back along the waterfront. I noticed all of the flags are at half staff at Walker's Point I guess for Senator Kennedy from Massachusetts. I tried on the new blazer, but is a size 50 which is too large for me, so I will exchange it for about a size 46 at the Joseph Banks store in Stamford, Connecticut next to the Stamford mall. I took five pictures of a relative with a new hair style. I sat out on the rear deck for a while. It is a very nice day. There might be a few showers here on Saturday, but it basically is suppose to be nice for

the next five days. There are a lot of people in downtown Kennebunkport whom have come up for the nice weekend. I would be willing to bet the clam shack by the Kennebunkport draw bridge is one of the most profitable businesses in town. All of the tourists from the tour buses line up there for seafood on the go. CIO

Note: <888> 09/10/09 Thursday 2:40 P.M.. I read the most recent issue of www.time.com until 10 P.M. Last night. I ate three cookies. The bunk room Magnavox television did not have a remote control. In the other downstairs guest room, I found a Radio 5-in-1 Universal Remote control #15-2135.

At this page <http://www.hifi-remote.com/manuals/manual.shtml?15-2135>, I followed the instructions to press the setup button until the light flashed on the remote control and then the TV button, and then I entered code "062" , and now the RadioShack remote control works on the Magnavox television, so one can turn it on and off and change channels.

I went to bed until 10 A.M. This morning. I had a bit of a digestive problem with getting a mild case of diarrhea several times, which all I can figure out, is the Kennebunkport water does not agree with me.

The gutter cover people were here, as well as the house keeper and yard person, and the gutter people said they would be back here on Monday to fix the problems with the gutter covers, and they also said they would give a written guarantee.

I ate breakfast of oatmeal with honey and half of a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and a coffee with sugar and half and half.

I showered, and I cleaned up. I started a load of laundry, and I am now on the dry cycle. I found the bunk room bath tub rubber mat by the sink next to the basement washer machine, so I now have anti slip protection in the bath shower.

I went out, and I went to the Kennebunk beach. One can park there in the daytime after September 15, 2009. My relatives have a parking space there, so I walked the entire length of the Kennebunk beach in both directions. There were a few para sailors on surf boards. There was a bag piper on the eastern breakwater. After my walk, I drove down to far end of the beach and back. There is property for sale by the eastern end of the Kennebunk beach.

I noticed at the Kennebunk information center <http://www.visitthekennebunks.com/> .

I parked across the street from the Kennebunkport post office, where there are a few free one hour parking spots. I went by the Colonial Pharmacy, but they do not carry mouse pads. I forgot the Dell Latitude CS laptop mouse pad, when I brought it up here, and I have been using the IBM Netvista mouse pad. At the tourist shop on the south side of the street heading west just before the Kennebunkport bridge, I found a Rico Industries Boston Red Socks mouse pad regularly \$14.99 for \$10 and .45 tax for \$10.45 total. I used

the new public bathroom downtown by the public parking area. I then returned back to my relatives' house. I put the new mouse pad by the Dell Latitude CS laptop computer, and I returned the other one to the IBM Netvista computer in the downstairs guest room. UPS delivered a new blue sports blazer for me from Joseph Banks <http://www.josbank.com/> that a relative sent me. I have been wearing a size 50 tall Ralph Lauren wool blazer made in Canada from Filenes which is a bit large for me. I will open it, when a relative returns.

I ate the other half of the ham and cheese sandwich with potato chips and watered down orange juice. CIO

Note: <888> 09/09/09 Wednesday 8:20 P.M.. After the last note, the Internet slowed down quite a bit. I could not get many of the web sites that I normally look at. It seems to happen around here at about 4 P.M. After Labor Day. I went out to dinner with a relative and we met two other relatives at the Wayfarer restaurant in Cape Porpoise. I had the regular Wednesday night turkey special for \$14.95 which came with baked white turkey meat with stuffing and gravy and mashed potatoes and peas and a sour dough roll, and I also had a glass of water. We said good bye to the relatives, and then we drove out to Cape Porpoise point after sunset, and then we returned to my relatives' house. CIO

Note: <888> 09/09/09 Wednesday 4:15 P.M.. Today is a lucky day in Japan with all nines. I woke up last night, and I ate three cookies. I woke up this morning at 10 A.M.. I ate breakfast of oatmeal with honey and half of a sliced banana, watered down orange juice with vitamins and supplements, a toasted English muffin with butter, and a coffee with sugar and half and half. I watered the plants in front of the house and the side of the house. I then watered the flower box in back of the house and the new grass which has grown up quite well. I then watered the plants on the deck. Last night I emptied the two dehumidifiers downstairs. I chatted with a relative. I showered, and I cleaned up. The rubber bath tub mat is missing from the bunk room bathroom. I went out with a relative, and we dropped by a letter nearby. We went by the Kennebunkport post office. We then went to Best Nails in Kennebunkport, and a relative had her toe nails done which took 1.5 hours. We then returned back to the house. I ate a half of the ham and cheese sandwich I brought up with potato chips and watered orange juice. We are going out to dinner at 6 P.M. This evening and meeting up with other relatives. Today would be a relative's 100th birthday if he were still alive. It is another relative's 98th birthday. CIO

Note: <888> 09/08/09 Tuesday 8:25 P.M.. I took an hour nap. I went out with a relative, and we went by the Kennebunkport post office to mail some letters. We then drove along the Kennebunk beach, and I stood out for a brief period looking at the view at low tide on a warm evening. We then drove along the Kennebunkport waterfront, and then we returned to the family house. For dinner I ate two hot dogs cooked on the grill with mustard ketchup and diced onion, a ear of corn on the cob with butter, and a bowl of fish chowder and watered down orange juice. I cleaned up the kitchen. I chatted with a relative.

Note: <888> 09/08/09 Tuesday 4:40 P.M.. I woke up at 6 A.M. This morning. I ate breakfast of oatmeal with honey and milk, a toasted English muffin with olive oil, watered down passion punch with vitamins and supplements and a cup of coffee with splenda and milk. I washed the breakfast dishes, and I made my bed. I showered, and I cleaned up. I lightly watered the plants. I turned off the air conditioner, air purifier, toilet water, and electricity to the hot water tank. I left a couple of low lights going in the apartment. I had already packed the car, and I brought down a few other items. I threw out the garbage, and I chatted with neighbors. I left at 8:15 A.M.. I drove east on Putnam Avenue to North Maple, and I took North Maple to North street up to the Merritt Parkway or I-15 east. West bound traffic was backed up until Fairfield. There was a commercial truck stuck at a bridge between North Street and Den road. Traffic east bound was moving with out any problems. I stopped at the Fairfield and the North Haven rest areas. I got on I-91 North, and I stopped at the rest area. I got on I-84 East, and I stopped at the Vernon rest area. I chatted with a couple of people, one from Florida. I got on the Massachusetts turnpike East, and I stopped at the turnpike rest area. I ate one of the two ham and cheese sandwiches that I brought with me. The former welcome center is now a Massachusetts Department of Motor Vehicles office on the turnpike. I drank some water from a fountain. At the Gulf oil pumps, I put \$14 of self service premium in at \$2.949 a gallon for 4.747 gallons at odometer reading of 64389 miles and 134.2 miles since I filled up last Saturday for 28.27 miles per gallon. I got off at the first exit I-290, and I paid a .50 toll. I took I-290 north to I-495 east. I stopped at the Lowell rest area. I chatted with a relative on the wireless. I took I-95 north the New Hampshire turnpike, and I stopped at the New Hampshire rest area and chatted with a relative again, and I paid a \$2 toll. I got on the Maine turnpike north, and I paid a \$2 toll. I got off at the Saco Wells exit, and I headed south to Route 9 east. I took Route 9 east to the Kennebunkport turn off, and I drove into Kennebunkport arriving at my family's house at 2:20 P.M. For 260 miles driving from

Greenwich. I unpacked the car. I put the bent wood oak chairs in the basement. The deck with the grey stain looks great. The new grass seed in back has grown up fine enough. There are new gutter covers that apparently were not installed improperly. The garden in front looks to have been mostly completely redone, and it looks much better. I went downtown with a relative to the Kennebunkport post office. We then drove along the waterfront passed Walker's Point, and then we returned to my family's house. The wireless internet is working at 24% connectivity with the Hawking wireless receiver which is good enough. They are putting a new roof on the neighbor's garage in front. I unpacked. I will now take a nap. CIO

Note: <888> 09/05/09 Saturday 6:15 P.M.. I woke up at 8 A.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of passion punch and cold filtered water with vitamins and supplements, and a cup of coffee with splenda and milk. I chatted with a relative. I went back to bed until noon. I washed the breakfast dishes. I made my bed. I surfed the internet. I ate the two remaining pieces of pizza that I reheated along with watered down passion punch. I

showered, and I cleaned up. I threw out the garbage, and I chatted with neighbors. I went downtown, and I walked the entire length of Greenwich Avenue and the train station area. I sat out at various locations. I stopped by the Greenwich Cigar store, and I bought a number 24 Amazing 8's scratch card for a dollar, but I lost. I stopped by CVS, and I bought four bonus packs of four RTH 60 watt energy saving bulbs for \$4.99 each pack of 4 and a RTH 40 watt tube bulb for \$2.15 less a \$4 off \$20 CVS internet coupon and \$1.09 tax for \$19.20 total. I finished my walk, and I sat out for a while. I then drove over to the Greenwich Automotive Services Gulf station, and I bought \$11 of self service premium for \$3.259 a gallon for 3.375 gallons 36.9 miles driving since last Sunday at odometer reading of 64255 miles for 10.933 miles per gallon local driving in traffic with the air conditioner going. I cleaned the outside windows. The tire pump was busy, so I did not check the tires. I then went to the Stop and Shop, and I bought two Kaiser rolls for .69 each, a 64 ounce container of Kodem grape juice for \$2.99, and Chiquita bananas for .69 a pound for \$1.34 for \$5.71 total. I then returned home, and I picked up the mail. I put all of the energy saving bulbs on the left hallway bookcase on the middle shelf to have available for the next few years, when I need them. I chatted with a relative. CIO

Note: <888> 09/04/09 Friday 10:00 P.M.. To make the frozen 34 ounce Stop and Shop multi topping pizza. I took my 15 inch diameter aluminum pizza pan, and I rubbed it with olive oil. I then placed the frozen pizza on it. I sprinkled garlic powder, ground black pepper, Italian seasoning, and celery salt generously on it. I then spread about a 1/3 of a cup of grated parmesan and Romano cheese on it. I then spread about a 1/3rd of a cup of olive oil over it. I then peeled sliced thinly two medium onions, and I spread the onion slices over the pizza. I placed the pizza on the pan on the standing rack, so it was half way up in the Sharp convection oven, and I baked it on convection cycle at 400 degrees Fahrenheit for 28 minutes. I let it cool for five minutes. I cut it into quarters, and I ate half of the pizza with watered down passion punch. I refrigerated the other half. I watched two British comedy shows on the Channel 21 Educational channel. CIO

Note: <888> 09/04/09 Friday 8:00 P.M.. I went outside, and I chatted with neighbors. While downtown today, I got a brochure for CancerCare Walk for Hope which is Saturday September 13, 2009 at Jennings Beach in Fairfield, Connecticut at 9 A.M. for a 5 Kilometer walk.

I picked up my mail. I got my www.cl-p.com electric bill, and for August 2009, it was \$266.68. It shows how much the air conditioner costs during the hot period now.

For 29 days in August 2009, I used 1419 kWh or 48.93 a day and the average temperature was 73 degrees Fahrenheit.

For 32 days in August 2009, it was \$241.72 and 1301 kWh or 40.66 a day with an average temperature of 70.6, so this August 2009 ran 2.4 degrees Fahrenheit warmer than last August 2008.

I will now bake and eat half the 34 ounce frozen Stop and Shop pizza, and I will eat it with watered down passion punch. CIO

Note: <888> 09/04/09 Friday 7:10 P.M.. I woke up at 10 A.M. this morning. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of passion punch and cold filtered water with vitamins and supplements, and a cup of coffee with splenda and milk. I went back to bed until 1:30 P.M.. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I threw out the garbage, and I chatted with neighbors. I watered the plants. I threw out the garbage and the old periodical literature. I walked around the building. I received my rent bill from the Greenwich Housing Authority. I drove over to the Chase Bank just west of Greenwich Avenue on West Putnam Avenue. I then went by the Wachovia Bank on Havemeyer Place, and I paid my rent to the Greenwich Housing Authority. I then walked the entire length of Greenwich Avenue and the train station area. I chatted with a regular downtown person. I used the bathroom at the Senior and the Arts center. I stopped by the Greenwich Hardware store. They no longer give one replacement circular florescent lights bulbs at my public housing, and we now have to pay for them. A 16 inch circular General Electric florescent light bulb that lasts five years is \$16.99 at the Greenwich Hardware store, which I decided not to get. I then went by CVS, and I bought for half price an RTH emergency LED utility light switch for \$4.50 and .27 tax for \$4.77 total. I finished my walk. I then returned to my car, and I saw a very healthy young man wearing a Sardinia T-shirt. For some reason because the Sardinians eat sardines, they look very healthy. I can not afford sardines, so I take RNA and DNA tablets from the www.vitaminshoppe.com . I next drove over to Home Depot in Port Chester, New York. They have plenty of the Home Depot Catalogs & Circulars RIDGID® 9-GALLON WET/DRY VAC \$19.97 through September 9, 2009 , but it only has a 10 foot cord, so you would probably have to use an extension cord with it.

I bought 16 inch circular Philips florescent light for \$7.98, a 12 inch Philips Daylight Deluxe circular florescent light for \$8.98, a 8 inch Philips Daylight Deluxe circular florescent light for \$6.97, a four pack of GE 2X life 40 watt clear torpedo bulbs for \$3.87,

and a 4 pack of 100 watt equivalent Ecosmart soft white florescent compact bulbs for \$7.97 and \$2.64 sales tax for \$38.41 total. I chatted with a relative on my wireless while there. I then returned home. I put the new new 16 inch Philips circular florescent light fixture in the overhead kitchen light fixture. I saved the old one bulb which still works to have for a spare. I put the RTH with three AAA alkaline batteries on the right inside kitchen wall midway as one enters the kitchen to have for emergency light should the kitchen overhead light burn out or the electricity go off. I will now shut down the primary Vista computer, and I will go to bed soon. I ate 90% of a 12 ounce can of almonds with some watered down passion punch.

I originally thought when I got on the internet 20 years ago, I might have better communications with the outside world, but when one is on the lower economic scale of the economic prosperity ladder of success, people generally do not want to communicate with you and think you might shake them down for some sort of economic advancement. Although I have read a great deal in my life, I am not sure it is relevant to the new socialist political business agenda in America, since it seems that individuals whom know something about Capitalism are no longer relevant. I suppose I could look into some other countries where Capitalism might still exist, but most of my experience has been from reading not actually practicing it.

[Michael Louis Scott's Resumee](#) pretty much says it all.

I suppose there are some people whom have been reading books in the same period. However, I find the local Greenwich Library [Welcome to Greenwich Library](#) is mostly filled full of liberal propaganda, which may or may not be relevant to the real world of business and capitalism. From what I can tell, the library continues to be a good resting place for those people traveling out from Manhattan and navigating around this area, but the news is only one part of the information in the world, and sometimes people are more involved in the more scholarly research surrounding some of the subject matters that other people do not pay much attention too. I suppose in the long run, with all of its computer books and magazines, the Greenwich Library has been useful to me, but I have a feeling the younger generation travels so much, their impressions of the new world are much more different than mine from when I use to travel more up until about 26 years ago, when I settled back in Greenwich, Connecticut. I suppose with more modern communications more people are exploring the world looking for new adventures, but since I am legally disabled, I prefer to stay at home in this area, except for a few trips to visit with relatives in the summer up in Kennebunkport, Maine. Since I chat with them regularly, I am pretty much familiar with their routines, but I am not necessarily experiencing the same weather on a year round basis that they are experiencing down south of me. Well anyway, I would advise people whom are planning to stay in this area this winter, they should get ready for winter, and possibly be prepared for a colder winter like last winter. Last winter, I only got outside once or twice a week because of the colder snowy weather conditions, and from

my experience here, the periods of colder weather here are longer than the periods of warmer weather. CIO

I chatted with a regular. I browsed the front entrance area of CVS. After I finished the entire circuit on Greenwich Avenue, I sat out for a while. I then walked lower Greenwich Avenue. I chatted with a cosmetics salesman with a stand in front of Starbucks. I chatted with a regular again. I then used the bathroom at the Senior and the Arts center. I then went by the Greenwich Library. I read Britain magazine. It showed a nice country house that had been changed into a hotel with various size apartments for guests. It mentioned a large house a famous English writer had lived in. There was an article about the Royal Purveyors Seal, and it showed Prince Charles checking out a custom made shoe shop. It mention two common British items that are for sale in America which are Twinings tea and Lea and Perrins Worcestershire sauce. I think they are about the only thing the British sell in America anymore except for some various liquors, but I am not sure if they have the royal seal or not. There was an article about Scotch whisky making too. It mentioned Old Grouse scotch. The British tend to be old fashioned, and they tend to do things the traditional way. They also put a statue out in downtown London of the Queen Mum in front of her husband. I will have to look at it more often whenever Britain magazine arrives. Maybe they will bring a new copy on the QM2 - Itinerary - 2009 this Friday. Since not many people speak English anymore in Greenwich, Connecticut, it is nice to stay in touch with the mother tongue from overseas.

I then use the bathroom at the Greenwich Library. As usual we have a lot of foreign visitors, and I saw people from India, so they must have liked the sunny weather today.

I next went to the Stop and Shop, and I bought two 20 bag boxes of Twinings green tea bags for \$2.50 each, a 15 ounce bottle of Lea and Perrins Worcestershire sauce for \$4.39, and a 32 ounce Stop and Shop frozen self rising pizza with a variety of toppings for \$4.99 for \$14.38 total. I then returned home. I picked up the mail. I got a new Stop and Shop savings card and two key chain cards, and one has to register it at www.stopandshop.com/mynewcard , which I will do shortly. I chatted with two friends and a relative. I made and ate the same dinner as last night. Note: <888> 09/01/09 Tuesday 10:15 P.M.. Martha's Vineyard has a youth hostel, but I do not think it is winterized for the winter.

Also on Cape Cod near Bourne, on the waterfront there is the Poor House run by the Episcopal archdiocese of Cambridge, Massachusetts that put up younger people year round, and they use to have a large amount of U.S. government surplus food. They are a

communal group, so everyone has to agree on everything before they do anything which tends to be time consuming.

Another boat load of prisoners is arriving this Friday from England QM2 - Itinerary - 2009

.

In England they are so use to cold weather, a great many people end up sleeping outside during the winter, when they are homeless, and unless one were use to very cold weather, I would advise against being homeless there.

I did once sleep on the couch of the Anglican seminary at the University of Toronto in Toronto, Canada for a week back in December 1983, but they just thought I was a student sleeping there, and it was not really a homeless shelter. After being asked to leave one night and standing out all night outside in the cold outside of another dormitory called Tartu, or something like that named after a city in northern Europe in Estonia, I decided to take the train back down here to Greenwich, Connecticut when at that time, it was a rather simple town with room to grow, and after two weeks of being homeless in Manhattan with only W. Averill Harriman's sister's garage apartment telephone number, I have been living in Greenwich, Connecticut ever since, and it happens to be where I have lived the longest in my life, and it happens to be where my step father was a top officer in the Putnam Trust Bank, which is now part of Bank of New York, so I manage to survive off government assistance and subsidies support and the good will of the community. Helen Clay Frick's next door neighbor in Bedford, New York use to visit me regularly for over 20 years, but he is now living further away in east Fairfield Beach, Connecticut, and he seems to have other friends that need more help. CIO

Note: <888> 09/01/09 Tuesday 9:40 P.M.. I went outside, and I chatted with a neighbor. I picked up my mail. I chatted with a relative. I made and ate the same dinner as last night.

I was told today a lot of homeless people have been showing up at the Greenwich, Connecticut Department of Social Services.

From what I know having dealt with a few homeless people downtown over the years is that they are usually from New York City, and they come out to Connecticut hoping for better social services. Actually the state of New York actually gives more money in Welfare and has a larger social services network than Connecticut.

What I do know is that Westchester County, New York clients have a shelter at the Westchester County airport, but there is not much around there except bus service to other parts of Westchester County.

The town of Greenwich, Connecticut gives \$50,000 a year to support the Stamford, Connecticut homeless shelter.

Norwalk, Connecticut also has a homeless shelter.

The Stamford, Connecticut Y.M.C.A. has inexpensive rooms, but they are generally more than welfare will pay for.

Westport, Connecticut has a small homeless shelter next to the police station with about 20 beds that quickly fill up, once it gets cold. They also have a community out reach program.

If one is Nordic, and does not like dealing with homeless people from the southern third world, Portland, Maine has a Y.M.C.A.

Generally social services in Florida are overwhelmed in Florida in the winter where lots of homeless people go to be warmer, so one can end up sleeping outside on chilly winter nights.

San Diego, California is suppose to have a state of the art homeless shelter funded by Joan Kroch of the www.mcdonalds.com company, but that probably fills up fast in the winter.

Omaha, Nebraska is suppose to have the best food of any homeless shelter, since they have a lot of food out there, but it is colder in Omaha, Nebraska.

Of course there are probably smaller geographic areas that might have less publicized homeless facilities or cheaper rents.

In Nantucket in 1970s and early 1980s, I paid \$5 a night for a bed in a boarding house, and I worked on the island.

Usually by the time people become homeless, they have exhausted all other avenues of relief such as relatives, churches, friends, and social welfare agencies. CIO

Note: <888> 09/01/09 Tuesday 7:10 P.M.. I woke up at 10:30 A.M. this morning when a relative called. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of passion punch and cold filtered water with vitamins and supplements, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I made my bed. I chatted with another relative. I showered, and I cleaned up. I went downtown, and I went by the Chase Bank just west of Greenwich Avenue on West Putnam Avenue. I then went to my 3 P.M. appointment. I noticed at the Greenwich Town Hall parking lot, they have a new parking meter system, where one goes to one of several dispensing machines and buys an hour worth of time for 50 cents. I bought two hours of time for a dollar. They have a number of short term coin meters for 25 cents for 20 minutes. I then went by the Greenwich Hospital Thrift Shop. They are opened at their current location on Sherwood Place until Friday September 4, 2009. Everything is half price of what remains. They have a number of book cases for sale along with their usual variety of other items. I bought a 18.1 inch square Compaq Flat Panel Monitors 18 inch - Compaq TFT8030 Monitor - Overview - c00335834 - HP Business Support Center for \$32.50. It has a year 2002 manufacture date. I chatted with a few customers, and I helped load a oak bookcase into a customer's car trunk. I then returned home. On the FIC server, I disconnected the Minolta 1350W laser printer from the control

panel switch plug, and I connected it to the control panel plug that is unswitched. I turned it side ways. I put the Compaq LCD monitor on the right side of the primary Acer LCD monitor. I hooked it up the switched plug, and the second vga plug on the FIC server. It works just fine. Now I have two monitors on the FIC server. I used the Brother Label system to label the two monitor switches. I will now go outside for a bit of fresh air and to pick up the mail. CIO

Note: <888> 10/31/09 Saturday 11:50 P.M.. I went ahead and set back the clocks and watches an hour. I think the televisions automatically set themselves back through the Cablevision system. I am a bit tired, so I will now shut down the primary Vista computer, and I will go to bed soon. I probably should do laundry when ever I wake up tomorrow after breakfast. I have not done my apartment cleaning since about mid August 2009, so I should some time think about getting around to that too. I will now send out my weekly notes, before I go to bed. CIO

Note: <888> 10/31/09 Saturday 8:25 P.M.. I went out after the last note. I picked up my guests at the Greenwich Train station. They arrived about 10 minutes late on the 3:01 P.M. train out from Manhattan. I showed them the new condominiums across the street from the Delamar Hotel to show them some new construction downtown. We then looked at a back country room for rent that goes for \$3,500 a month, but the place closes down in February I guess for lack of interest. I then drove up North Street and across Clapboard Ridge Road to Round Hill Road, and up Round Hill Road and across Close Road to Upper Lake Avenue and across Upper Cross Road to North Street to Banksville. We toured by the IGA shopping plaza. The Greenwich Hardware store in Banksville is now closed. They have a new fire department in Banksville, New York which I had not seen before. Just north of Scott Road off North Street before Banksville there are a lot of Halloween ghouls in the yard. There are new sculptures out at the Conyers Farm Polo Grounds. We drove back down North Street, and we drove by Paterson Avenue and turned down the side street that goes by the new Greenwich Hospital. I showed them the new Greenwich Hospital, but they were afraid to look. We then drove down Greenwich Avenue. I used the bathroom at Starbucks. I showed them the new Greenwich Police station. We looked at the pastries at Versailles, St. Moritz, and the new Belgium communal table restaurant. We looked at the Chinese take out restaurant, but my guests thought it smell funny. We then drove by the Panda Pavilion, but they did not have time to eat there. My guests ate a hamburger and salad with beverages at Wendy's. One of the patrons was wearing a Department of Corrections Orange Jump Suit. We then returned back to the Greenwich Train station, and my guests caught the 6:12 P.M. train back into Manhattan. I then returned home. I chatted with a neighbor. I brought up the mail. I chatted with a relative. I will now eat the same dinner that I have been eating recently of cold beef and steamed vegetables and watered down punch. CIO

Note: <888> 10/31/09 Saturday 1:40 P.M.. I will now shut down the primary Vista computer, and I will get ready to go out and meet my guests. My guests are thinking of moving out here for the more private peaceful low stress life in the country. CIO

Note: <888> 10/30/09 Friday 8:35 A.M.. I went out after the last note. I walked the entire length of Greenwich Avenue and the train station area. I chatted with a regular at the train station about the price of tea in China. I looked at the entrance of the new Greenwich Public Safety building, and there does not appear to be public bathrooms in the lobby. I used the bathroom at Starbucks. I told them I had seen on the BBC on television, they have built tens of thousands of new coffee shops in Europe, so I guess the Starbucks crowd now has some place to go. I completed my walk. I then went by the Stop and Shop, and I bought a 21 ounce bakery yesterday's good crumb cake for \$3, a 6 pack of Stop and Shop hot dog buns for \$1.34, a dozen large eggs expire December 2, 2009 for \$2.29, a half gallon of Stop and Shop premium orange juice with calcium for \$2.99, two 13.5 ounce reduced fat Cheez-its for \$2.50 each, red apples for .59 a pound for \$1.49, fresh Chiquita bananas for .69 a pound for \$2.09, a 5 pound bag of yellow potatoes for \$2.99 for \$21.19 total. I then returned home, and I put away my groceries.

I paid my November 2009 www.geico.com insurance payment. I still have two more monthly payments on the four payments of a six month policy.

I will now eat the same cold beef and steamed vegetables dinner that I have been eating recently. CIO

Note: <888> 10/30/09 Friday 5:15 A.M.. I used 10 drops of Schultz liquid plant food for each quart of water that I watered the plants with. It looked to be fairly busy and activity looked to be normal for that hour of the morning. I was told a couple of weeks ago by a Greenwich Police officer, that the new public safety building is suppose to open the first week of November 2009. Note: <888> 10/26/09 Sunday 11:20 A.M.. After the last note, I chatted with a friend who is thinking of moving out of New York City with her husband and moving back to Greenwich, Connecticut. I went to bed. I woke up at 3 A.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted bagel with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes, and I made my bed.

The last time I road a horse was in Greenwich, Connecticut back in the spring of 1976. I had quit smoking cigarettes. I ran into a friend riding a horse on the new lower playing fields at the Greenwich Country Day school. The friend let me ride her horse, and it took off at a full cantor across the 300 yards of playing field, and then it came to an abrupt stop by the stone wall on the fourth hole at the Greenwich Country Club, and the horse threw me over its head into the woods, and I never rode a horse after that. Strange things happen when one quits smoking cigarettes.

Of course when I did not smoke cigarettes in Decatur, Alabama as a youth back in the 1950s, I used to regularly ride horses on trails. You could rent them from a local stable for \$5 an hour, and I would ride on the trails in the woods. I also use to take care of my father's boss's daughter's horse, and I use to feed it every afternoon at a nearby private stable. I recall the horse once got mad at me, and it cornered me in the stall and tried to

trample me, and I quickly climbed up into the hay loft, and after a couple hours, it let me climb back down. I recall feeding the horse a very healthy food mixture. I can not remember everything. I think I fed the horse oats, barley, cracked corn, walnuts, apples molasses, and carrots. I also rode another horse at General Joe Wheeler's plantation, and I recall riding it at a full gallop across the open pastures, and I managed to stay on the horse, until it ran away with me, and it ran into the barn, and almost knocked my head off.

They also had horses at Lookout Mountain Camp for boys for trail riding in the woods.

Note: <888> 10/25/09 Sunday 8:05 P.M.. After the last note, I went to bed. About 2 P.M., I had a telephone call from a friend that said he would be visiting with family. I showered, and I cleaned up. I went outside, and I noticed the baseball field was active. I chatted with a neighbor. I went back inside to get a jacket. My friend and his wife and daughter arrived about 3 P.M.. We drove into back country Greenwich to look at a 17 year old white Dutch stallion show horse, they are thinking about leasing. We watched the riders and horse exercise the horse. We played with their dogs. My friends had a mixed breed Jack Russell Terrier and English Corgi that had recently had a \$3,500 liver operation, but their dog is doing well. We then toured around my family's old neighborhood in back country. We then to www.mcdonalds.com on West Putnam Avenue, and my friend's daughter ate chicken nuggets. We then returned back to my apartment, and the father and daughter used the bathroom. I saw them all leave about 7 P.M.. CIO

End of Scott's Notes week of 10/25/09:

Note: <888> 10/25/09 Sunday 11:25 A.M.. I put Net2Phone on all three of the Dell Laptop computers. However, the headset on the primary Dell Latitude CS laptop does not work very well. I also put the Xircom LAN Modem network adapter card in the secondary Dell Latitude CS laptop, and it is near telephones by the French reproduction chair, so it could be connected to Verizon telephone cable if the electricity ever went off or the Cable modem went out. Both of the Dell Latitude CS laptops also have new batteries. However, the Dell D410 will not have a battery until I can afford it. The Dell D410 also has a telephone modem jack and Juno free dialup, where it could be possibly connected to the Siemens Verizon telephone line in a power failure or cable modem failure. I also could run the laptops for a while off the UPS devices that I use on the primary and FIC computers. However, right now everything is all right. However, we are suppose to have a much colder winter than last winter which was bad enough as I recall. In a cold winter, one can get ice storms and power failure less you forget. Out in Long Island they have a lot of Natural Gas from Canada because of the pipe line from Canada to Long Island, so they do not worry as much about power failures in the winter, and also because Long Island is

surrounded by water, it tends to be warmer in the winter than the south shore of Connecticut.

I chatted with a relative. The relative told me the locals in Florida have imported a lot of large monitor lizards which can be more dangerous in the wild than alligators. They can grow to be up to six feet long.

I finished eating the opened last third of a 16 ounce jar of dry roasted peanuts.

I will now send out my weekly notes, and then I will go to bed for the day. I might be out for a late evening walk later this evening, since I have already done laundry. One does not find much lost money on Greenwich Avenue, since in 26 years back in Greenwich, Connecticut I have only found \$46 on Greenwich Avenue walking, and one \$20 bill I found on the floor of the old Grand Union, so that only works out to \$26 found on Greenwich Avenue in \$26 years or to be precise a dollar a year.

Maybe secretly I am still one of Franklin Delano Roosevelt's millionaire dollar a year employees, so they do not pay me very much if anything, but I get by.

CIO

Note: <888> 10/25/09 Sunday 8:35 A.M.. I went out after the last note. I walked the entire length of Greenwich Avenue and the train station area. I sat out at various locations. I used the ATM machine at the Chase Bank just west of Greenwich Avenue on West Putnam Avenue. It now accepts cash for deposits. I chatted with someone going into St. Mary's Roman Catholic Church about Florence, Italy back in the winter of 1972.

After my walk, I cruised around town, and I drove down by the waterfront on Steamboat Road. There was a full house of fishermen on the pier trying out the late season fishing. The lights appeared to be on out on Long Island. I then went by the Stop and Shop, and I chatted with one of their staff from the Caribbean about the Caribbean. I then went by the Stop and Shop, and I bought a six pack of Bulkie rolls for \$3.19, 1.5 pounds of Boar's Head white sliced American cheese for \$4.99 a pound for \$7.68, 1.5 pounds of Stop and Shop Virginia ham sliced for \$5.99 a pound for \$9.22, a quart of Borden's lemon juice for \$2.69, a cab eye round of top round roast for \$2.99 a pound for \$11.66, a two pound bag of baby carrots for \$2.99, fresh Chiquita bananas for .69 a pound for \$1.64, and broccoli crowns for \$1.99 a pound for \$1.87 for \$40.94 total. I then returned home, and I put away my groceries.

I forgot to put www.net2phone.com on both partitions on the Dell D410. I will do that shortly. CIO

Note: <888> 10/25/09 Sunday 4:30 A.M.. I will now shut down the primary Vista computer, and I will go out for an early morning walk. Currently it is 55 degrees Fahrenheit and partly cloudy. It is suppose to be a high of 58 degrees Fahrenheit today

with sunny weather. I will probably also try to go out for a walk later on this evening.
CIO

Note: <888> 10/25/09 Sunday 4:05 A.M.. On the Dell Latitude D410 laptop, I thought it used smaller network adapter cards, since it has a plastic tray that slides out that looks like it holds a smaller Network adapter. However, the small plastic tray slides all of the way out, and I put it underneath the brass tray that the laptop sits on. I took off the WN511B - RangeMax Wireless-N Notebook Adapter from the primary Dell Latitude CS laptop, and I installed the software for it on both partitions on the Dell D410, and I installed the card after installing the software. The card has Wireless N capability, but the wireless around here is not that powerful.

I moved the WG511T - NETGEAR.com from the second Dell Latitude CS laptop, and I put it on the primary Dell Latitude CS laptop which already has the software configured for it.

Note: <888> 10/25/09 Sunday 2:50 A.M.. Possibly last American company Old Yankee Clock Works , but I think the parts on the inside might be made in China. When I first started buying computer parts 20 years ago for my home computer hobby, I used to deal with a Chinese computer person named Ming, but his web site no longer seems to work www.hmcomputer.com . Perhaps his young son has grown up and taken over the business while Ming sits back and enjoys all of his profits and sips a cup of green tea.

I baked half of a 24 ounce box of America's Choice frozen fish sticks or 22 fish sticks of the 44 in box, and I ate them with a about one third of a cup of Heinz ketchup mixed with two tablespoons of Gold's hot horseradish, and I had my usual vegetable mixture with a glass of watered down punch and a cup of Salada green tea with splenda and Borden's lemon juice.

Note: <888> 10/23/09 Friday 11:50 P.M.. After the last note, we had another fire false alarm in the building. The fire department showed up, and all they can figure out is something is wrong with the fire alarm system in that it went off twice in the last 24 hours. I met the new neighbor that is moving in the apartment over looking the baseball field.

I went to bed after that around noon. I woke up at 5 P.M. when a relative called.

I took out the defective DVD/RW drive from the USB external DVD/RW case, and I installed my spare new Newegg.com - Sony Optiarc Black 22X DVD+R 8X DVD+RW 8X DVD+R DL 22X DVD-R 6X DVD-RW 12X DVD-RAM 16X DVD-ROM 48X CD-R 32X CD-RW 48X CD-ROM 2MB Cache IDE 22X DVD±R DVD Burner - CD / DVD Burners . I then did another Windows 7 Complete PC backup of both partitions on the Dell Latitude D410 laptop computer to the Maxtor external hard drive saving the few recent changes from Windows update this morning, and I was able to create the Windows 7 System Recovery disk on DVD using the new Sony DVD/RW drive in the USB external DVD/RW case.

I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted bagel with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I chatted with a relative. I went back to bed until 10 P.M.. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I watered the plants. I threw out the garbage and the old periodical literature. I picked up the mail. I am working without most of the living room lights on so the apartment does not get too hot. It is currently 75 degrees Fahrenheit in the living room.

I put the Intel web cam back on the bedroom Gigabyte computer held in place on top of the LCD monitor by two rubber bans interlaced together. I moved the new Logitech web cam from that location to the primary Dell Latitude CS laptop computer, so it sits more steady on top of the open notebook screen. CIO

I will now shut down the primary Vista computer.

Cloudy today with a high of 54 degrees Fahrenheit.

I will make up another batch of Passion punch before going to bed. I have only had four hours sleep since Wednesday afternoon at 3 P.M., when I woke up that day. At least the new Dell Latitude D410 laptop computer is all configured and backed up. It only has a 12 inch screen, so it is like a large Netbook.

Note: <888> 10/23/09 Friday 8:45 A.M.. On the Dell D410, I have Windows 7 RC configured on the second partition. The Intel Video drivers would not install, but the regular VGA driver works just fine. My Netgear LAN storage device and the Netgear Print Server software do not work with Windows 7, so I uninstalled them. The Netgear FR114P print server does install, when installed as Administrator. I have about 33 gigabytes of files on both partition, so I am now using the Windows 7 Complete PC backup program to backup both partitions to the Maxtor external hard drive. If need be to restore, one can boot the Windows 7 DVD and do a Complete PC restore. I am running out of space on the 250 gigabyte Maxtor external hard drive. I am suppose to use PC5300 memory on the Dell D410. CIO

Note: <888> 10/23/09 Friday 4:05 A.M.. I got the product key for the free Paragon Disk Manager 9.5 that I downloaded this past Sunday. I put it on the XP partition on the Dell Latitude D410 laptop computer, and since the new Seagate Hard Drive is actually about 74 gigabytes with about 20 gigabytes used, I used the free Paragon Disk Manager 9.5 to resize it, so I created 20.5 gigabytes of unused non partitioned space on the Seagate hard drive leaving about 53.5 Gigabytes on the C: drive partition.

I then booted up the Windows 7 RC DVD, and I partitioned the unused space into a 20.5 gigabyte second partition, and I am now installing Windows 7 RC on the second partition.

It is good until March 2010, so I will be able to use it until then. It is the enterprise edition with the backup program and other features. After it is installed, I will of course have to configure it.

Windows 7 RC should work just fine on it, but when I can afford to buy another gigabyte of memory, it will work even better. I have to look at the www.crucial.com memory site to see if it is currently using 400 MHz or 533 MHz memory. CIO

Note: <888> 10/23/09 Friday 2:45 A.M.. I made two copies of the Windows XP Professional SP3 CD from PCMicro. I also printed out copies of the original Dell D410 product key and the PCMicro Refurbished Product Key. CIO

Note: <888> 10/23/09 Friday 1:40 A.M.. I watched television until 5:30 P.M.. I woke up at 10 P.M.. I did a Windows XP Professional ASR backup of the Dell D410 from the C: drive to the Maxtor external hard drive. I had installed Microsoft Money 2007 Deluxe on it, so I wanted to save the changes. About 10:30 P.M. the building fire alarm went off, and the fire department arrived, but there did not seem to be any problem. I checked the apartment hallways to see if any lights were on outside anyone's doors, but I did not see any lighted up. I made my usual breaded boneless breast of chicken dinner along with steamed vegetables with olive oil and watered down punch. However, the defrosted chicken had gone bad, so I only ate the vegetables. I also had a cup of Salada green tea with splenda and lemon juice. I threw out seven frozen boneless breasts of chicken that I figured were probably bad also along with the cooked one. I chatted with a neighbor. I shut down the Dell D410.

Note: <888> 10/22/09 Thursday 3:50 P.M.. I tried to sleep after the last note, but I could not sleep. I disconnected the old Toshiba satellite laptop and its power supply from its place on the oak dining table across from the small computer table, and I put it to the left of the Bedroom Gigabyte computer on top of the Visioneer scanner. I put the Dell D410 on the dining table in its places along with the USB 2.0 hub from the primary Dell Latitude CS laptop, moving the D-Link hub without its power supply to it. For some reason the D-link hub malfunctions if its power supply is used. I put the Intel web cam on the Dell Latitude CS, and I put the Logitech USB Professional web cam on the Dell D410. I also switched the

keyboard lights and the headsets. One can still use the USB external DVD drive on both laptops by moving its USB cable between them. I also put the Logitech wireless optical USB mouse on the Dell D410, and I put the Logitech PS2 wireless mouse on the Dell Latitude CS. I put a large brass tray upside down on the oak table for the Dell D410 and its power supply to sit on. I copied by FTP the server folder contents from the FIC server to the Dell Latitude D410 laptop computer. I also copied the Music files, and I put them also on their own folder on the hard drive and in the music folder in My Documents, so the Windows Media Player 11 could index them. I then did a XP Professional ASR backup of the C: drive to the Maxtor external hard drive. I then did an XP Professional ASR backup from the C: drive on the primary Dell Latitude CS laptop to the Maxtor external hard drive. I defragmented the C: drive on the Dell D410.

I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted bagel with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up.

I went out to my 1 P.M. appointment. I returned back to my apartment after it. I threw out the garbage, and I picked up the mail. I still have not received my October 2009 rent statement from the Greenwich Housing Authority.

I also reinstalled Microsoft Money 2007 Deluxe on the primary Vista computer, and it now starts up a bit faster.

I will now shut down the Dell D410 and the primary Vista computer. I will eat an apple, and then I will go to bed. I have been awake for 25 hours. CIO

Note: <888> 10/22/09 Thursday 6:00 A.M.. I finished the backup. For now I have the Dell D410 setup on top of the primary Dell Latitude CS laptop computer on the small computer desk to the right of the primary Vista computer.

gigabyte hard drive. I am doing the XP Professional Automatic System Recovery backup to the Maxtor external hard drive right now.

When I was having problems earlier in the evening getting the Dell D410 to recognize the USB DVD drive from Windows XP Professional, I was able to fix the problem by installing this download from Dell

http://support.dell.com/support/downloads/download.aspx?c=us&l=en&s=gen&releaseid=R171887&SystemID=LAT_PNT_PM_D410&servicetag=&os=WW1&osl=en&deviceid=3601&devlib=0&typecnt=0&vercnt=5&catid=-1&impid=-1&formatcnt=1&libid=7&typeid=-1&dateid=-1&formatid=-1&fileid=233742

I will add the server files and the music files, when I have the time. CIO

Note: <888> 10/22/09 Thursday 2:35 A.M.. I have the Dell Latitude D410 laptop mostly configured. I am just finishing up installing the Office 2007 Professional updates. I have about a half dozen small programs and drivers to install. I will then do a Windows XP Automatic System Recovery backup to the Maxtor external hard drive. Since the laptop does not have a floppy drive, I can not create the System Recovery floppy, but I still would be able to do a restore after an installation. When I have time, I will put the server folder and some music files on it. I also need to defragment the hard drive some time in the future.

Underneath the bottom cover for the memory, there is room for another one gigabyte memory chip, so when I get one, I will have two gigabytes of memory in it.

I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. On the primary Dell Latitude CS laptop computer with 40 gigabyte Seagate hard drive in it, the CMOS now works, which it would not do with the 80 gigabyte hard drive. I installed the operating system, and I am now restoring the backup, so it will be the same as it was before but with the smaller hard drive. I will probably have to install a few updates that have been available since the backup. I went outside, and I threw out the garbage. I chatted with neighbors. I did not get any mail today. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I chatted with neighbors, and I waited for the mail to arrive. I then went to my 3 P.M. appointment. I then returned back to my apartment. I waited outside for UPS to arrive chatting with neighbors. UPS delivered the Dell Latitude D410 computer at 5 P.M.. The power cord that attaches to the power supply was not included, so I went to Radio Shack in Cos Cob, and I bought Enercell™ 6-Ft. AC Power Cord (Black) - RadioShack.com for \$7.99 and .48 tax for \$8.47 total. I then returned home. I chatted with a relative. I checked the Dell D410, and it booted up, but the Windows XP Professional had not yet been activated. I took the Seagate 40 gigabyte hard drive out of the Dell D410, and I put in the 80 gigabyte new Seagate hard drive from the primary Dell Latitude CS laptop computer. I tried doing a XP Professional Repair with the 80 gigabyte hard drive, but when I activated it, it would say it was not activated, and when I tried to reactivate it a number of times after, it was an endless cycle of not being able to long on.

This explains the problem Windows XP Pro Activation loop question (grrrrr) .

I then did a complete new installation with the XP Professional SP3 disk that came with the Dell D410. This took a while to get to this point, since the external USB DVD drive was malfunctioning. I tried other drives in it, and I finally was able to get it to work properly with the fourth 12 volt power supply I tried. The original power supply had burned out on the DVD USB external drive. Once I had XP Professional SP3 installed and activated, I had to install the Ethernet driver from a pen drive, and I am now just finishing installing the Windows Updates.

The server malfunctioned, so I restored the backup, and I am now installing a few updates.

I guess I will put the Seagate 40 gigabyte hard drive in the primary Dell Latitude CS laptop, and I will then restore its backup, so it will be basically the same setup again.

I will put the free Microsoft antivirus program on the D410.

I still have to configure it after I get some rest today. I will also put Office 2007 Professional on it.

I will now eat two hot dogs on buns with ketchup and mustard, 1/4th of a 5.5 ounce tube of Pringle sour cream and onion potato chips, a dill pickle slice, and some watered down punch. CIO

After the last note, I watched a bit of television including a James Bond movie "For Your Eyes Only".

I ate the other half of the box of Triscuits with olive oil and Rosemary.

I chatted with a relative. I went to bed about 9:30 A.M..

I woke up at 4 P.M., when a friend called. The friend had just returned from a cruise.

I had a fund raising telephone call from the Special Olympics at 7 P.M., when I finally got up.

I brought my shopping cart with me, and I went out, and I went by the Stop and Shop. I then went by CVS, and I bought two 16 ounce jars of CVS Gold Emblem dry roasted peanuts for \$5 both. I used the bathroom at CVS. I then walked the entire length of Greenwich Avenue and the train station area. At the vacant store front on the east of the

north entrance of the Greenwich train station, they are having an art sale December 30 to November 1, 2009 of John Lennon paintings to benefit Neighbor to Neighbor the local Christ Church food pantry. Note: <888> 10/18/09 Sunday 1:35 A.M.. I ran the cleaning cycle on the EpsonStylus C120 inkjet printer, and it is new also, and it prints out just fine. The HP Photosmart 1000 is an older printer, and it is out of ink, and the cleaning cycle only shows red ink left. CIO

Note: <888> 10/18/09 Sunday 1:25 A.M.. On the HP C4280 Photo printer, the test print out showed that it had irregular color. Since I have not used it many times, I knew it had nearly full ink cartridges. The HP C4280 Photo printer does not have a cleaning cycle. I took out both ink cartridges, and I put a few drops of Ronson lighter fluid on each print head, and I left them sit for a few minutes, and then I wiped them with a cotton swab que tip. I did this three times for each cartridge and dried the area around the print head with a paper towel without touch the print head, and then I put them back in the printer.

I then ran the alignment process with the printer turned on by pressing the Power and the Cancel buttons simultaneously a few seconds, and then pressing blue, green, and grey buttons in that order, and then by pressing the green or the grey button, I chose Reset Menu, and I pressed the green button for OK and then I chose Full Partial Reset, and I chose the Green OK button again. I then went through the automatic alignment process. I then printed out a couple of test prints of a small photo of Prince Charles 60th birthday which has a bit of color and then I went through the alignment process a second time, and it now seems to print out just fine. I guess since I had not done test print outs since about May 2009, the printer got clogged. CIO

I ate a ham and cheese sandwich on a Bulkie roll with mayonnaise and 1/4th of a 5.5 ounce tube of Pringle sour cream and onion potato chips, a dill pickle slice and watered down passion punch. I cleaned the EpsonStylus Color 880 printer by running its cleaning cycle recently, but the color is a bit fuzzy, but I only use it for black and white for envelopes anyway. I will now run the cleaning cycles or test print on the HP C4280 photo printer and the EpsonStylus C120 inkjet printers and possibly the HP Photosmart 1000 which I think is out of color ink. I do not use the color inkjet printers very much. I have a new spare HP C4280 that I got for \$30 and a new Canon Pixma IP2600 refurbished that I got for \$15 which is cheaper than what new cartridges would have cost. CIO

Note: <888> 10/17/09 Saturday 10:35 P.M.. My total construction experience is somewhat limited. My family used to build new houses, so I would watch their progress. One summer in 1966, I framed about 1/4th of a house on Baldwin Farms south that we later moved into. I once built a dog house for our German Shepard in New Canaan, Connecticut that had a removable roof, so one could hoist it out of the basement into seperate pieces. I took shop at Greenwich Country Day for three years, so I made some furniture. In Nantucket in the summer of 1978, I worked with my recently diseased friend removing many layers of lead paint from the second oldest house in Nantucket on Lincoln Avenue across Tom Brokaw's house. We covered the bare wood with white Epoxy paint

from the St. Louis paint company. I also repainted the eaves on Admiral Halsey's small Cape Cod house on the Polpis road in Nantucket in the fall of 1983.

When I built the garage apartment in Plandome Manor, Long Island from April 1982 to February 1983, I used either the Reader's Digest Home Improvement book or the Better Homes and Gardens home improvement book that we got at the Rickels home improvement center in Glen Cove, Long Island to figure out how to do it.

I use to do a bit of maintenance around the family houses. Recently I have only been doing electrical improvements as they relate to computers <http://mikelouisscott.com/computer.htm> . I recall removing some interior partition walls on the house on Cornelia Drive here in Greenwich, Connecticut.

I think on the farm in Knollwood, Illinois, I once rebuilt the front steps. My recently diseased friend and I watched the demolition work on the Casa Marina down in Key West, Florida back in the winter of 1978, but we did not do any work ourselves. We just stayed there keeping an eye on the place. We knew Chris Ray the head contractor from the End of the Road construction company.

I recall in the summer of 1970, I worked at Polaroid's Route 128 manufacturing plant shoveling gravel around a chemical tank farm, and cleaning up around the construction crews, and laying the concrete foundation for a small nuclear reactor. During that same summer, I also did demolition work on remodeling the old Howard Chocolate Factory by Commercial Wharf in Boston into Dom's restaurant and apartments above.

I think I also worked about a month building a shop near Main Street in Nantucket in the spring of 1979 with my recently diseased friend.

I use to watch them doing the steel work at the World Center late at night in the early 1970s, when they were building it too.

Since I have severe arthritis, I have not tried construction, since I left Nantucket in December 1983 other than building the opening and steps from the main house to the garage apartment in Plandome Manor, Long Island about 1986 which took a couple of weeks. CIO

Note: <888> 10/17/09 Saturday 9:45 P.M.. I woke up while sleeping, and I ate 75% of a 10 ounce can of CVS premium mixed nuts. I woke up at 5 P.M., when a friend called. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I made my bed. I chatted with a relative of the friend that had recently passed away. Apparently the friend had gone from 125 pounds to 165 pounds eating pizza. He was doing environmental work for the last nine years. They are creating a memorial fund at Friends Academy in Locust Valley, New York with old maps as the project. The memorial service for his family was held this past Thursday, and they all seem to have gone their separate ways.

I discussed the garage apartment. I feel the old window fan in the garage apartment attic should be taken out, since it is probably worn out and would be an electrical hazard. The doors to the attic summer ventilation opening should be closed for the winter. The relative wanted to know how to turn on the outside spot light by the tool shed. From what I can recall, there was a switch for it by the bedroom closet door, and if not there might be a switch inside on the right side of the outside tool closet. The relative mentioned that the floor was buckling, and I said the friend that oversaw the project did not want to use waterproof half inch plywood, and only the kitchen and the bathroom had waterproof half inch plywood. The living room and bedroom had 5/8th inch thick particle board which if it gets wet will crumble. I put in the living room and bedroom baseboards about .75 inch above the floor, so in the future it would be easier to replace the particle board if need be.

It was also mentioned that the terracotta tiles on the roof were leaking. I mentioned the garage apartment ceiling sheet rock was there when I built the garage apartment, and I reinforced the 3/8th inch thick sheet rock with more sheet rock screws into the roof joists, and then I spread about four 50 pound pales of wall board compound over the entire ceiling with a rough ceiling roller adding more weight about 200 pounds to the ceiling.

Also the bleeder valve on the old 25 foot cast iron radiator that ran the east end of the window wall of the apartment should probably be replaced. I put in a new one back in 1983, and Wright Brothers hardware store in Manhasset, Long Island had it in stock.

There was also a window fan in the sub floor opening from the main house basement to the bathroom sub flooring area to blow in warm air in from the main house basement to keep the bathroom pipes from freezing. Since the pipes from the main house into the garage apartment were corroded lead pipes, I ran new copper pipes through the same opening to supply the kitchen and bathroom with water. There were shut offs on the new copper pipes underneath the bathroom steps from the kitchen to the bathroom. The steps were on a hinge, so they would open up from back to front.

With the cast iron radiator in the garage apartment with steam from the main house and with storm windows on the garage windows and foot thick Owens Corning fiberglass in the attic, and a foot thick of insulation on the north wall that I build out where the garage doors use to be and 3.5 inches of Owens Corning fiberglass on the other outside walls, the garage apartment should be perfectly warm in a cold winter. I put 1.5 inch thick Styrofoam in the between the 2 by 4s in the sub floor to keep it warmer, and I caulked any opening that might cause air leaks.

There was a about 36 inch by 20 inch opening by the east side entrance door, where a large 18,000 BTU Sear Air Conditioner was installed, and if an air conditioner were still there, it should be covered up with a cover and Styrofoam in the winter.

I chatted with two relatives. I showered, and I cleaned up. I threw out the garbage. The was large about the size of a raccoon black and white skunk by the front of my car, so I guess we are still the skunk works out here. I picked up the mail. CIO

Note: <888> 10/16/09 Friday 11:50 P.M.. There are potential alternatives in an emergency for a man to go to the bathroom late at night or in the early morning hours downtown on Greenwich Avenue besides Thataway at the bottom of Greenwich Avenue which closes at 2 A.M. as does I think the Sundown Saloon.

One could try the lower parking area beneath the south side of the train station area or the parking area at the west end of the train station on the north side. One could try the park area on the west side of the office building across the street. One could try the back driveway area at the bottom of Greenwich Avenue along side the People's bank construction site. One could try behind the veterans monument across the street from the senior and the arts center or behind the Board of Education building. One could try the Greenwich Commons Park just north of there. One could try the small park behind the Chase bank down the alley along side Saks Fifth Avenue. One could try down the driveway in back of St. Mary's, but one might wake up the dogs inside. One could try down the back side of the park across the street from CVS behind the Japanese restaurant. One could try the bushes along the labyrinth of walkways around the Pickwick Plaza. One could try the west side lawn the Presbyterian Church, and I think the Barcelona cafe just west of the top of Greenwich Avenue might be opened until just before 2 A.M.. One could try the alley way on the west side of the FedEx Plaza just west of Greenwich Avenue or the bushes around the parking lot of the Greenwich Library or the bushes around the parking area at the Bank of New just east of Greenwich Avenue, and the east side of Greenwich Avenue has parking areas behind it that run as far south as the new police station. Also a block east of Greenwich Avenue across the street from the Y.M.C.A. is the 24 hour diner. However, I do think they should have put public bathrooms in the new public safety building. I do think it might be also illegal to go to the bathroom in outside locations, so one might risk a Pissing in Public ticket. CIO

Note: <888> 10/16/09 Friday 11:20 P.M.. I chatted with two friends today also. I could possibly go out for a walk, but I had a 12 ounce glass of watered down punch for dinner and a eight ounce cup of green tea for dinner, so although the bar at Thataway at the bottom of Greenwich Avenue has a bathroom, I would probably have to go to the bathroom three times, so I would be left without any place to go to the bathroom at this hour of the night, so thus I guess I will not be going out for a walk. CIO

Note: <888> 10/16/09 Friday 10:10 P.M.. I woke up at noon. I chatted with a relative. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I went back to bed until 4 P.M.. I washed the breakfast dishes. I made my bed. I watered the plants. I threw out the old periodical literature and the garbage. I picked up the mail. The apartment was 68 degrees Fahrenheit inside, and I turned on the heat briefly to take the dampness off, and then I set the living room thermostat at 68 degrees Fahrenheit and the bedroom thermostat at 60 degrees Fahrenheit. I turned on the two fans to blow the heat around the apartment a bit instead of letting it rise into the air space above the drop ceilings. Of course, when the lights are turned on that puts out 3 to 5 degrees of heat too.

The building custodian's Dell laptop was not working properly. I brought it up to my apartment, and I did a safe boot, and I ran "msconfig", and I disabled all of the startup programs except the AVG antivirus. Internet Explorer in a regular boot up would open up over a dozen copies endlessly from some obscure homepage site, so in safe boot, I set its homepage to www.google.com. I uninstalled and reinstalled the Linksys wireless card drivers and program. It is working just fine. I tried it downstairs in the community room, and it still would not go online. The building custodian was still here. The LAN cable plugged into the Cable modem in the custodian's office was not pushed in all of the way, and the LAN cable into the Linksys wireless router was plugged into the wrong port, so I plugged it into the correct port, so now the custodian's Dell laptop works just fine, and the wireless in the building at that location works just fine. I chatted with two neighbors.

I have a bottle of www.perrier.com freeze and break in the refrigerator about a week ago, so I guess Perrier freezes at a higher temperature than water. I stopped by the Figaro restaurant to tell them that this afternoon. The bartender waiter asked me if I wanted a drink, and I told him I do not drink alcohol. He told me he was from New York, and I told him when I lived in New York City, Surrey Liquors on Madison Avenue and 74th street on the northeast corner use to have a large assortment of French wines and liquors, since they were a couple of blocks east of the French consulate.

It is 70 degrees Fahrenheit in the apartment, but since it is suppose to go down to 37 degrees Fahrenheit this morning with a high of 43 degrees Fahrenheit and rain tomorrow, I closed the right living room window for the winter.

I also put one of the DeLonghi oil filled radiators behind my primary computer chair, and I put the other one to the left of the Abit computer to the right of dining table eating place near the Ethan Allen recliner. They are plugged in and ready to use if needed. I usually put them on medium and 4, when I use them. I put my summer walking shorts in the white bedroom bureau. I put my Hawaii jams in the underwear drawer in the living room. I put out my long underwear bottoms on the hook to the right of the bedroom door entrance. I put the two L.L. Bean red union suits on plastic hangers hanging from the open bathroom door. I still have two new pairs that I have not yet opened up. I took the pink and green quilt off the bed in the bedroom, and I stored it in a plastic bag in the bedroom closet. I took off the blue summer blanket. I put the white electric blanket on the bed, and I plugged it in with its thermostat on the right side of the bed as one looks at it. I put the colonial beige comforter on the bed. I put the blue comforter on the end of the bed. I put the blue summer blanket on top of that. I put the two www.army.mil extreme cold weather to minus 30 degrees Fahrenheit sleeping bags on either end of the living room sofa. I put the black and the white check pattern comforters on the back of the living room sofa. I also left the blue and grey throw and the orange and yellow throw on the back of the sofa. I also put the old light blue electric blanket on the back of the sofa and the white light weight blanket on the back of the sofa. I am thus ready for colder weather and no heat at lower costs and savings this winter if need be. I will use the electric lights less at night, until I need them to warm up the apartment a little bit more. I saw someone that looked like <http://mikelouisscott.com/fred.htm> downtown today getting into a chauffeured car, so maybe he has someone that looks like him, but a lot of people in Europe look like him. Note: <888> 10/14/09 Wednesday 8:25 P.M.. I went out after the last note. I went by the central Greenwich, Connecticut post office, and I bought sixteen 2 cent stamps for 32 cents total. I then walked the entire length of Greenwich Avenue and the train station area. I chatted with a few locals. I stopped by the Greenwich Hardware store to chat about the price of tea in China. I noticed that the facade of CVS on Greenwich Avenue has been repainted. I did not go inside to see if they are finished with the interior painting or not. Across from them in front of the modern furniture store, there is group of trees running

south that have lots of birds in them at certain times of the day, and when I hear the birds, I do not walk underneath the trees they are in to avoid ending up with bird crap on one's head. I finished my walk, and I used the bathroom at the senior and the arts center. I then drove down by the waterfront on Steamboat Road, and there are still about a dozen fishermen down there trying to catch a fish. I next went by the Greenwich Library, and I chatted with some of the staff. I then returned home, and I chatted with neighbors. I picked up my mail. A Greenwich Housing Authority official here doing a survey as to whether, I would want to move to newer public housing if they built it here, and I told them I would probably want to, if they moved me, since it would be warmer and probably more spacious. I received two telemarketing survey calls, and I told them to take my name off the list. CIO

In that type of clothing with a dark knit cap on not too cold of a night, he could have been a burglar, but I thought the individual might be undercover observing the kids.

Note: <888> 10/13/09 Tuesday 12:25 A.M.. I cut one of the whole pieces of London Broil in half into about two 11.5 ounce pieces. I refrigerated the other whole and half piece in Rubbermaid containers. To cook the London Broil, I put about three tablespoons of olive oil in a regular frying pan, and I heat it over medium high electric burner heat. Once it is hot, I put the 11.5 ounce piece of London Broil in the frying pan, and I brown it one side, and I flip it, and I season it with garlic powder, ground black pepper, and Italian seasoning generously. I then do the same on the other side, once it browns. I continually cook it flipping it every minute for about four minutes each side. For the last two additional minutes, I put in about four tablespoons of Kikkoman soy sauce on the meat in the frying pan, and I flip it and continually, until most of the soy sauce is gone in about two minutes. I then put the frying pan with meat on a heat proof plate to warm it, and after about a minute, I put the meat on the warm plate, and I scrape the remaining juices and seasoning on top of the meat. Before eating it, I put ground black pepper on it, and I season it with KC Masterpiece barbecue sauce and Lea and Perrins Worcestershire sauce. I eat it in small bites with a steak knife and fork. I also made my usual steamed vegetable mixture, which I put olive oil on. I ate it all with my watered down passion punch. I also had a cup of Salada green tea with splenda and Borden lemon juice. After cleaning up the kitchen, which I do after every meal, I threw out the garbage. Nothing much seems to be happening around here at night anymore with the Obama recession, but I am sure nearby New York City has a bit of activity for those who can afford it and are willing to risk their lives traveling into the unknown of Manhattan through the mysterious boroughs. Note: <888> 10/12/09 Monday 10:35 P.M.. I woke up at 4 P.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I made my bed. I chatted with a relative. I showered, and I cleaned up. I threw out the garbage. I went downtown, and I walked the entire length of Greenwich Avenue and the train station area. I used the bathroom at Starbucks. I stopped by CVS, and I bought four 90 count CVS disinfecting wipes for \$2.99 each and .72 tax for \$12.68 total. I finished my walk, and I sat out for a while. I then went by the world famous Greenwich, Connecticut Stop and Shop, and I bought a 32 ounce Stop and Shop self rising frozen four cheese topping pizza for \$3.74, a 28 ounce bottle of K.C. Masterpiece original barbeque sauce for \$2.99, two top round London Broil for \$2.99 a pound for \$10.05, a two pound bag of baby carrots for \$2.99, a 1/4th peck of McIntosh apples for .99 a pound for \$2.29, fresh Chiquita bananas for .69 a pound for \$1.66, broccoli crowns for \$1.79 a pound for \$1.93 for \$25.65 total. I then returned home. I put away my groceries. I put one of the containers of CVS disinfecting wipes to the right side of the kitchen sink and another on top of the JVC television in the bathroom. I made up a fresh batch of passion punch. CIO

Note: <888> 10/12/09 Monday 8:05 A.M.. I ate a 9 ounce can of CVS honey almonds. I know a lot of squirrels eat nuts, and they seem to survive the winter. I will now shut down the primary Vista computer, and I will go to bed soon. I think today is Columbus Day 2009 Federal Holidays , so there will probably will be no mail delivery today. Thus I will not be getting a rent bill from the Greenwich Housing Authority today. I am a bit tired, and I am obviously on a night schedule. CIO

Note: <888> 10/12/09 Monday 7:20 A.M.. Nino Sechi - Greenwich needs more affordable housing, but Byram not the answer - Greenwich Time. CIO

Note: <888> 10/12/09 Monday 7:15 A.M.. It is 40.8 degrees Fahrenheit outside and 72 degrees Fahrenheit inside with the right living room window opened 16 inches and the tower fan blowing the outside air inside, so I guess the building retains a lot of heat, and the lights and computers generate a bit of heat. CIO

Note: <888> 10/12/09 Monday 7:15 A.M.. I might have flown Aspen Airlines, when it use to fly to Nantucket in the summer, or I might have just seen it around. Eastern airlines use to practice landing and taking off at the Nantucket airport, and I used to go to the beach at the end of the runway at Nantucket airport, so I saw them practicing a lot of times. There use to be a bar next to the Nantucket airport called Preston's, and from what I could figure out, people use to take Magical Mystery Tours and end up at Preston's with the locals. CIO

Note: <888> 10/12/09 Monday 6:50 A.M.. I flew down to Ronald Reagan's first inaugural on Braniff airlines with Prince Boni Sakhir the oil minister from Saudi Arabia out of J.F.K., and I flew back on the private Time Magazine jet to Westchester County airport. I recall also once possibly flying on a Mohawk airlines D.C.3, but I might have just see them around here in the old days. The www.cia.gov still controls the Evergreen airlines 747 out

at J.F.K.. I have been in Toronto airport, so I possibly once flew on Air Canada up to Toronto to visit George Cary, but I was given the Air Canada flight bag by Air Canada by someone that looked like Tony Snowden, when I met him at the Anglican Seminary in Toronto in December 1983. I took the Amtrak up there and back. I have been on Provincetown Boston Airline a few times coming and going from Nantucket in the old days. Andy the baggage handler at Nantucket airport might have learned something about aviation. CIO

Note: <888> 10/12/09 Monday 6:25 A.M.. As I recall, I flew to Lanzarote from Malaga, Spain on Iberia airlines. I flew down to Tobago on B.W.I.A. I flew to St. Thomas on American airlines. I flew to Nassau on Eastern airlines. I flew to Bermuda on B.O.A.C.. Of course in the Unites States of America, I frequently flew Pan Am, United, Eastern, American, Continental, and Delta in the old days, before I could no longer afford to travel. In my youth I flew around a lot on the Monsanto Chemstrand company DC3s and Gulf Streams. The most dangerous flight I was ever on as I recall was a United flight from Chicago O'Hare to Boston Logan during Christmas time around 1971, and the Boeing 707 was full of www.af.mil personnel, during the Christmas Holidays, and they all went into the crash safety position as we were landing in a snow storm, but the jet made it in safely. CIO

Note: <888> 10/12/09 Monday 5:50 A.M.. My diseased friend who I should refer to as John and I lived across the street at Putnam Green for two months after my mother married my diseased step father 30 years ago in the summer of 1979. We moved her furniture to Kennebunkport, Maine to my stepfather's house. After the lease ran out across the street, we drove up to Cape Code, and decided not to go back out to Nantucket, and we then we by Dartmouth college where we stayed at a fraternity house, and then we drove up to Montreal and toured it, and then across to Toronto, Canada. We were sleeping in the yellow Subaru at the York University parking lot, when we were awoken by bag pipers celebrating the Victorian Jubilee. We toured around Toronto, and then we reentered the United States at Detroit, and we visited with my sister and brother in law in Chicago, Illinois. We sold them John's birthday bicycle he had bought in Greenwich to get it out of the yellow Subaru. We visited www.lfc.edu and my grandparents again in Champaign, Illinois. We then drove across country route 70 to Denver and across the Rockies spending the night in a camp ground. As I recall, we had the tools from that spring in the car, and we sold them in Squaw Valley and Carmel, California. We stayed in campgrounds along the coast of California. Around October, I think we returned back east via Interstate 10, and we visited with his sister Daytona to return to this area at Christmas Time. We got his family a Christmas tree at Troy nursery on North Street in Banksville, New York, and we stayed with his family in Manhasset, Long Island for Christmas. We also house sat for a couple of weeks in back country Greenwich for the family that owned Burns Security. I put an air conditioner that I had bought in Fort Lauderdale in the Subaru, but it never worked. After the holidays, we drove back down to the Florida Keys and then to Daytona, Florida to stay with John's sister and her friend for the winter. We did some work cutting down dead Palm trees along the Florida coast with a cheap electric chain saw that we had bought. I latter learned that Palm trees can lose their leaves in the winter and not be dead. I recall cutting some down some at a Burger Kings

somewhere near Stewart, Florida. We also visited with John's grandmother visiting a friend in Vero Beach, Florida, and as I recall we drove part of the dirt road along Canaveral National seashore.

We did not visit Hurley Haywood at Point De Vidra, since Jimmy Eldert did not like Hurley Haywood.

When we returned north in the spring of 1980, I think we were in Connecticut, New York City and Long Island.

We stayed with John's mother in New York City, and his father in Port Washington, Long Island, I recall we drove back out to California visiting with Jimmy Eldert's friends in Santa Cruz, California and the Santa Barbara and Laguna Beach, Malibu and Palo Alto areas selling the Burgundy Volvo I had bought before the trip in Anaheim, California and returning back to New York City via United airlines after election day. We drove out there from the New York City area via Cape Cod to Montreal to Toronto down the New York State thruway down I-95 to Key West, and I guess across Route 10 to California. After returning to the New York City area, John's grandmother had the accident, and I stay with the mother in the New York City apartment, and in December 1980, I made the trip to Frankfurt, Germany, and I also went down to Ronald Reagan's inaugural in Washington D.C. in January 1981. I also recall using the family town house in New Canaan, Connecticut that winter while relatives were in Bermuda. In the summer of 1981, I recall being in New York City until I left in February 1982 to go to Key West for the last time, so that was the only time I ever lived in New York City in the summer except briefly in the early summer of 1973. I also recall refinishing two different basement playrooms at a relative's two different houses in the Philadelphia area and one time was during Three Mile Island, when I did not know it was going on. Thus after the garage apartment in Long Island, the trip to Oslo, Norway with side trips to the Tampa, Florida and New Haven, Connecticut area and the season in Nantucket and side trips to Vero Beach, Kennebunkport, Toronto and Manhattan, I returned back to Greenwich, Connecticut in December 1983, and I have been here as a resident since then.

I did make a trip to Kennebunkport, Maine in July 1980, and I then flew from this area on my own out to California to Laguna Beach I think on United Airlines and Santa Cruz and Santa Barbara areas, and I also spent a week to 10 days at the Hyatt Hotel in Maui when the American Bar Association and the American District Attorneys were having a convention, and I returned back to New York City on Belgium Sabena airlines. I recall flying to Hawaii from Las Angeles airport on United airlines and using a local flight to and from Maui and then returning from Hawaii on World Airways to San Jose. I flew to Germany on Capitol airlines, and I flew to Oslo on S.A.S. I flew again to Germany around 1989 on Lufthansa going to Innsbruck eventually, and I flew the Paris for the Albertville Olympics on T.W.A. as I recall. I originally flew to Paris on January 1972 on T.W.A. from Boston and back from Athens, Greece to Boston on T.W.A. There are probably some people here that flew back out here with John and myself on our last trip back from California back in November 1980 on United Airlines. With the New York City airports in this area, there are probably a lot of airline people on Long Island, but as far as I know

besides Canada, John was never out of the country, although his sister worked for China airlines since 1980. CIO

Note: <888> 10/12/09 Monday 4:10 A.M.. In April 1977, when I finally returned to Nantucket after visiting with Jimmy Eldert's friends at the University of New Hampshire and with a side trip to Dartmouth College and Exeter, New Hampshire, I first worked opening sea scallops for about a month which paid about \$40 for a five gallon pail of opened Sea Scallops. Then I helped open the Sail Loft restaurant, when I worked for a short period until the regular crew returned. Then I helped open up Moore family bar across from the fire station. I then worked at the Nantucket bakery. I then worked at Henry's bakery, and I finally worked at the Gordon Folger Hotel as a pot scrubber. I was paid minimum wage of \$2.15 an hour, and it cost \$5 a day to stay at Mrs. Florence Frances' guest house in a bed in a common room on India Street. I think towards the end of the summer I started working at the Languedoc restaurant, and the following Summer in 1978, I worked at the Gordon Folger again as a pot scrubber, then briefly as a dishwasher at India House and then the rest of the season at the Languedoc restaurant. By the end of the season I was making about \$4 an hour. I returned briefly to Nantucket with my recently diseased friend in the spring of 1979, when we did some carpentry and painting work on a shop near the top of Main Street. We then left the island, since not much was going on, and I think we returned to Connecticut and Long Island. Jimmy Eldert had left Key West, Florida around March 1978 to hitchhike out to California, so we never saw him again in Nantucket. As I recall he had a blue duffle bag. We missed him on the first trip to California in the fall of 1978, but we did drive north through Santa Cruz, California on our first trip to San Francisco arriving there on Columbus Day, when the Queen of Spain was there, and all of the San Francisco traffic was shut down, and we explored the waterfront there. The American Railroad convention was also going on at the Hyatt Embarcadero. When I returned back to Nantucket around March 1983 after building the garage apartment on Long Island, I worked at the Languedoc after cleaning up their restaurant at Sister Kate's in Stowe, Vermont at the end of the season for a couple of weeks. By the time, I finally left the Languedoc in November 1983, I was the head dishwasher making \$8.75 an hour. However, both dishwashers and pot scrubbers also had to do the food preparation work and also clean up the restaurant at the end of the night. I usually was never back at the guest house until 2 to 4 A.M., so I would wake up in time to walk the short distance to the restaurant and eat an omelet and work the lunch shift until about 2:30 P.M. and be back at 4 P.M. for the dinner shift. Once you do restaurant work, you know it ain't easy. I rarely took a day off in season. CIO

Note: <888> 10/12/09 Monday 3:30 A.M.. When I lived with the family on Long Island's at their small one bedroom apartment on the west side of Manhattan, the mother slept at night and did word processing for Cyrus Vance after he was Jimmy Carter's secretary of state, and I slept on they day bed in the living room. We had three pets, a Doberman dog that one son leant us, and a white German Shepard that a younger daughter leant us, and a cat which later had a litter of kittens. I walked the dogs many times particularly in the evening, and I would go out at night and wander around Manhattan when the tenant slept, and I would sleep mostly in the daytime. The town house the apartment was in was a Sanford White building and it was owned by a family that had the same last name as

General William Westmoreland's wife's family, but I do not know if they were related. The owner of the building and the son also lived there. The friend that passed away was busy on Long Island helping his grandmother who had an accident, so he was there very infrequently. The winters that I was there some of the time were 1981 and 1982, when in 1982, it was down to minus 26 degrees Fahrenheit, when in February 1982, I had to leave, and I went back down to Key West, Florida for the last time. In the period from April 1982 to February 1983, I renovated the mother in law apartment out in the garage on Long Island at minimal cost to help thank them for their hospitality. However, since I am not a builder or contractor, it was a hard project for me, and I had to take up to 14 Tylenol a day with my arthritis, which is why I never continued the activity after I returned off of Nantucket and back to Greenwich in December 1983. I do not think I would have been able to handle doing another garage apartment renovation at the other friend's garage apartment in Sands Point, Long Island, since it was a much larger garage. I also stayed with the family's husband with my friend that passed away at his father's apartment in Port Washington, Long Island and his brother back around 1980, when we mostly watched television, and I did the cooking and cleaning. My friend claimed they had a computer in the basement, but when I looked in the basement all I saw was a natural gas furnace that kept the house warm. There was a dairy store near by, and the Amoco gasoline station nearby sold cheap Marlboro cigarettes. The nearby A&P store never had many customers, and the food looked quite old and out of date, but that was during Jimmy Carter's recession, but it was a better life than being homeless at the Casa Marina hotel renovation in Key West, Florida, and I think as I recall in the winter of 1979, I was at the sister and her friends apartment with the friend in Daytona Beach, when we mostly ate watered down tomato paste with spaghetti noodles, and we finally got food stamps towards the end of the winter, which when I came back up north, I used some to buy a roast beef at Bonjournos for my mother. In the winter of 1978 after meeting the friend, I think we might have gotten food stamps in Key West, Florida for a month or two. In the winter of 1977 in Key West, Florida, I was waiting for my unemployment benefits which took six months to come all at one time towards the end of winter in April 1977, and I went from 185 to 125 pounds, and although Jimmy Eldert showed up without money, all I ever got was a can Green Giant corn from the Salvation Army. I do recall having a charge account at the Herb garden in Key West that I paid off, when I got my unemployment compensation checks. A friend of mine whose mother was a DuPont cashed the checks for me at the main bank in Key West back then near Mallory Square that had a picture of the state of Florida on its sign. Once with Jimmy Eldert, I was even arrested at Faustos grocery store in Key West for not paying for a quart of orange juice in the store, when I thought Jimmy paid for it, and he thought I paid for it. However, they let me go two or three days later, but I had to find Jimmy which took some time, since we did not have modern communications. As I recall it was a quart of Donald Duck orange juice. Jimmy Eldert worked at Yogurt stand in 1978 where he made a couple of dollars a day in tips, and he would give John and myself free yogurt. Jimmy also had a telephone in his apartment, so he could communicate with the outside world.

In February 1982, when I met John outside of the Casa Marina, he was carrying his artist supplies in one of his grandmother's suit cases with travel stickers from around the world, and he was carrying about \$1,000 cash U.S., but he quickly lost \$400, when he leant a

friend some money, and the friend disappeared. We even hitchhiked up to Marathon, Florida looking for the friend. I did not have a car down in Florida in the winter of 1978, I had hitchhiked to Key West, Florida from Nantucket. In October 1978, I bought the \$150 yellow Subaru on Nantucket, and it had a Polaroid sticker in the window. It had come from Dillon, Colorado which I discovered later that winter. As I recalled the Massachusetts license plates on the Subaru were 141-48K. All of the license plates in Nantucket ended in K, and I later learned in Williamstown, Massachusetts, all of the license plates ended in K. Elsewhere in Massachusetts, they have different patterns. I was insured later in the car by the Rand Insurance agency here in Greenwich, and I think I might have had Allstate, when I left Nantucket. The license plates were white with red letters. In the summer of 1978, my diseased friend and I did house painting on Nantucket, and he also worked at the Cumberland Farms store as a cashier at night, while I worked at the Lanquedoc restaurant as a pot scrubber. I late was later promoted to dishwasher, by the time I finally left for good in November 1983. I did not work as a waiter which is more profitable, because I did not have the right clothes, and I was curious about kitchen work. Since in the small kitchen I could water the chefs, but I could never figure out the ingredients. CIO

Note: <888> 10/12/09 Monday 1:05 A.M.. I put away the laundry. I also put the clean towels that I use for insulation of the air conditioner underneath the right side rear of the bedroom bed. I rotated my summer shirts to the far left of the bedroom closet, and I put the winter shirts in the left center of the bedroom closet. I will now eat the same dinner as the last four or five nights, which will include the last of the cold eye round. High today of 53 degrees Fahrenheit and mostly cloudy. I have noticed in my regular walks downtown, there seems to be more unemployed younger people in the area. Back in 1973, when I was working as a waiter at Boodles restaurant, I was making \$50 to a \$100 a night, and we even had stock brokers working as waiters and bus boys. Our most frequent customers with good tips were medical personnel from the Greenwich Hospital. The kitchen staff were all Chinese. CIO

Note: <888> 10/11/09 Sunday 11:40 P.M.. I woke up at 4 P.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I chatted with a relative twice and a friend. I called up a relative of the friend that passed away, and I told them I would not be able to make it out to the funeral this Thursday on Long Island.

The friend that passed away had his own web site [Open City and its Natural Enemies](#) .

I chatted with a friend and a relative. I showered, and I cleaned up. I chatted with another friend for a quite a while. I put clean linens on the bed. I am doing two loads of laundry, and I have 35 minutes to go on the dry cycle. CIO

End of Scott's Notes week of 10/11/09:

Note: <888> 10/11/09 Sunday 5:40 A.M.. Today is suppose to be mostly sunny and a high of 62 degrees Fahrenheit. Thurs here it is suppose to be cloudy and a high of 50 degrees Fahrenheit. This Thursday on the north shore of Long Island, there are suppose to be a few showers and a high of 53 degrees Fahrenheit.

Also since my 12 year Audi is a very important part of my normal routine, I am very afraid of doing anything that might put it at risk that might cause me to lose or damage the Audi.

Long Island is about 10 times more congested than Connecticut population and travel wise. However, since it surrounded by water, it is also about 10 degrees Fahrenheit warmer on average in the winter, and it can also be cooler in the summer. Since it is surrounded by water, if they do not drown, there tends to be less dangerous wild life on Long Island compared to the mainland part of Connecticut to the north of it, so for smaller and older people it is also a safer area except for all of the vehicle traffic. Nassau County on Long Island is also suppose to be the wealthiest county per capita in the United States of America. Fairfield County where I live in Connecticut is the second wealthiest county in the United States of America. However Fairfield County being a corporation residential area has over half of its citizens from the Midwest of the Unites States of America who have worked their way up the corporate ladder, so once they retire, they tend to move to less expensive areas.

<http://www.northshorelij.com/> is suppose to be one of the best hospitals in the area outside of New York City, but I do not know that much about medicine.

Thus Long Island is more expensive, and it also tends to have a lot of people whom are stockholders in the major corporations that the corporate executives run whom live out here in Fairfield County. The nature of corporation executives is that tend to be larger people.

Also since I am legally disabled living in Connecticut living on SSI disability income, I am covered by Connecticut Medicaid. However, since so many of New York Medicaid clients might overwhelm Connecticut, Connecticut does not accept New York Medicaid, and thus in return New York does not cover Connecticut Medicaid. Thus if I were traveling in New York state, and I had a medical emergency I would not be covered by Connecticut Medicaid, which is one of the primary reasons, I never go to New York State, although I only live about a 100 yards from the border. Since I am 59 years old, and I have smoked cigarettes since age 17 years old, I do worry about potential medical emergencies particularly in over stressing myself. Although when I am awake I feel fit usually, I also get a lot of sleep and low stress activity. I do hope to quit smoking cigarettes some time soon to hopefully improve my long term health chances.

One of the reasons that I smoke cigarettes is that in my life, I have been in so many stressful situations that smoking cigarettes tends to relax me. I have been advised that if I quit smoking cigarettes, one of my medications might have to be slightly increased.

Being on a night schedule is less stressful, but when one is on a daytime schedule, one gets more sunshine, and that increases one's dopamine level, so one does not get what the Scandinavians call Seasonal Affective Disorder Guide To Seasonal Affective Disorder (SAD) And Winter Blues - Light Therapy - Lumie which will only get worse as the days get colder and winter sets in.

I will now send out my weekly notes, and I will then shut down the primary Vista computer, and I will go to bed soon. CIO

Note: <888> 10/11/09 Sunday 3:55 A.M.. If I am on a day schedule this Thursday, Google Maps says it is only 31 miles out to the house in Long Island, but there is usually a lot of traffic, so it frequently takes over an hour. The last time I crossed whatever bridge it is, I think there was a \$4 toll each way. Google Maps does not give the name of the bridge, but I think it is the Tapan Zee bridge, but it might be the Whitestone Bridge. I printed out the directions.

I currently weigh 206 pounds, and the only suit that just barely fits me is the Swedish double breasted black pin stripe suit that I bought about five years ago at the Merry Go Round Mews thrift shop for \$10, but the pants are particularly tight. I have a pair of waist 40 length 30 black wool L.L. Bean trousers that are tight that I can fit into, that would go with a blue blazer which I have several of. My current waist size is 46 inches. I have two other double breasted suit jackets without the pants that fit me fine. I also have a new blue Oxford shirt and dark tie. I have a fairly good pair of black Rockport shoes that need polishing. I doubt if it will be cold, but the black Chesterfield overcoat really no long fits me any more, but I feel as I get older, I might lose weight, so I have kept it.

I sometimes feel like I am still in Greenwich, China as opposed to Greenwich, Connecticut. I have not been to the house out in Long Island in about 23 years when I built a connection doorway from the main house to the garage apartment, but Google maps refreshed my memory about how to get there. I no longer do construction, but I know personal computers after 20 years.

However, the family out there are so old guard, I feel like I am going back into the Duke of Windsor's time versus the more modern times here. From what I know I have to see how my biological clock responds to the cooler temperature now in the apartment to see if sooner or later this week, I can get back on a day schedule. The only thing I have to do this upcoming week is to pay my rent. I can afford to travel out there, but I can not afford to do anything else. The funeral home is near the house, so I think I should be able to follow them all right. There are a lot of private members of the family concerned along with a more international group that were worldwide travelers. I also have to see how much physical energy I have and how I feel as Thursday approaches. I generally only drive from Byram, Connecticut to downtown Greenwich, Connecticut a distance of about 2 miles, and

then I take a walk and do errands. I have never had enough funds in my experience in the New York area since 1961 to explore it too much, so I know my way to certain destinations in this area, but I frequently worry about getting lost or disorientated when I travel off my normal routine. I first ended up in South Florida in September 1976, when I left the family house here in Greenwich, Connecticut to go out to get a can of frozen orange juice at the A&P on West Putnam Avenue, and the next thing I knew two days later I was on Fort Lauderdale, Florida beach in my 1966 blue Chevrolet 4 door sedan Biscayne, but I am not quite sure what caused me to leave on the spur of the moment without telling anyone or preparing. I did have my belongings in the cars, since I had thinking about going back to Nantucket. Possibly I got too cold, and I ran south in a fit of panic. Also the memorial service is supposed to be two hours, and with my weak bladder, I might have to go to the bathroom up to three times. I still have to chat with a friend whom also might be there. The family has indicated to me, they want me to show up, so I will do my best to make it out there.

Part of my disability is that I can not control my sleeping pattern. I tend to be awake whenever I am awake and fall asleep, whenever I am tired, and although I only drink one cup of coffee and a cup of green tea a day, I frequently sometimes in overly rested, so I can not sleep, and then when I become tired, I fall asleep.

One of the reasons that I have most always lived by myself, and I have a hard time sleeping is that I suffer from sleep disorder caused by loud snoring, so I frequently wake up many times during the sleep period, and I do not get a good night's or day's sleep until I am totally tired. I once read that one can prop up the bottom end of the mattress which will help one sleep better, but I just generally bury my face in the pillows to try to sleep better.

Frequently when people wake me up during the sleep period with telephone calls, I do not even know what I am talking about, and I say the first thing that comes to my mind from the dream state. Recently I have been sleeping 10 to 12 hours a day, and it takes me about three hours to go through my routines after I wake up, so that only leave me 9 to 11 hours time in the awake period for other activities. CIO

Note: <888> 10/11/09 Sunday 12:40 A.M.. I chatted with somebody up in Canada about recent events. I woke up last night, and I ate 2/3rds of a 9.5 ounce can of CVS smoked almonds. I went back to bed until 11 A.M., when I had a telephone call from a relative of the friend that passed away recently. I will try to make it out to the house on Long Island by noon this coming Thursday October 15, 2009 for the funeral service later on at the funeral home. I am currently on a night schedule, so I will some how have to get back on a daytime schedule. I chatted with a relative. I went back to bed until 4 P.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I made my bed, and I washed the breakfast dishes. I chatted with two relatives. I watered the plants. I threw out the garbage and the old periodical literature. I picked up the mail. I filled out the form and mailed it in the mail room downstairs for Connecticut emergency energy assistance in the winter. That just guarantees, they will not cut off the electricity if something happens financially. I opened

up the right living room window about 16 inches, since it was 82 degrees Fahrenheit in the living room. It is now 76 degrees in the apartment which is more comfortable. I showered, and I cleaned up. I went downtown, and I walked the entire length of Greenwich Avenue and the train station area. I sat out at various locations. I used the bathroom at Starbucks. I stopped by CVS at closing, and I bought four regular CVS 5.3 ounce Pringles type potato chips and one sour cream and onion for \$1 each, and three for \$10 of CVS 9 ounce honey coated almonds for \$15 total. I noticed French Sole, Greenwich, Connecticut is opening a store on the north side of St. Mary's. I sat out for a while. I then went by the Greenwich Automotive Services Gulf Station, and I bought \$7 of self service premium gasoline for \$3.079 a gallon for 2.272 gallons for 28.1 miles per gallon driving since this past Wednesday at odometer reading of 64995 miles for 12.368 miles per gallon in local driving. I cleaned the outside car windows. I returned home, and I chatted with a neighbor, and I showed the neighbor the few minor changes in the apartment, since he had last seen it.

I will now make and eat the same dinner as the last few nights. CIO

Note: <888> 10/09/09 Friday 9:40 P.M.. I woke up last night, and I ate a 10 ounce can of CVS mixed nuts. I finally woke up at 9 A.M.. I chatted with a relative. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I made my bed, and I washed the breakfast dishes. I showered, and I cleaned up. I went outside, and I threw out the garbage, and I chatted with neighbors. I toured the empty apartment overlooking the baseball field that has been recently vacated. However, it is a very expensive apartment to heat in the winter and costs \$400 to \$500 a month to heat according to the previous tenants. I waited around for the mail to arrive, and I chatted with neighbors. The building custodian wanted some help with a laptop, but I could not get it going, although it said it was online with wireless. I finally went downtown, and I walked the entire length of Greenwich Avenue and the train station area. I stopped by the Merry Go Round Mews thrift shop, and I chatted with staff. I used the bathroom at the senior and the arts center. I toured CVS. I stopped by the Chase Bank on West Putnam Avenue just west of Greenwich Avenue. I stopped in, and I browsed the new AT&T store. I chatted with a cosmetics sales lady. I gave a young shop girl from Miami a cigarette light. I toured the Fuji camera store and their clearance bin. After my walk, I sat out in the Greenwich Common. At 5 P.M., everyone disappeared like they had more important matters. I then drove down by the waterfront on Steamboat Road, and there were about three dozen Hispanic fishermen enjoying the waterfront. I then drove through Bruce Park. I next went by the Greenwich Library, and I chatted with a reference librarian. I saw an old familiar face that I had not seen in a while. I then returned home, and I chatted with neighbors. I picked up the mail. The rent from the Greenwich Housing Authority still has not arrived yet. I chatted with two relatives. I ate the same dinner that I have eating recently. I chatted with a friend out on Nantucket to let them know about John Bolton.

Believe it or not after all of the years that I knew John Bolton, he was so private that myself even as a professional photographer, I did not have a photograph of him.

However, I once spent quite a few years around art museums, and I have a framed print in my apartment of a famous Rembrandt oil painting "The Polish Rider" that looks like the John Bolton that I knew The Frick Collection . When I first met John in Key West, Florida back in February 1982, he had another strange feature beside being an excellent artist which was when one chatted with him, he sometimes looked like he had three eyes, but that feature later went away. Note: <888> 10/08/09 Thursday 11:50 P.M.. I ate 2/3rds of a 10 ounce can of CVS smoked almonds when I woke up during the night. I woke up at 10 A.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I made my bed, and I washed the breakfast dishes. I showered, and I cleaned up. I went out, and I went to a 1 P.M. appointment. I then returned home. I

chatted with neighbors. The building custodian put away my air conditioner in storage. I picked up the mail. I ate the rest of the can of almonds. I took a nap from 3 P.M. to 5 P.M.. I chatted with a relative. I received the telephone call about John Bolton. I chatted with two relatives and a friend. I ate the same dinner as last night, but without the green tea. John Bolton's family were very private, so I am not sure if they really would want me to be attending the funeral or not, since I tend to be an overly public person. Without the air conditioning it is 79 degrees Fahrenheit in my apartment with heat generated by the afternoon sun and electric energy saving lights, but based on experience I am sure it will get colder in here in a week or two.

Although I met John Bolton on a cold winter's day outside the Cass Marina Key West Hotel Resorts & Florida Keys Beach Accommodations - Casa Marina Resort Key West in Key West, Florida in February 1978, when he offered me a Marlboro, when I had quit smoking, which got me smoking again. He originally told me he was the architect of the hotel, however in our travels up north and living together up north, we dealt with a lot of extreme cold weather including the minus 26 degrees Fahrenheit in New York City in February 1982, driving through a blizzard through the Rocky mountains in December 1978, and once I remember taking the train out to New Canaan, and the train stopped in Darien, since the New Canaan line had quit running, and we walked from the Darien train station to the apartment by the New Canaan police station in sub zero weather without much winter clothing with a long line of Land Rovers passing us, and none of them gave us a ride when we were hitchhiking in that cold weather. John's grandmother had a picture of the Trapp family lodge in Austria in her house in Long Island, and he frequently was interested in the Summer Home - Bolton Valley. Since John did not chat with me much in the last couple of decades, all I knew was he was doing was environmental work.

Note: <888> 10/08/09 Thursday 10:55 P.M.. I had sad news today that a good friend passed away unexpectedly DIVERSITY- Anti Merit? . He will be missed by his family and colleagues. I had not seen John in about five years, since he showed up one August evening about five years ago in a red T-Shirt that said United States Embassy Thailand. I chatted with him about six months ago. He mentioned he was using the internet, but most of his time was spent reading books, and he was not interested in what I had been doing recently. I might be attending a funeral out on Long Island in the near future if a friend can drive me out, or possibly I can risk driving myself in all of the traffic. It is not like the old days, when one could drive from Long Island to Connecticut without much traffic, there is so much traffic anymore, I do not consider myself safe to drive on the busy highways much anymore, but I have another friend that drives a lot, and might be able to drive me out there. Quite frankly when one looks at a computer monitor for 20 years, one is not as sharp on the highway. I will probably get depressed sooner or later, but I will try to maintain my normal work routine. I will now shut down the primary Vista computer, and I will go to bed. I have to be awake at 10 A.M. for a 1 P.M. appointment today. I will eat an apple before going to bed. I was told by the Doctor today and a relative that eating too many nuts is bad for one's cholesterol. CIO

Note: <888> 10/07/09 Wednesday 11:50 P.M.. I was away from my apartment this past September 2009 for 15 days, and I turned off the utilities including the hot water. According to www.cl-p.com, my September 2009 bill was \$151.33. I also received in my account a \$232 Energy Assistance grant, so I have a surplus in the account, but if I used the heat in the winter, it would be over \$400 a month, which I can not afford.

The new bill for September 2009 was for 34 days with kWh usage of 762 or 22.41 kWh per day, and the average temperature was 62.8 degrees Fahrenheit.

For September 2008, the bill was \$130.44 for 29 days, when I was gone a little bit over two weeks, but I did not turn off the hot water. It 651 kWh or 22.45 kWh per day, and the average temperature was 66 degrees Fahrenheit. Thus it was 3.2 degrees Fahrenheit colder in September 2009 than September 2008. I chatted briefly with www.cl-p.com about my viewpoint. CIO

Note: <888> 10/07/09 Wednesday 10:55 P.M.. Dinner was delicious. After dinner, I cleaned the air filters on the General Electric Profile 15,500 BTU air conditioner. I used my small cart, and I removed the heavy condenser unit from the air conditioner window case, and I wheeled it out into the hallway. I then removed the two screws that hold the case in place in the window, and I removed the towels from the top of the window that provide insulation, and I opened the window all of the way, and I lifted out the case, and I put it in the hallway. I labeled both pieces with my name and apartment number. The building custodian will put them in storage, when he gets around to it. I put the cart in the back of the Audi, and I chatted with a neighbor. I removed the Plexiglas from the left side from where the air conditioner was, and I removed the old duct tape. I also cleaned the window shelf, and I removed the bobby pins that held up the curtain over the air conditioner. I put the front face plate and filter holder and Plexiglas and in a small zip lock bag with the two case screws and bobby pins underneath the left front side of the bed in the bedroom. I moved the items from in front of the right living room window, and I opened it a small bit to take out the Oregon Scientific weather station sending unit, and I put in two new fresh AA alkaline batteries and repositioned it clipped onto the screen. Thus I should have enough battery power for it this winter. I put the items back on the window shelf including the breakfast tray I use as a stand, so it is setup the way it has been in previous

winters. Thus the apartment is sealed up for the winter. It is now slightly over 76 degrees in the apartment, so I am not using the primary lights to keep it cooler under the colder temperatures outside cool down the apartment in a week or two.

Once it gets colder in a month or so, I will put the two U.S. Army www.army.mil extreme cold weather to minus 30 degrees Fahrenheit sleeping bags on either end of the sofa, and I will put the two DeLonghi oil filled radiators in the living room, and I will also put out the comforters and blankets on the sofa, and at the same time, I will put the electric blanket and two comforters on the bed in the bedroom and store away the summer quilt. CIO

Note: <888> 10/07/09 Wednesday 7:30 P.M.. After the last note, I ate a 10 ounce can of CVS mixed nuts before going to bed. I woke up at 11 A.M. this morning. I made my bed, and I washed the breakfast dishes. I showered, and I cleaned up. I threw out the garbage, and I chatted with neighbors. I chatted with a friend. I sat out for a while. I went to my 3 P.M. appointment at the outpatient clinic at the Greenwich Hospital. I got the follow up on my cholesterol which is down to 230 from 260, but it is still too high. The doctor put my on 20 mg. Lipton once a day at bed time. I am also to continue with the Tricor when I wake up in the daytime. I also got my annual flu shot. After that, I went by CVS. I then walked the entire length of Greenwich Avenue and the train station area. I picked up my prescription at CVS. There were a lot of people out and about on a blustery day. After my walk, I went by the Stop and Shop, and I bought two six ounce jars of Gold's hot horseradish for \$1.59 each, a 15 ounce bottle of Lea and Perrins Worcestershire sauce for \$4.39, and fresh Chiquita bananas at .69 a pound for .75 for \$8.32 total. I then returned home. I chatted with a neighbor. I picked up my mail. The pictures from www.kodakgallery.com arrived, and they look quite nice. I might put some in frames to display later along with my photo album. I chatted with a relative.

I will now eat the same meal as last night, but I will have two 7/16th inch thick slices of cold eye round with horseradish and Lea and Perrins Worcestershire sauce on them along with the other items.

I think I have only been in Barbados once, and that was on a return flight from Tobago, we stopped in Barbados, and I went to the Duty Free liquor store, and I bought a liter bottle of Johnnie Walker black label scotch for two Barbados dollars or the equivalent of one U.S. dollar, but that would have been in 1970 or 1971, when a dollar was worth more. Note: <888> 10/05/09 Monday 1:45 A.M.. I put a new blue Clorox toilet tank tablet in the toilet tank.

Back in December 1980, when I was able to get a new U.S. Passport at the State Department office at Rockefeller Center in Manhattan, when I had a lady standing behind me in line that looked like Queen Elizabeth II also applying for a U.S. passport, I went to Frankfurt, Germany on a \$100 Capitol airline flight. While at Rhine Mein airport, I helped a lady that looked like Princess Margaret with two empty turquoise suitcases and she was all dress in turquoise blue feathers, and we went into the Pan AM Clipper Club lounge which I was a member of too. She said she brought empty suitcases to do some Christmas shopping. She gave me here card, and it was at an address at Rue St. Michel in Barbados, so I guess they wear dresses made out of feathers in Barbados. I only had a one way ticket to Germany, and when I tried to return, I had to convince them to sell me a \$100 return ticket, since apparently it is more expensive going the other way. The train station in Frankfurt, Germany only had travel posters for Gstadt, Switzerland. I stayed near the train station at a Y.M.C.A. there, and it had a big German Shepard dog for security. The man at the desk like when I was in Oslo looked like one of my uncles. I discovered plastic garbage bags in Germany which had yet to arrive in America. I went to one student pub, but I did not meet anyone, since it was at closing time. I took the train out to Stuttgart, Germany, and I went to the Mercedes Benz showroom, and I chatted with the salesman

there. He told me he wanted to drive a Corvette across Route 66 in the United States. I bought six Rosenthal crystal wine goblets duty free for about \$50 each to give to my roommate in Manhattan, since her family were from the Kaiser's consulate staff in Manhattan. On the return flight there were some awfully big men on the DC10, and they would walk to back of the plane, and it would go up, and when they walked to the front of the plane, it would go down. They were easily over seven feet tall and over 500 pounds. I also discovered the black linoleum with the round circular disks which they used in the Frankfurt airport, and they now use for anti skid protection in this country. When I got back to my family's house in New Canaan, Connecticut, somebody named Arnoff who was in charge of the German Federated railroads had left their card outside the front door.

Note: <888> 10/05/09 Monday 1:10 A.M.. Back during the Viet Nam war, when I was at Lake Forest College in Lake Forest, Illinois www.lfc.edu, my military lottery draft number was 196, since I was born on May 9, 1950, thus I was not drafted. I carried my draft card with me for many years from the Wellesley Hills, Massachusetts draft board, but they never called me up. I lost the draft card back in August 1980, when my complete set of identification along with travel items and funds were stolen from me just before I was ready to travel to Oslo, Norway. I did not make it there finally until February 1983. I sometimes wonder what would have happened if I had made it to Oslo, Norway back in August 1980. Whether I would have been able to establish residency there or not. By the time I got there in February 1983, with two people I saw in the West Hotel behind the Norwegian Palace that looked Casper Weinberger and Ronald Reagan, it turned out you can not just move there. My father had to pay about a \$1,000 to have me shipped back via Copenhagen. Still a lot of people around here seem to think I am Scandinavian, so it would have been nice to have been around other people that look like me. However, at age 59, I am not sure I could take the colder climate there. Possibly I should have gone to Scotland, but I never meet many people from Scotland here, and I have met lots of people from Scandinavia over the years particularly when I traveled and when I was in Manhattan.

At Lake Forest College during the Viet Nam War, I just went to classes and studied and I also had part time jobs the whole time I was there, and I also restored old Mercedes Benzs. Lake Forest, Illinois had good security in not too much moved around late at night, except for a private Sheriff in a black Cadillac. Occasionally after the two local student pubs the Lantern and the Jim Mitchell's pub closed at 11 P.M., we would drive down to the next town south on Lake Michigan which was called Highwood which was at the gates Fort Sheridan, and back then from 1968 to 1972 a beer was 15 cents and a hard drink with mixer was 35 cents and Highwood was opened until 4 A.M. in the morning or possibly all night. With the war on, people were working and awake 24 hours a day, and whenever I visited O'Hare airport in the early morning hours, there were tens of thousands of people traveling even at those hours. CIO

Note: <888> 10/05/09 Monday 12:10 A.M.. I am going to eat another bowl of beef stew with some watered down passion punch. I will then drink a cup of Salada green tea with splenda and lemon juice.

I left the RTH surge protector power strip on the desk in the bunk room in Kennebunkport, Maine while I was up there, so there will be extra power sources at the desk. CIO

Note: <888> 10/04/09 Sunday 11:35 P.M.. Before I went out, I put a new CR2023 Lithium battery in the bathroom scale. The one in it wore out sooner, because I had stored two jugs of laundry detergent on top of it, so it stayed on all of the time.

I went out, and I went by the Stop and Shop. I bought an eye round roast for \$2.99 a pound for \$10.61, a two pound bag of baby carrots for \$2.99, fresh Chiquita bananas for .69 a pound for \$1.70, and broccoli crowns for \$1.99 a pound for \$2.21 for \$17.51 total. I then returned home, and I put away my groceries. I chatted with a relative. I went back out. I stopped by CVS, and I bought three 9 ounce cans of CVS smokes almonds for \$10, and two 1.06 ounce jars of Gold Emblem Italian spices for .88 each for \$11.76 total. I got \$4.50 in CVS bonus bucks back, so I bought for half price for \$4.50 a RTH LED emergency utility light for \$4.50 with the bonus bucks for no charge. I then drove further down Greenwich Avenue, and I walked the entire length of Greenwich Avenue and the train station area. Peter Tesei's republican for first selectman campaign office on Railroad Avenue had about a dozen late night workers. I chatted with one volunteer about how the Republicans are always so financially hard up that the Harriman democrats with all of their money always seem to keep winning. I used the bathroom at Starbucks on the way back up Greenwich Avenue. I stopped by CVS again. From their 90% off rack in the center aisle, I bought four CVS 2 ounce fragrance free adult rash ointments for .41 each, four twin packs of Lock DeIcer for .29 each, and two LypSyl LypRadiance HoneyRose for .29 each and .07 tax for \$3.45 total. I then finished my walk. The new AT&T phone store on the west side of upper Greenwich Avenue is suppose to open this Tuesday October 6, 2009. It looks a bit high tech, but too pricey for my budget. I put my purchases in the car. I put one of the two packs of lock deicer in the passenger front door compartment and another in the arm rest compartment between the front seats. I then sat out for a while. I was told that there is 24 hour Starbucks in Darien, Connecticut, but I am not sure where it is, so possibly it is at one of the I-95 rest areas in Darien. I then returned home. I put three AAA alkaline batteries in the RTH emergency utility light, and I hung it beneath the light switch in the bathroom for emergency light in case of a power failure. Thus I have all of the rooms in the apartment covered with emergency lighting. I put the other two packages of lock deicer on top of the spice rack at the kitchen entrance. I put the other drugstore products in the bookcase shelves in the bathroom. CIO

I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with

splenda and milk. I went back to bed until 4 P.M.. I chatted with a friend. I washed the breakfast dishes. I ate an apple. I put clean linens on my bed. I started two loads of laundry, and I am just about ready to start the dry cycle. I threw out the garbage. I chatted with neighbors. End of Scott's Notes week of 10/03/09:

Note: <888> 10/03/09 Saturday 11:50 P.M.. I watched a bit of television. There is not much on. I will now send out my weekly notes. I will then shut down the primary Vista computer, and I will go to bed after that. Partly cloudy and a high of 72 degrees Fahrenheit tomorrow. CIO

Note: <888> 10/03/09 Saturday 10:05 P.M.. I sautéed a 7 ounce Jones's ham steak for about four minutes a side turning it every minute in olive oil with garlic powder, ground black pepper, and Italian seasoning, and for the last few minutes I sautéed it in soy sauce also. I ate it with mustard on it. I also had my usual steamed vegetable mixture with olive oil on it. I ate the last piece of blueberry pie, and I also had a glass of watered down punch and a cup of Salada green tea with splenda and lemon juice. CIO

Note: <888> 10/03/09 Saturday 8:55 P.M.. I finished installing and running the Norton Utilities 14 on the primary Vista computer, the Epox computer Vista partition, and the Abit computer Vista partitions. I did Vista Complete PC backups from the first hard drives to the second hard drives, and I am just finishing up backing up the computers to the external hard drives. I will defragment the Vista C: drives on the Abit and the Epox computers. The primary Vista computer still takes 15.5 minutes to completely boot up, but that could be because it is indexing all of my many stored files. The other computers seem to boot up faster than before, but they do not have as many stored files. I chatted with a relative. The emergency pull cord bell went off in a neighboring apartment downstairs, but there was no problem. CIO

Note: <888> 10/03/09 Saturday 5:55 P.M.. I ate a Maine apple after the last note. I woke up at 9 A.M., when a relative called. At noon, the postal person delivered the order for Norton Utilities 14.0 3 User - 20001380 - Buy.com for \$24.99 with free shipping. About 2 P.M., I finally got up. A neighbor's relative gave me a book on the Islands of Maine. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I chatted with a relative. I threw out the garbage and the old periodical literature. I put my car in its usual parking place. I picked up the mail. I made my bed, and I washed the breakfast dishes. I showered, and I cleaned up. I made a copy of the Norton Utilities 14 CD, and I installed it on the primary Vista computer, and I ran the utilities. It seems to start up faster and be more responsive. I will use the defragmenting program shortly. I will also install it on the Epox and the Abit computers. I do not think the FIC server needs it, since it seems to be fast enough. CIO

Note: <888> 10/03/09 Saturday 3:45 A.M.. From www.kodakgallery.com , I ordered two sets of 44 pictures from the ones that I took in Kennebunkport, Maine. One set is for myself, and one is for a relative. The total costs of the 88 pictures was \$14.06 with free shipping. CIO

Note: <888> 10/03/09 Saturday 2:35 A.M.. I also ate a piece of blueberry pie after the sandwich today. I just now showered, and I cleaned up. CIO

Note: <888> 10/03/09 Saturday 1:45 A.M.. I ate a three egg omelet with grated parmesan and Romano cheese and four strips of bacon and a toasted English muffin with olive oil and watered down passion punch.

I had a computer magazine telephone call this past week, and the caller thought Greenwich, Connecticut was Greenwich Village. In the last recession in the 1970s, I recall eating a lot of omelets at David's Potty Belly on Christopher Street in Greenwich Village. I also use to eat Eggs Florentine at the Greenwich Restaurant on Greenwich Street in Greenwich Village. Alas, with the price of parking in Manhattan and the price of gasoline in this area, I can not afford to drive into Manhattan to see what the students and tourists are doing in Greenwich Village. I had email from a friend who is the process of sailing on a cruise ship from London, England to Cape Town, South Africa, and the internet usage on board ship is 75 cents a minute, so the they use internet cafes when they visit different ports. Possibly they should put an internet cafe on the Hudson River in the west 50s where the cruise ships come in, so the passengers have cheaper access to the internet.

Since I have only been in Manhattan about four three times, since I was mugged there on July 4, 1993 by someone from Bermuda, I do not know much about Manhattan anymore. I went there the following February after being mugged when it was minus 20 degrees Fahrenheit, and I went to a couple of pubs wearing my Austrian game keepers suit, which I have since out grown, and I chatted with the doorman at the Waldorf Astoria on a cold winters night. I also went in during the G8 Conference during the February after 911, and I toured a few museums with friends. It was a high security day. The only other time, I recall going into Manhattan was about 2.5 years ago in February for the Microsoft Launch of Vista at the Sheraton Hotel on Broadway and about 54 street. That day I also saw some C.B.S. employees on the train, and I was stuck in Grand Central Station, when the trains quit running when a building fell down near the tracks. Thus my viewpoint on Manhattan

is very limited, and I would imagine it has changed in the 16 years, since I was mugged. Also from the period from before I was mugged, I would only go into Manhattan at night and the early morning hours and chat with people at pubs. I only recall being in Manhattan about four times in the day time besides that since I moved here from Nantucket 26 years ago after being homeless in Manhattan for a couple of weeks in December 1983. I think on those occasions it was to catch the bus from or to the airports to Grand Central Station to return out here or reverse. I do recall going in twice with a friend, and one of those times I stopped by to visit <http://mikelouisscott.com/fred.htm> on East 54th street after watching the car in the Diamond District when a friend bought some silverware at Michael Fina, and one time I went with the same friends, when he bought a glass and iron table from Bloomingdales on Third Avenue on a Sunday afternoon, and I recall the table was from Florence, Italy. The only other times I recall were possibly a few times when I went in for dinner with friends earlier in the evening. Once of those times we went to the Elephant and the Castle in Greenwich Village, another time to a restaurant on East 58th street near a local pub, and the only other time, we went to the Mayfair restaurant, where we met Mrs. McDonald that looked like the Queen Mum on England. Thus my exposure in Manhattan has been limited over these years in Greenwich, Connecticut. I also went into Manhattan once with a friend from Brazil, and we toured around including going to the top of the World Trade Center and that was over 20 years ago. CIO

Note: <888> 10/03/09 Saturday 12:05 A.M.. Before going to bed last night, I changed the calendars to October 2009. I woke up, and I ate a 9.5 ounce can of CVS smoked almonds. I finally woke up at 8 A.M. this past morning. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I chatted with a local walker about oil changes. I went back to bed until 1 P.M.. I watched television, and I surfed the internet. I chatted with a friend. I fell asleep on the sofa. I ate a ham and cheese sandwich on a bulkie roll with mayonnaise and 1/4th of a 6.3 ounce tube of Pringle sour cream and onion potato chips and a dill pickle slice and watered down passion punch. I made up a fresh batch of passion punch. I watched some television. I chatted with two relatives. I fell back asleep until 11 P.M.. I threw out the garbage. I picked up the mail. Note: <888> 10/01/09 Thursday 11:55 P.M.. The way I figure it, every generic cigarette that I smoke currently costs me 15 cents, so I plan to cut back on smoking before I hopefully quit sometime soon. I went out after the last note. I walked the entire length of Greenwich Avenue and the train station area. I use the bathroom at the senior and the arts center. I stopped by Zen stationary, and I played a number 27 Amazing 8's scratch card for a dollar, but I lost. I chatted with a local security guard, and I was told that after Obama finishes being president, any new president will only have secret service protection for 10 years after the term ends. I am not sure how that effects former presidents. I chatted with a local walker. I gave the local walker six cigarettes or 90 cents value. The local walker found \$100 recently on Greenwich Avenue. I also gave another cigarette to a homeless person who did not have enough money to get out of town. The homeless person smelt like he had alcohol on his breath, so he probably has other problems too. I used the bathroom at Starbucks. I completed my walk of Greenwich Avenue. I then drove down by the waterfront on Steamboat Road and on a cooler evening, there was only one lonely fisherman down there trying his luck. I then returned to my rooms at Villa De Vinci, and everything here seems pretty much normal and the same as usual. I have noticed that the few non family friends that I have chatted with over the years, no longer have any time to chat anymore, so possibly they are experiencing economic difficulties like a great many other people during the Obama recession. CIO

Note: <888> 10/01/09 Thursday 8:30 P.M.. I also ate a piece of blueberry pie. I chatted with a relative. I will now shut down the primary Vista computer, and I will go out for a walk. I still need to lose weight. CIO

Note: <888> 10/01/09 Thursday 7:45 P.M.. I put the can of remaining 3M Silicone Paste on the lower level of the sweater closet in the hallway with the other car items and tools. I was told by the relatives in Maine there are a lot of acorns and a neighbor told me there are a lot of acorns in this area which is suppose to mean a colder winter. The bad news is that the front bench on the east end of the building has collapsed, and the bench on the north front end of the building is also beginning to give way. They look like the Wal-Mart park benches, so I guess they are not very sturdy. The goods news is that I saw a black squirrel at the east end of the building. I will now reheat and eat the same dinner as last night. CIO

Note: <888> 10/01/09 Thursday 7:15 P.M.. The order for 3M Silicone Paste (Dielectric Grease) for \$16.99 and \$9.95 shipping and \$1.02 tax for \$27.96 total arrived at 6 P.M. via UPS. I put some on the passenger side front door window tracks, and that windows now goes up and down all of the way without any problems. I also put some on all of the other door window tracks, so they now have their preventive maintenance lubrication done. I cleaned off the excess with a paper towel. The container comes with a little brush inside to

Unfortunately I do not go over there, since I do not like spending \$4 to cross the Tapan Zee bridge which tends to give one vertigo. I have seen the military police at nearby Fort Montgomery, and they are rather big and over fed, so he should have no security problems. Like all African Americans, when they are given too much food, they tend to eat so much that they tend to get rather gross, and they do not look like they would fit into a regular airline seat, so more than probably they travel around in bigger vehicles like C5As or whatever they use to move heavy equipment. That same day, somebody stole \$8,000 in gold from me, and later in California, I sold the Volvo for \$1,250 at a cash for you car dealership next to the entrance of Disney Land, and I flew back to New York City. I did an XP Professional ASR backup of the XP Professional partition on the Dell Latitude D410 to the Samba external hard drive with the floppy drive installed, so I could make the recovery floppy disk. I left the floppy drive on the right side of the stand in between the two monitors. I tried to get the Motorola H780 wireless headset to work with the XP Professional partition, but I messed it up, so I restored my earlier Windows 7RC Complete PC backup of both partitions. I finally gave up with the Dell Bluetooth device, and I disabled it after I got it going properly, but although it recognized the Motorola headset, it would not install its drivers. I then tried the Cirago USB 2.0 Bluetooth device on it, but although it did recognize the Motorola headset, it did not install the device drivers for the Motorola headset. I left it installed. I tried it on the FIC Vista server, but it was not recognized. I then tried it on the Windows 7RC partition on the Dell D410, and it was recognized plug and play, and it installed the Motorola H780 Bluetooth headset plug and play without any problems. I set it as the default audio device. I made a test call with Net2Phone to Cablevision tech support, and it worked just fine. I have it plugged into the dining table power strip that stays on all of the time, and I have it place to the left on the stand in between the two monitors. I reheated my Thanksgiving meal with a 1/3rd inch thick slice of the turkey ham that I put some mustard on. The Thanksgiving meal did not have any turkey or gravy. It was mashed potatoes, green beans, stuffing, and cranberry sauce. There were also two cookies and two small candy bars and a Hershey kiss. I ate it with watered down punch. I am now doing a Windows 7 RC Complete PC backup of both partitions on the Dell D410 to the Maxtor external hard drive. I will now shower and clean up. CIO

Note: <888> 11/25/09 Wednesday 10:35 A.M.. I registered the warranty for the Samba external hard drive with www.acomdata.com. I am a bit tired, so I will now shut down the primary Vista computer, and I will eat some almonds, and then I will go to bed soon. Have a good day. Afternoon showers and a high of 53 degrees Fahrenheit. CIO

Note: <888> 11/25/09 Wednesday 10:15 A.M.. I went over to the Valley Drive post office to mail the package. The package was .25 inches longer than 16 inches, and it would have been \$28 and change to mail it Priority Mail, so I mailed it parcel post for \$9.27 and .80 for delivery confirmation for \$10.07 total. It will take 7 to 10 days to get to McAllen, Texas. I then returned home. When I got to my apartment, I discovered I had lost my reading glasses, so I returned to the Valley Drive post office, and I found them in their case in the parking lot, where I had parked. I guess they came out of my passport pouch, when I took out my car keys. They were not run over by a car, so they are all right. I then returned back to my apartment. CIO

Note: <888> 11/25/09 Wednesday 9:05 A.M.. I finished the backup. I now have 141 GB left on the Samba external hard drive. I will now go out mail the package at the Valley Drive post office. CIO

Note: <888> 11/25/09 Wednesday 8:35 A.M.. I am now backing up both partitions on the Dell Latitude D410 laptop to the Samba external enclosure. CIO

Note: <888> 11/25/09 Wednesday 7:35 A.M.. I installed the new Seagate 300 GB PATA hard drive in the Samba enclosure. I did a Vista complete PC backup from the first hard drive of the primary Vista computer to the Samba enclosure. I then copied a lot of files from the C: drive to the Samba enclosure. However, just as I was finishing, the Seagate hard drive failed making a clanking sound. I put in another spare new identical hard drive, and it worked just fine. I then did another backup. While doing that I got the RMA information from Seagate, and it is under warranty until February 2014, I printed out the RMA and label, and I packed up the Seagate drive in its box without the cables and paper manuals. I packed that box in the box that the Samba drive arrived in with foam peanuts, and I put the label on it, and I have it ready to mail. It weighs just under three pounds. Priority Mail will cost \$10.60 which I think includes tracking. I will mail it at the Valley Drive post office, when it opens at 9 A.M..

I put my OEM logos on the two partitions on the Dell Latitude D410 laptop. One searches Google for "OEM Logo XP" or "OEM Logo Windows 7", but there are no logo programs for Vista.

I am now copying the FIC server folder to the Samba enclosure.

I ate a clementine.

I have the server program turned off while copying. CIO

Note: <888> 11/24/09 Tuesday 11:55 P.M.. I chatted with a relative. I installed the Dell W9242 Bluetooth device in the Dell Latitude D410 laptop. I had to use a small screw from the primary Dell Latitude CD hard drive mount to secure it. I will look for some more small screws to have in reserve some time in the future. Plug and Play in Windows XP Professional recognized it, and installed the drivers. In Windows 7RC, Windows update installed the same devices, but it gave an error message that a protocol and a device were not installed, but in hardware settings, it shows it installed fine. I can not test it, until I get the Motorola Bluetooth headset. I chatted with a friend. After I ate the meal below, I went out.

I went by the Stop and Shop, and I bought two eight packs of Freirhoffer's hot dog buns for \$2.89 each eight pack, a half gallon of Florida Natural orange juice for \$3, a dozen jumbo eggs for \$2.49 expire December 30, 2009, a 12 ounce generic honey for \$1.99, a 48 ounce container of Quaker old fashioned oatmeal for \$4.99, a two pound Jenie O turkey ham for a \$1.99 a pound for \$4.06, a 2 pound bag of baby carrots for \$2.99, a five pound box of Spanish clementines for \$4.88, fresh Chiquita bananas for .69 a pound for \$1.70, and broccoli crowns for \$1.79 a pound for \$2.69 for \$34.57 total.

I then went downtown, and I walked lower Greenwich Avenue. I chatted with some students from Greenwich Village outside the Thataway pub. I sat out briefly. I did not

have time to walk upper Greenwich Avenue, but I am pretty sure it is still there, since I saw it when I drove down Greenwich Avenue. Ralph's scaffolding is still there too.

I next went by the Greenwich Automotive Services Gulf station next to the Greenwich Library. They have a 1972 Mercedes 280SL roadster in mint condition with 80,000 miles for sale there. One can call Chris or Steve there. I chatted with a Buick Roadmaster wagon owner about them. I put \$15 of self service premium gasoline at \$3.279 a gallon for 4.575 gallons at odometer reading of 65,196 miles for 58.6 miles driving since November 7, 2009 for 12.809 miles per gallon driving mostly in local traffic. Yes, I have a full tank of gasoline, since I do not driver very much to save on energy. I would prefer to keep my apartment warmer than to heat up a car engine. I cleaned the outside windows, and I checked the tires for 32 PSI. I also used the bathroom there. I then returned home, and I put away the groceries.

I will now put one of the new Seagate 320 GB PATA hard drives in the Samba enclosure.

Note: <888> 11/24/09 Tuesday 4:45 P.M.. My father was Louis Dale Scott from Champaign, Illinois. His father was Clarence Scott and his father was James Scott. Dad was a chemical engineer with degrees from the University of Illinois at Champaign Urbana and he did doctorate work at Ohio State. He worked with Dr. Salk on the Polio Vaccine as a young chemist. I do not know what he did for a job when he was married to his first wife who was the wealthiest heiress in Chicago, Illinois, and her family the Kuhns family owned the Household Finance Company. Dad when he first married my mother Phyllis Bovan Agnew from Holland, Michigan worked for Royal Dutch Shell in Wood River, Illinois building a refinery for Shell, and I was born nearby in Alton, Illinois. His next job was with www.dupont.com in Martinsville, Virginia, before he took the job with Chemstrand at their Nylon plant in Pensacola, Florida, then to the Acrilan plant in Decatur, Alabama, and finally we moved to this area in 1961, when dad worked in the Chemstrand offices at the Empire State building. He also worked for a lot of those different companies mentioned overseas in various international capacities. CIO

Note: <888> 11/24/09 Tuesday 4:20 P.M.. On a minor note of diplomacy, when I attended Greenwich Country Day from 1962 to 1965, my family lived in Baldwin Farms North down the street from Lowell Weicker when he was first selectman of Greenwich, Connecticut. We use to carpool with the Weicker family to Greenwich Country Day, and the Cole family of Reader's Digest and the Barnum family that were local architects. Baldwin Farms North and South are off Round Hill Road just south of the Merritt Parkway. Lowell Weicker's first wife's family maiden name was Bigelow of Bigelow Teas, Green Tea, Herbal Tea, Decaf Tea, Tea Gifts from Bigelow Tea fame, but the Bigelow family also made Bigelow Commercial carpet which used Acrilan fiber from Chemstrand, so that was the business connection.

When Dad was at www.polaroid.com after Chemstrand the Warburg family that was also at Greenwich Country Day also were involved in founding Polaroid as was Julius Silver from Byram who was the treasurer of Polaroid. Also the Harriman family who were related to my classmate George Cary at Lake Forest College were involved in starting Polaroid.

After Polaroid, Dad was at Combustion Engineering, and they had offices in Stamford, Connecticut and his boss at Combustion Engineering Arthur Sandry also lived here in Greenwich.

After Combustion Engineering, Dad was at Continental Can, and they had offices in Greenwich, and Mark Hatfield here in Greenwich was the president of Continental Can. Continental Can's offices in Manhattan were across the street from New York Blue Cross Blue Shield that provided me with medical insurance.

After Continental Can, Dad was at King Wilkinson construction company out the Hague in the Netherlands, and I just know they are a large worldwide construction company. Dad was the project manager to build the Royal Dutch Shell and Mobil oil refinery in Nigeria. He then retired in 1982 to Bayonet Point, Florida and passed away in 1989 from a bone chip from a fractured hip that gave him a stroke. His third wife who was his secretary inherited his and my grandparent Scott's assets.

My mother's second husband George Bliss Agnew Junior was a long time resident of Greenwich, and he was an officer of the Putnam Trust Bank. His father was the president of the U.S. Trust Company, and he seemed to know a lot of the more established people in Greenwich, Connecticut, New York City and Kennebunkport, Maine having gone to Princeton around the class of 1936 with Larry Rockefeller and Jimmy Stewart. I was also told the state of Connecticut is auditing the Renter's Rebate program and that some people were overpaid and others were underpaid, and that the state might require some people to give back the money they were overpaid. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I chatted with a relative. I made my bed, and I washed the breakfast dishes. I showered, and I cleaned up. I threw out the garbage. I said hello to neighbors. I picked up my mail. I ate two hot dogs on buns with ketchup and mustard, 1/3rd of a 5.5 ounce tube of Pringle sour cream and onion potato chips and a dill pickle slice, and watered down punch.

Any readers of my notes trying to figure out where Geoff Hoguet lives in Manhattan, so they can put him on a diet are trying to figure out where Nelson Rockefeller lived. When I knew Fred Von Mierers, when he was photographed shaking hands with Nelson Rockefeller in the Eugina Shepard column of the New York Post in October 1973, Fred told me the Rockefellers had over 600 private family properties around the world. Ted's partner Taylor Sterling who lives here in Greenwich, Connecticut in back country designed the Rockefeller home in Venezuela. Fred was suppose to be designing a beach cabana for Nelson's house in Bermuda. Nelson's apartment building in Manhattan was a triplex apartment pent house the next building north of the Pierre Hotel on Fifth Avenue. He use to park his bronze color 1968 Oldsmobile 98 four door sedan on the street in front of the building entrance, and it has New York License Plate "1908". Rupert Murdock is suppose to have bought the apartment from the Rockefellers. The next building north where the Taft alumni directory says Geoff Hoguet lives is a modest four story town house on Fifth Avenue. What has me confused is the New York Times www.nytimes.com said in a 1972 article that a little old lady from New Jersey owned that building, and when she died she left her \$70 million estate to her 40 stray cats. Thus it seems Geoff might have moved in after all of the cats died, or he is taking care of the cats descendants. CIO

Note: <888> 11/24/09 Tuesday 12:30 A.M.. The Scott family original connection with the Rockefellers was Tom Scott, when he was President of the Pennsylvania Railroad after the Civil War organized the Standard Oil Trust for John D. Rockefeller giving the Standard Oil the exclusive right to haul oil on the Pennsylvania Railroad out of Ohio. Young Andrew Carnegie was Tom Scott's telegraph operator. My grandmother Elizabeth Gard Scott's grandmother was a Davidson, so some of the Davidson family look is apparent in my branch of the Scott family. Also in more recent times, when we first moved to Greenwich, Connecticut my father was a Vice President for Chemstrand that made Acrilan and Nylon fibers. Chemstrand was 50% owned by American Cyanamid here in Greenwich and 50% owned by Monsanto out of St. Louis, Missouri. Stillman Rockefeller here in Greenwich, Connecticut was the Chairman of the Board of Citibank, and he was also on the board of directors of Monsanto. Since Acrilan fiber was use to make expensive \$100 a square yard carpet in the 1960s, wealthy people bought the carpet. Also since Acrilan carpet shed a lot of fabric, one needed an Electrolux vacuum cleaner Electrolux Appliances - Electrolux Appliances Official Site to keep the carpet looking right. The Duke of Windsor knew the Swedish owner of Electrolux and use to barrow his yacht the Southern Cross in the Bahamas, and in the 1920s while still the Prince of Wales, he dedicated a statue at the Electrolux factory in Old Greenwich, Connecticut, so he obviously visited Greenwich back then. When I stayed at Fred's apartment in Manhattan, my only friend that visited me there was George Cary whose grandfather Jay Coogan worked for Queen Victoria's honor guard. The only people from Greenwich, Connecticut that visited there were George Nichols who was an assistant editor of the www.nytimes.com and Wilbur Banks who was in the Duke of Windsor's honor guard in Newport, Rhode Island during World War II, and Wilbur Banks just happened to be the local Electrolux vacuum cleaner salesman in Greenwich, Connecticut, so he visited all of the wealthy homes in Greenwich, and I guess Manhattan. However, I am not sure it is safe to use modern vacuum cleaners on expensive antique museum quality carpets. In the fall of 1973, Fred did buy a new Electrolux vacuum cleaner from Wilbur Banks with the carpet sweeper attachment, since his chocolate colored wall to wall wool carpet got a lot of traffic with all of the European guests. There is just east of Greenwich Avenue at the first left from the top, a store that use to be the Electrolux vacuum cleaner shop, but it now has some other new name that begins with A that I forget.

I have not vacuumed or cleaned my apartment, since the second week of August 2009, and I gave my two old Electrolux vacuum cleaners to the Greenwich Hospital Thrift shop and a Hoover upright. I still have the nearly new complicated Hoover vacuum cleaner and an older Sears upright vacuum cleaner. From what I know wealthy people in big houses tend to do a lot of house cleaning or least their help does. CIO

I think I forgot to mention, I saw somebody that looked like <http://mikelouisscott.com/fred.htm> about three weeks ago, and he looked very alive and well. I was driving up Mason Street late Thursday afternoon, and at the building on the southeast corner of Mason and East Elm Street, somebody that looked like Fred walked

out of the building with a blond Nordic looking chauffeur, and they got into a gold colored Bentley automobile sedan. They walked right in front of my slow moving silver Audi, oblivious to local traffic on the street. I do not know whether it was Fred or not, but it sure looked like him.

I mentioned in my notes that I also saw the Fred look-alike twice on Greenwich Avenue with a large man that looked like William Howard Taft or Teddie Roosevelt. Since Fred spoke fluent German, and he had lived with the Krup family in Germany, and since he knew my Taft School The Taft School classmate Tony Clark, when I met Fred. I suddenly remember, I had another Taft School classmate that was Tony Clark's roommate named Geoff Hoguet, and Geoff was Tony Clark's roommate, and Jeff was number one in the school in German, since his family from Princeton, New Jersey were originally related to the Rothschild family - Wikipedia, the free encyclopedia that owned 25% of Austria before they fled before World War II. Geoff lives in Manhattan just north of where Nelson Rockefeller's apartment use to be and also in Bedford, New York, so possibly that rather large person is Geoff Hoguet. Geoff was one of the larger people in my class, and as I recall he was also ice hockey goldie, so he would probably fill up the who net today. They obviously both speak German, so maybe since www.bmw.com now owns Bentley automobiles, they have expanded in the automobile business in their investments. I know one of Geoff's other good friend Bunker Snyder from Taft sells Rolls Royces and Bentleys in Dubai. Also the Duke of Windsor Duke of Windsor - Wikipedia, the free encyclopedia knew Billy Baldwin whom was training Fred to be an interior decorator, and I know when the Duke of Windsor abdicated before marrying Wallace Simpson that he was married at the King of Belgium's castle before they stayed at the Rothschild House in Vienna, Austria called Greenshield, and they went on to some villa in Portugal before becoming governor of the Bahamas and then moving to Paris, France after World War II, so possibly Fred and Geoff are working for some old guard aristocrats whom really do not want to be bothered, if they are even still alive. Bill and I recently discovered, we used to be neighbors in Wellesley, Massachusetts, where my draft board was, so possibly unknown to both of us, we were both drafted into the military service while living up there.

Bill is well educated and if you have read some of his other literature, he actually is a very good writer. However, I have a more worldly viewpoint of some people who do not necessarily know English, which in this town helps with all of the international residents. I do know he attended Harvard www.harvard.edu while the King of Sweden [Kungahuset - Kungahuset](#) and [George W. Bush - Wikipedia, the free encyclopedia](#) were there. However, I also have a few classmates and friends that attended Harvard at the same time, so they might know more. Also since www.polaroid.com was a local company in Cambridge, Massachusetts, and since Dr. Land gave Harvard \$10 million in 1970 which then was a lot of money, certain friends of my family had a bit of influence up there too. George Cary's father was also on the board of overseers at Harvard, and he helped start the C.I.A. with Wild Bill Donovan during World War II, when it was the office of Strategic Services under the oversight of the www.navy.mil .

Ralph is using canoes in his window display. They are wooden canoes like the old Canoes and Kayaks - Old Town Canoes and Kayaks, but I think they are from another manufacturer. After my walk I used the bathroom at Starbucks. A guess a great deal of the non internet senior generation still prefer reading newspapers to get more detailed stories instead of the quick summaries off the internet. However, the older retired generation have more time to read. Quite frankly I am 59 years old today, and I started using personal computers at age 39 about 20 years ago. So it is not like I just started using them. Although they are easier to use today, I have certain habits such as constantly backing up my work to other hard drives and keeping redundant computer systems which is much more costly and time consuming. It seemed to be busy out there this morning. After my walk, I drove down by the waterfront on Steamboat Road. There were not many houses lighted up around the waterfront, so I guess people are saving on electricity, and not using too much electricity anymore to light up their houses. Coming back, I noticed there were a lot of cars parked around the Y.M.C.A. with I guess a lot of people using the new swimming pool there. Although I use to like swimming, I do not like crowded indoor swimming pools, and it is easy to catch Athlete's foot or foot fungus using public locker rooms. I returned home, and I chatted with a neighbor. CIO

I ate the same London Broil dinner as last night. I did not have green tea, since beside being an antioxidant, green tea is a diuretic, and it makes one have to go to the bathroom more frequently, and when I go out for a walk later this morning on Greenwich Avenue, there are not always bathrooms around. Even in Paris, France, they have bathrooms on the street called "Pisseries". Maybe the town of Greenwich should look into them.

I made up a fresh batch of punch. I chatted with a relative. I went back to bed until 8 P.M.. I chatted with a relative. I made my bed, and I washed the breakfast dishes. I took a spare power strip, and I connected it up to the power strip on the dining table. The power strips on the dining table are connected to a good surge protector power strip on the floor by the FIC server desk. I set the new power strip next to the left side of the Compaq LCD monitor, and I connected the Dell D410 laptop power supply into it, so one can now turn off the Dell D410 power supply with the power strip switch. I took the new \$50 surround sound speaker system that I got for free at Staples this past summer, and I took it off the bedroom gigabyte computer, and I put the subwoofer on the dining table platform with the Ionic Pro air purifier on top of it. I put the two speakers behind the Dell D410 Compaq LCD monitor, and I connected the speaker input cable to the Dell D410 docking station. I connected the speakers' power cable to the same power strip, so the speakers turn on with the power strip. One has to have the headset speaker jack disconnected from the Dell D410 laptop, for the speaker system to work. I have the volume turn knob beneath the Compaq LCD monitor on the right side. Thus there is much better sound on the Dell D410 laptop setup. I moved the speaker system from the primary Dell Latitude CS laptop to the bedroom gigabyte computer, and I moved the speaker system from the secondary Dell Latitude CD laptop to the primary Dell Latitude CS

I will now shut down the primary Vista computer, and I will go to bed shortly. There is really not much happening out here in Greenwich, China during the recession and depression, since most people do not have any money. They are just maintaining appearances hoping things will get better sooner than later. However, I did not major in computers at www.lfc.edu but economics. Generally a period of recession can last as long as the period of prosperity before it. Thus since the period of prosperity before this recession was close to 20 years, we could be one year into a 20 year recession or depression. In other words, you should get use to it, if you have not already.

Note: <888> 11/22/09 Sunday 7:10 A.M.. I went out after the last note. I walked the entire length of Greenwich Avenue and the train station area. There was Fjord Fisheries bus full of women leaving St. Mary's Roman Catholic Church. The scaffolding is still up in front of the new Ralph Lauren store. They have nice new Christmas cars at Carriage House motors and a couple of antique ones. I viewed the inside of the Apple Ipod store. It seems to be a lot of space with not too many items on display, but I guess it looks different when it is full of people using the gadgets. I used the ATM machine at the Chase Bank at mid Greenwich Avenue. While there I called 611 on my AT&T Go Phone, and I put \$25 more on my account for a \$26.50 charge. I now have \$72.31 on my account which is good until February 20, 2011, when I have to recharge the account before then to keep the amount on the account or what is left. I chatted with a local walker who mentioned Cybernetics - Wikipedia, the free encyclopedia . I said hello to a former neighbor's relative, but he did not recognize me. I walked lower Greenwich Avenue and the train station again. I was told by the other walker that there was a Porto Potty behind the People's Bank construction site on lower Greenwich Avenue, so I was able to relieve myself. The People's Bank new construction site is in the process of taking down their scaffolding and preparing

to redo their sidewalks. I stopped by the Greenwich Train station, and I left two cigarettes by another regular walker who was sleeping there. The walker that I chatted with earlier does not believe in using modern technology, so he was reading the morning papers by a store front light. I mentioned the Apple Ipod devices are so small, and they appear that one can not repair them oneself, and one would have to send them into the manufacturer for repair. The Apple Ipod showroom does look modern and sleek, but I think their items are a little bit too expensive for my budget, and I am basically a PC person anyway. I finished walking lower Greenwich Avenue, and then I returned home. CIO

Note: <888> 11/20/09 Friday 7:15 A.M.. I went to bed after the last note. I woke up, and I ate a 9.75 ounce can of Planter's Heart Healthy mixed nuts. I finally woke up at 3:15 A.M.. I did a Windows 7 RC Complete PC backup of the Dell D410 laptop to the Maxtor external hard drive. I also did a Vista Complete PC backup of the Epox computer first hard drive partitions to the second hard drive. I also did a Vista Complete PC backup of the Abit computer first hard drive partitions to the second hard drive. The Abit computer can be a bit slow in shutting down, and I think it is caused by the drivers for the Leadtek TV Expert card or its software. It is basically the same as the FIC server except the Leadtek TV card. That is all that I can figure out.

I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I made my bed, and I washed the breakfast dishes.

At www.geico.com, I went ahead and made my third payment of four payments on my six month policy which is due in December 2009.

I will now shower and clean up. CIO

Note: <888> 11/19/09 Thursday 7:10 P.M.. I ate a Boston Market 16 ounce pot roast dinner with a glass of watered down punch.

I could always switch one of the drives out of my two existing IDE hard drive enclosures to make additional backups with one of the spare new IDE hard drives.

I will now shut down the primary Vista computer, and I will go to bed soon. Morning rain tomorrow with a high of 57 degrees Fahrenheit. CIO

Note: <888> 11/19/09 Thursday 6:05 P.M.. I woke up at 10 A.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I made my bed, and I washed the breakfast dishes. I showered, and I cleaned up. When I went out both the fire department and the ambulance were here. I waited for them all to leave. The head fireman on duty said that whenever the fire alarm goes off in the building, we should call "911", since the alarm company does not always respond to the alarm. However, a tenant said that if the fire alarm goes off in one's

apartment, it can cost \$150, so I do not know the real story. I went to my 1 P.M. appointment, and I returned back here. I waited for the mail to arrive. I then went by the Chase Bank just west of Greenwich Avenue on West Putnam Avenue. I then returned home.

However, currently I can not afford either one. I chatted with a friend. CIO

There is no room to install it on the Windows 7 RC beta partition on the bedroom Gigabyte computer. I activated it, and I also configured the Outlook email programs on all of them.

Cloudy today with a high of 57 degrees Fahrenheit. I will now shut down the primary Vista computer. I ate my last apple last night. I will eat a toasted English muffin with olive oil before going to bed. I have to be awake at 10 A.M., since I have a 1 P.M. appointment. CIO

I ate a ham and cheese sandwich on a bulkie roll with mayo with a dill pickle slice and 1/4th of a 5.5 ounce tube of CVS potato chips along with some watered down passion punch. I showered, and I cleaned up. I went downtown, and I walked the entire length of Greenwich Avenue and the train station area. I used the bathroom twice at the senior and the arts center. The new Ralph Lauren store is suppose to open this Friday November 20, 2009. I was told the two police cars at the top of Greenwich Avenue by the United Way are to prevent people from parking on that side street while they repave it. They were also putting move Christmas Italian lights on the tree on the north side of the Veterans monument. Possibly with the recession or depression this year, they do not have the money to put Holiday lights elsewhere on Greenwich Avenue. I was told by a local walker that I gave 4 cigarettes to that Obama is planning a \$250 per person Christmas stimulus this year, but I have not read that in the news. I gave another walker a cigarette. I also toured CVS. They have watches there for \$6, and they also have Waltham watches for \$15, if you need a wrist watch. I chatted with a friend yesterday that has an ill relative. Last night I also drove down by the waterfront on Steamboat Road, which I forgot to mention in my earlier note. After my walk this evening, I returned home. I watched the Sarah Palin interview on www.foxnews.com . I chatted with a relative. I ate a three egg omelet with three slices of processed cheese with grated parmesan and Romano cheese and five strips of bacon and a toasted English muffin with Smart Balance spread and watered down passion punch. Note: <888> 11/18/09 Wednesday 4:15 A.M.. I also have the Western Digital 160 GB hard drive that I used for about two years as the C: drive on the FIC server, and I keep it for replacement in case the current C: drive fails. I also have an older 8.4 GB Maxtor drive. I have used most of my older hard drives to build my backup computers. Of course some of them like the second hard drive on the Epox computer have not been used that much, since it was always a backup drive as was the second drive on the Abit computer. CIO

Note: <888> 11/18/09 Wednesday 3:50 A.M.. On the Primary Vista computer <http://mikelouisscott.com/computer.htm> , I installed a new primary C: Maxtor IDE 300 GB hard drive on February 19, 2009. About the same time, I installed a new C: drive Seagate IDE 160 GB hard drive in the FIC server.

I also have in reserve four new Seagate IDE/PATA 300 - 320 GB hard drives.

Since I am running out of external hard drive storage space, I could use one of those for another external hard drive. This is available that works with both SATA and IDE Newegg.com - [MASSCOOL UHB-340U/PS Aluminum 3.5" Black USB 2.0 External](http://Newegg.com)

Enclosure - External Enclosures . Of course for the cost of the hard drive and the enclosure, I could buy a much larger external hard drive at Cheap Hard Drives , when they have a sale. Also they have free shipping on an over \$50 order with promo code "OUTLETFREESHIP".

These IDE enclosures are also available Newegg.com - Computer Hardware,Computer Accessories,External Enclosures,3.5",IDE,USB 2.0 .

Cheapest price on the net for an IDE enclosure with shipping is here 3.5" USB 2.0 Aluminum External IDE Hard Drive Enclosure - eBay (item 360207329830 end time Dec-12-09 12:44:47 PST) .

However, I am currently using one like this Newegg.com - BYTECC ME-747U2/BL Aluminum 3.5" USB 2.0 External Enclosure - External Enclosures , and I like it because it has a fan.

However, the MASSCOOL above might be more practical because it also supports SATA.

There is no rush at the moment to get one though.

Of course larger capacity external hard drives are getting cheaper too Newegg.com - Computer Hardware,Hard Drives,External Hard Drives .

Of course in a recession or depression, we have to save every penny that we can. CIO

Note: <888> 11/17/09 Tuesday 10:05 P.M.. I woke up at 3 P.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I made my bed, and I washed the breakfast dishes. I showered, and I cleaned up. I threw out the garbage. I went downtown, and I used the bathroom at the Senior and the Arts center. I walked the entire length of Greenwich Avenue and the train station area. The new Apple Ipod store looks like it might open soon. The new Ralph Lauren store is still not opened, and they still have the scaffolding installed on the front of the new store. They were putting Christmas Tree Italian lights on the tree just south of the Veterans monument across the street from the senior and the arts center. I stopped by CVS, and I bought buy one get one free of Planter's 9.75 ounce Healthy Heart mixed nuts for \$6.49 both. I noticed a lot more people smoking cigarettes downtown, so we must still have people here from down south, where more people smoke cigarettes. I finished my walk. I used the bathroom at CVS and also again at the senior and the arts center. I then tried to go by the Greenwich Library, but all of the parking spaces were filled up for some event. I then went by the Stop and Shop, and I bought two 10.7 ounce packages of Kraft slices of low fat Swiss cheese for \$2.50 each package, a 59 ounce container of Simply orange juice with calcium for \$3, two 16 ounce Boston Market pot roast frozen dinners for \$2.50 each, a 15 ounce Lea and Perrins Worcestershire sauce for \$4.39, two 64 ounce Stop and Shop cranraspberry juice for \$2 each, two 64 ounce Stop and Shop cran grape juice lite for \$2 each, a top round London Broil for \$2.99 a pound for \$5.02, and a three pound bag of baby red potatoes for \$2.99 for \$33.40 total. I use the bathroom at the Stop and Shop also. I then returned home. I brought up my groceries and the mail. I put away the groceries. I chatted with a relative twice.

I will now make and eat the same London Broil dinner as last night with the same steamed vegetable mixture with olive oil.

For those of you that forgot, I take a frying pan, and I put a couple of tablespoons of olive oil in it, and I heat it on medium high electric burner heat, and once the olive oil is hot, I put in a 12 ounce cut of London Broil, and I sear it on both sides seasoning it with ground black pepper, Italian seasoning, and garlic powder, and I flipped it every minute for about 5 minutes a side. For the last three minutes I put in about five tablespoons of Kikkoman soy sauce, and I keep flipping it until most of the soy sauce is evaporated. I basically cook the thicker piece of meat medium rare.

For the vegetables, I take a medium small potato, and I cut it into half inch cubes. I put about an inch of water in a Revere pot with steamer tray, and I add the potato cubes, baby

carrots, and broccoli crowns, and I steamed them on electric burner high for about 16 minutes. When I lift the steamer tray out, I put the steamed vegetables in a bowl with a couple of tablespoons of olive oil. I use the remaining hot water in the pot to make a cup of green tea with splenda and Borden lemon juice. I eat the London Broil with KC Masterpiece barbecue sauce and Lea and Perrins Worcestershire sauce. CIO

Note: <888> 11/17/09 Tuesday 8:35 A.M.. I finished configuring both partitions on the Northgate Syntax computer. I then backed it up the Maxtor external hard drive. To have room to back it up on the Maxtor external hard drive, I deleted the Windows 7 RC backup on it for the bedroom Gigabyte computer. I have a copy of the Server folder on the Maxtor external hard drive. I deleted the copy of the Server folder on the Bytecc external hard drive, and I backed up with Windows 7 RC the bedroom Gigabyte computer to the Bytecc external hard drive. This all took a while, because on the Northgate Syntax computer it took quite a while to install the 31 Vista Basic updates. I also ate a 10 ounce can of Planter's Deluxe mixed nuts with a glass of water. I will now shut down the primary Vista computer, and I will go to bed soon. Cloudy and sunny today with a high of 52 degrees Fahrenheit.

I chatted with neighbors. I picked up my mail. I went back to bed until 4 P.M.. I washed the breakfast dishes, and I made my bed. I ate a London Broil dinner the way that I cook it along with steamed vegetables and olive oil and water down punch. I chatted with two relatives and two friends. I showered, and I cleaned up. I threw out the garbage. I chatted with a neighbor's friend. I am restoring the backup on the Northgate Syntax partition, since the Ubuntu disk manager GRUB messed up booting for Vista Basic and Windows 7. Note: <888> 11/16/09 Monday 1:45 A.M.. Well, since not many people seem to speak English in this area anymore, I feel it is important to keep in touch with the British, since that is where a lot of English speaking people come from. Whenever I have traveled outside of this area, I have frequently met and chatted with British and Canadian citizens, so I feel it is important to stay in touch with them, while I am living at home. The British seem to have a large network of people that speak English in the world, but the current crop of English speaking people in this area do not like tobacco smokers, so they tend to ignore me despite my vast experience in this area and elsewhere. From what I know, they might not actually trust me, since my mother is 100% Dutch American, and my father's family is old American, so possibly they are not interested in my different viewpoint compared to what they are preprogrammed with by their elders. I know cigarettes smoking is harmful to the health, but as a youth when I grew up in this area, most everyone smoked tobacco, so I got hooked on the product, except my years in college at www.lfc.edu which did not seem to go as I had planned as a non smoker. From what I know from around here is that if one lives in a city like New York City, one gets the equivalent of two packs of cigarettes a day from the pollution in the City, so living part way out in the country I am less exposed to that factor. When I lived out in Nantucket and Key West and in summers in Kennebunkport, Maine, I get a better feeling of what real fresh air is all about, but alas I do not have the means to live in any of those areas year round, since I am legally disabled. Hopefully I will be able to quit smoking some time soon. Every time I try to quit smoking, something terrible seems to happen, so I have learned to be careful about the quitting smoking process. CIO

The British legation in the United States of America no longer has much money for the old time formalities, and we are just making ends meet.

I turned the HP Photo Smart C4280 Printer on the small white book case around 90 degrees, so its back is against the kitchen wall. I then took out the Lazy Susan from the oak dining table, and I put it on the top front of the white bookcase with the Seamen's telephone and a few bric-a-brac items on it. Thus to use the HP Photo Smart printer, one has to pull out the Lazy Susan about 9 inches.

I put the large upside down wooden CD holder on the dining table with the smaller one placed upside down on the end near the Dell Latitude D410 laptop to hold the Compaq

LCD monitor which is attached to the docking station. Thus it is more stable. I rearrange the Ionic Pro air purifier and other bric-a-brac on the CD case, so it is neater looking around the oak dining table. I only have one position at the dining table available to eat, because the computers occupy the other two positions. However, I have several small oak folding tables that could be put in front of some of the available to chair to eat from, if the need ever occurred to entertain, which never seems to happen. CIO

Note: <888> 11/15/09 Sunday 2:50 A.M.. I ate a piece of pound cake after the last note, and I went to bed until noon. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. On the Abit computer, I changed the CMOS setting to Optimal, and I had to change the memory setting down from 400 MHz to 333 MHz to keep the Abit computer from crashing. I enabled all the Visual features including Aero on the Vista computers. I also have the computers and laptops with battery backup and batteries set to cache the hard drives. I had restored the backup on the Abit computer, and after installing the updates and a few changes, I did another C: drive to D: drive backup of it. On the Dell D410 laptop Windows 7RC partition, the laptop graphic adapters and the docking station graphics adapter which is the same does not support Aero. I have all of the Visual features enabled though. I changed the Mouse CMOS setting to PS/2, so the wireless mouse now works on it just fine. I ate an apple. I chatted with a relative. I went back to bed from 4 P.M. to 8 P.M.. I put another bent tip 25 watt bulb in the far living room right sconce. I washed the breakfast dishes. I put clean linens on the bed. I showered, and I cleaned up. I did two loads of laundry. I threw out the garbage. I installed the latest updates on all of the partitions of all of the computers except the old Toshiba laptop. I tweaked the Windows 7 partitions installing the Microsoft Free Antivirus program. On the Northgate Syntax computer Vista Basic partition, I uninstalled the Computer Associates Internet Security Suite, and I am now just using the Vista firewall with the free Microsoft Antivirus program, which makes the system run faster. I could do the same on the other computers, but for now I will leave the more advanced security software, since they have the resources to handle it. I put two new D batteries in the black rubber flash light, I put both flash lights that were on the left shelf of the night stand at the kitchen entrance on the white book shelf second shelf at the right side of the kitchen entrance. I made and ate the same dinner as the last few nights. CIO

I woke up again at 10 A.M., when Microsoft called from Syracuse, New York about trying to get me to buy Windows 7. I tried to explain my viewpoint. I had to go to the bathroom during the call, and I stumbled against the Jim Dine print on the bedroom door, and I knocked it part way out of its frame, and I later fixed that problem this evening. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I went back to bed until 4 P.M., when I had a fund raising telephone call for MS. I ate a piece of pound cake and the rest of the 9 ounce can of CVS smoked almonds. I washed the breakfast dishes, and I made my bed. I threw out the garbage. I picked up the mail. I ate the same dinner as last night with another piece of pound cake. I showered, and I cleaned up. I threw out the garbage and the old periodical literature. I noticed when coming in, the new tenant on the east end of the building has a primitive sculpture outside his door that sort of looks like a vampire. I watered the plants. Earlier in the day, I started up the Abit computer, and I shut it down in Power Saving mode, and it boots right up in Power Saving mode, which the primary Vista computer does not. However, on the Abit computer in Power Saving shut down mode, one does not get the Boot screen with the option for Windows 7 RC to boot, but it still starts up almost instantly.

I took off the Compaq LCD Flat Panel 18.1 square TFT8030 monitor from the FIC server, where it was the second monitor on the right side of the primary monitor, and the Compaq I never used, so I put it on the CD case on top of the Lazy Susan, and I connected it up the Dell Latitude D410 docking station VGA port. Plug and Play recognized it on both operating systems, and it is setup as a second extended monitor above the Dell D410 Laptop screen. I want to share with you a bulletin received from the DOT regarding construction on I-95.

The Connecticut Department of Transportation has announced that work for the reconstruction of the Indian Field Road Bridge over Interstate 95 in Greenwich is scheduled to enter a new stage of construction which will realign travel lanes.

Traffic will be shifted to the north side of the bridge on Indian Field Road so that work can commence on the south side of the structure. Night time lane closures will continue on I-95 through the month of December in order to complete demolition of the existing structure.

The project is scheduled to be completed by May 27, 2011.

Best regards,

Lile Gibbons

I stopped by the Greenwich Hardware store, and I briefed them on local happenings around town. They offered me a free used toilet seat, but I declined the gift. I told them that there use to be a plumbing supply warehouse in Elmsford, New York just east of Sam's Club where the road turns to the right, and that plumbing supply warehouse carried parts for American Standard plumbing fixtures. I stopped by CVS, and I used the bathroom there. I bought four 12 packs of Thomas' English muffins for \$1.99 each 12 pack for \$7.96 total. I was told by the Ralph Lauren construction crew the new store opens on November 17, 2009. They put in the triangular pattern sidewalk in front of the store. The limestone on the store facade is slightly darker than Indiana Limestone, and it apparently came from China. It looks quite nice. Their Polo Shop just north of Sak's Fifth Avenue is also having a sale. I finished my walk. I went by the Greenwich Library, and I read the www.greenwichtime.com . I then went by the Food Emporium, and I bought a 36 ounce bag of Eight O'clock hazelnut coffee beans for \$14.99 and a 11.5 ounce Entenmann's all butter pound cake for \$2.14 for \$17.13 total. I returned home, and I picked up the mail.

Note: <888> 11/11/09 Wednesday 9:50 P.M.. I woke up at 10 A.M.. There was another false fire alarm in the building. I chatted with neighbors. The building fire alarm went off for quite a while, since the building custodian was not here on Veterans Day. The alarm came from the same apartment as last night. The fire doors no longer close automatically, when the building fire alarm goes off. I just now reported the matter to the Greenwich Housing Authority answering service at their number at 1-203-869-1138. I tried calling them this morning during the false fire alarm, and their number was busy for an hour.

I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes, and I made my bed. I showered, and I cleaned up. I threw out the garbage. I went downtown, and I walked lower Greenwich Avenue and the train station area. I chatted with a few locals. I noticed while driving down Greenwich Avenue, they were putting in the new sidewalk in front of Ralph Lauren. It will be interesting to see what the town of Greenwich approved for a sidewalk. The Apple Ipod store is progressing well. I use the bathroom at the senior and the arts center. I help a local horticulturalist carry her gardening supplies to her car across the street from the Senior and the Arts center. She was on her way to Nathaniel Whitheral nursing home. I mentioned that my friend that passed away recently was also a horticulturalist, and he liked Japanese Dogwoods. His family had one at their house. I noticed some of them in

front of the houses on Round Hill Road recently, so I guess they have become more popular. They have small red leaves in the fall, and they bloom at a different time than regular dogwoods, and they have a different pattern flower.

I went to my 3 P.M. appointment, and I had to pay a dollar to park there. They will check out about my Renter's Rebate. Most everyone I know has received theirs. I plan to use mine to pay off my next two months auto insurance premiums. I read an article about Warren Buffet not giving his children enough money. In the same magazine that I can not remember its name, there is an article about MacHacking a regular cheap PC DOS laptop to make it run like a Mac. I am quite content with the Windows interface. There are two Windows programs that I read about that give Windows an Apple interface, but that would obviously use more resources. I think the article is in Maximum PC in June or July 2009 for the two free downloads. I also signed up to have a Thanksgiving meal delivered to me.

I next returned home. I chatted with neighbors, and I waited outside a while for UPS: Tracking Information on the order for NEW Dell Latitude Inspiron Precision DVD±RW Drive XJ019 - eBay (item 350274739137 end time Dec-04-09 08:50:53 PST) for \$29.99 with free shipping to arrive. I put the Dell DVD/RW drive in the Dell Latitude D410 docking station module, and it fits in just fine. One has to have the eject tab out when inserting it, and then press in the eject tab. I booted Windows 7RC, and plug and play recognized it. In Windows XP Professional it was recognized in device drivers, but there was no icon for it. I reinstalled the XP Dell D410 drivers, and when I rebooted, there was an icon for it. I am not sure it was necessary to reinstall the drivers or not. I installed the Windows XP Updates. I also tested the external DVD/RW drive, and it did not work. I opened up its case. It has a short power cable inside that has tension on it that can come lose from its internal plug on the circuit board, so I resecured it, and it now works just fine.

Earlier I had a telephone message from a friend to look up something, and I left a message to what I found. We also had another false alarm in the building.

I will now eat two hotdogs with buns and mustard and ketchup and 1/4th of a 5.5 ounce tube of CVS potato chips and a glass of watered down punch. CIO

Note: <888> 11/09/09 Monday 10:35 P.M.. I was told today that the new Ralph Lauren Careers - About.RalphLauren.com will be opened on Greenwich Avenue by the end of the month. They are already moving out of the old Polo Shop further up Greenwich Avenue.

Note: <888> 11/08/09 Sunday 11:00 P.M.. I ate an apple.

If you look at <http://maps.google.com/> Greenwich and Byram, Connecticut are due north across Long Island Sound from Lattintown, New York and Oyster Bay, New York out on Long Island, so I guess in warmer weather we probably get a few sailors sailing back and forth between the two points, so that is probably why sometimes our local yacht clubs are busy for unknown reasons. Thus I guess some people instead of driving through all of that traffic in between the two points, probably cruise back and forth by sea.

Of course in the winter, when it might not be too busy on the highway, I happen to have a Jeep dealership across the street from where I live in Byram, Connecticut, but there are a lot more expensive cars for sale in the neighborhood, so the local security people tend to keep an eye on them.

Well not much happening way up here in Greenwich, Lapland, so I guess I will now shut down the primary Vista computer, and I will go to bed soon. If we get hungry this winter, we can always eat raindeer. Mostly sunny today and a high of 51 degrees Fahrenheit. Having lived in the north country most of my life, I am quite use to cold weather, when I can afford to get out. Having lived down south when I was very young, I also know that down south in the United States of America in the winter is not that warm. Have a good morning. CIO

I bid a maximum bid of \$69 on Panasonic Toughbook CF-29 Pentium M 1.4GHz 512Mb 40Gb - eBay (item 300363884317 end time Nov-07-09 12:24:36 PST) and if I won it with \$9.99 shipping it would be \$78.99. However, I probably will be outbid by the auction end at 3 P.M. tomorrow afternoon. I am not sure I want to sit outside and blog in the snow this winter anyway. I went out after the last note. I went by www.mcdonalds.com , and I got \$3 cash for some parking change that I had. I then went by the Chase Bank ATM machine just west of Greenwich Avenue on West Putnam Avenue, and I put in my last remaining cash to cover the bid, in case I win. I then drove down the spectacular busy on Friday night Greenwich Avenue all of the way down to the bottom of Steamboat Road, where a few cars were holding a lonely sentinel on the waterfront. I then went by the Greenwich Library, and I chatted with the reference librarians about the mystery of http://mikelouisscott.com/fred.htm and how possibly some individual could be impersonating him around Europeans that do not know that he passed away over ten years ago. I then returned home. The police were just leaving my building. Apparently a vandal threw some of the books off the book shelves in the community room and knocked the television off the TV stand and knocked over a table. They indicated that they knew whom the individual might be, but they did not tell use whom. I then chatted with a relative. I could afford to bid up to \$79 on the Toughbook, but I figure I might need at least \$10 cash until the end of the month. I am due to get my Renter's Rebate soon too. Note: <888> 11/06/09 Friday 4:45 P.M.. I woke up at 6 A.M. this morning. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted bagel with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I went back to bed until 10 A.M.. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I chatted with neighbors, and I threw out the garbage. I read a back issue of www.time.com magazine. I picked up the mail. I went out, and I went by the Greenwich Housing Authority, and I paid my October and November 2009 rent payments. I then went downtown, and I walked the entire length of Greenwich Avenue and the train station area. I used the bathroom at the senior and the arts center. I stopped by CVS, and I bought four 10 ounce cans of Planter's Deluxe mixed nuts with sea salt for \$2.50 each and four 6.38 ounce tubes of Pringle sour cream and onion potato chips for \$1.50 each for \$20 total. I chatted with a local chauffeur from a White Plains, New York livery service. I chatted with a local banker. I finished my walk, and I chatted with a local maintenance person who told me a well known celebrity bought an apartment in downtown Greenwich, but we will keep that secret for now to keep the paparazzi away. I then returned home. I helped a neighbor bring in two iron chairs from in back, apparently someone has taken the other two iron chairs during the last two nights. The iron table is still in back. I printed out two copies of my October 2009 Microsoft Money 2007 income versus spending report, and if a relative has fixed their fax machine, I will fax it to them. The new building facade on the new Ralph Lauren store is now exposed, and it looks to be quite a classical looking building, but it still has a way to go until construction is completed. CIO

with it with Windows 7. The Belkin card is suppose to have a 1400 foot range and be capable of Wireless N if anyone is running it where ever one might wander. I am now doing another Windows 7 Complete PC backup of both partitions to the Maxtor external hard drive.

I put the Netgear wireless card that was in the Dell D410 in the primary Dell Latitude CS laptop. It was already configured for it.

Note: <888> 11/03/09 Tuesday 7:40 P.M.. I drank a cup of Gourmet Asian green tea with splenda and lemon juice. I put the smaller oak chair in front of the Dell D410, so with the extra space behind it from the white bookcase and the smaller chair, it is easier to sit at the Dell D410. I moved the large green oak chair in front of the Samsung color laser printer. CIO

Note: <888> 11/03/09 Tuesday 7:05 P.M.. I ate a three egg omelet with four slices of processed cheese with grated parmesan and Romano cheese and six strips of bacon and a toasted bagel with olive oil and watered down passion punch. Since the Plumrose bacon is cut thin, I fried two strips together of the six slices for a better texture.

I changed the white bookcase setup. I sorted through the paper work and organized it. I put it on the lower right shelf. I put the Toshiba laptop on the upper right shelf, and one can now sit at it with a chair from the oak dining table, if one were available. I put the Siemens telephone on the top right, and it is only connected to Verizon, and it is not a two line phone like most of the other phones in the apartment. When the front building door buzzer rings on the Verizon phones, one has to press 6 to open the front building door. Most of the phones in the apartment are two line phones with Optimum Voice as the second line. Optimum Voice has free long distance in the United States, Canada, Puerto Rico. Although I use to know a number of Canadians, I guess they think I am living so far down south, I probably have gone native, so I guess they do not try to communicate with me anymore. CIO

Note: <888> 11/03/09 Tuesday 4:45 P.M.. I went out, and I sat out for a while chatting with neighbors. A friend of a neighbor brought over for the neighbor a 4.5 foot by 4 foot by 12 inch deep white bookcase for the neighbor, but the neighbor did not want it, so they gave it to me. I brought it up to my apartment.

I then got the mail. My www.cl-p.com statement arrived. The total new charges on my bill for the period of October 2009 is \$115.46. That is for 24 days in October 2009 for a usage of 584 kWh or 24.33 kWh a day with an average temperature of 50.7 degrees Fahrenheit.

For October 2008, it was \$136.10 for 30 days or 684 kWh or 22.80 kWh a day with an average temperature of 51.9 degrees Fahrenheit.

The rent statement for the last two months from the Greenwich Housing Authority still has not come. It probably will be here tomorrow.

I moved the speaker underneath the Brother all purpose machine into a vertical position, and I put the printer stand back on it, and I put the Brother machine back on it. That made room after I removed the two small tables from the kitchen entrance to put the new white bookcase in that location. I put the oak folding table behind the bedroom door and one of the wooden CD cases. I put the other wooden CD case underneath the folding table to the right of the bedroom desk. I put the mahogany tea table underneath the oak dining table at the Abit computer location. I moved the picture of the Tulleries to underneath the Audubon print behind the bedroom desk. I put the HP Photo printer on the left side top of the new white bookcase. I moved the old Toshiba laptop to the right side top of the white bookcase, and I hooked its power supply to the power strip on the floor to the right of the small computer desk chair to the left of the primary Vista computer. One has to turn on that power strip to use the Toshiba. I leave the power strip off, so the external USB DVD/RW power supply is not running all of the time. I connected the Toshiba laptop the Netgear network switch with a LAN cable. I moved the computer tools to the lower shelf left of the white bookcase. I put the paperwork from the tables on the right side of that shelf. The small kitchen fire extinguisher is on the left side of that shelf, and the two big red fire extinguishers are now at the left side of the kitchen entrance on the floor. Thus I have more room to work with for storage, and it is a neater setup.

Pictures of the white bookcase are here <http://mikelouisscott.com/mls-apt-110309/>

I went outside, and I chatted with neighbors. CIO

Note: <888> 11/03/09 Tuesday 1:40 P.M.. After lunch, I walked around the building. The Joe Chapmen bench appears to be all right. One of the other tenants uprighted it. I chatted with neighbors. I will now shut down the primary Vista computer, and I will go outside and wait for the mail. CIO

Note: <888> 11/03/09 Tuesday 12:50 P.M.. I woke up at 7 A.M. today. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted bagel with olive oil, a 50% to

50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I threw out the garbage. I drove over to the New Lebanon School, and I voted. It was not too busy around 10 A.M.. I toured the new Byram Schubert library. They have internet computers on the upper level for children, and adult access on the main level. The bathrooms are on the lower level. I then drove by the new Greenwich Hospital Thrift shop across the street from the Hamilton Avenue school. I propped open the entrance door, since they were cleaning out the sewer connection inside the shop, and the shop stank of sewer gas. I then drove around Grass Island. The high tide today was about the highest I have ever seen up to about two to three feet from the road around Grass Island. I then drove down by the waterfront on Steamboat Road. I would imagine the tide is even closer to the road at Tod's Point in Old Greenwich. I then went by CVS, and I picked up two prescriptions. I then went by the Chase Bank just west of Greenwich Avenue on West Putnam Avenue. I then returned home. I chatted with a neighbor. Apparently some local vandals broke the Joe Chapman memorial bench in the back yard and turned over the picnic bench. Joe Chapman was our first tenants president, and she was a well known local reporter years ago.

It came with its manual and another manual for the other type of docking station. The Media Base Docking station adds two more USB ports to the three on the Dell D410 laptop for a total of five. It has room for a second battery. The front left side button undocks it, and the second front side button turns on and off the power, and the rear side left latch releases it from the docking station. One can undock it while turned on. I set the D410 laptop CMOS to use the docking station video while docked. It automatically switches to the laptop video while undocked. I could order this for it DELL Slim COMBO DVD DRIVE for LATITUDE & INSPIRON Dnnn - eBay (item 330243096033 end time Dec-01-09 09:00:07 PST) which is new, but I already have the external USB DVD/RW drive, so it is not really necessary. Note: <888> 11/01/09 Sunday 7:55 P.M.. When my family joined the Greenwich Country Club GreenwichCC back in 1961 until about 1978, we had a corporate membership which the companies my father worked for paid for. As I recall, the membership back in 1961 cost about \$5,000, and the dues were about \$250 a month. Thus there use to be a lot of corporate entertaining at the various clubs around here. Of course in the colder periods around here the club is not used too much except the occasional Sunday buffet which not many people ever attended, since back then a lot of people in Greenwich seemed to have private cooks. I mostly played golf there in the summers, since my family did not have a summer house elsewhere. I recall one assistant golf pro Art that looked a bit like Dwight David Eisenhower, and as I recall the head gold pro was Roy Bronson a former Canadian hockey player, and he later went to work for the Hyanisport Golf Club. As I recall the

trophy plaques in the men's grill have all of the names of the Robber Baron families, but for some reason after the stock market crash of 1929 none of those family names appeared anymore. Either they worked harder or went elsewhere or joined other clubs. One distant member of one famous American family in the railroad business managed to hang on despite the economics problems and wars, but from what I remember, it was mostly women and children out there in the summers, and on weekends the men that had time would use the facility. There were a lot of elderly retired women that would paint oil paintings on the porch veranda. Since the new club house is about 50 years old, I suppose a new generation have gotten use to its facilities, but from what I know so many people from the Greenwich, Connecticut are now spending so much time in Vero Beach, Florida at the John's Island Club John's Island Club, there now just seems to be a few younger families mostly using the northern facility, while a lot more people are down south enjoying the year round warmer weather. Since I have not regularly play golf there since 1968, when I pretty much gave up the sport for work, I am not that familiar with the rules and etiquette of golf anymore. I attended college in Illinois www.lfc.edu were it is really too cold to play golf in the spring and fall. I mostly worked all of the time. Although I have been in other golf course areas as a professional observer, I have not paid much attention to golf, since on my budget it is far too expensive of a hobby that I can not afford anymore. The tax break on corporate memberships was eliminated for Country Clubs back in 1976, so a lot of people did other things like spend more time around their homes or invest in second homes or travel. Note: <888> 11/01/09 Sunday 4:35 P.M.. I went out after the last note. I stopped by CVS on Greenwich Avenue, and I picked up a prescription, and I used their bathroom. I walked the entire length of Greenwich Avenue and the train station area. I chatted with the fellow collecting the money for Charity for the Junior League Food Pantry for Neighbor to Neighbor at Christ Church, and they looked to be raising quite a bit of money, but it did not look like much of the John Lennon art was selling, but of course I only observed the activity for a brief period. I stopped by the Greenwich Cigar store, and I bought a Amazing 8's scratch card for a dollar, but I did not win anything. I used the bathroom again at CVS on way up Greenwich Avenue. I also stopped by the Greenwich Hardware store. The new Greenwich Hardware store on West Putnam Avenue across the street from the Mercedes Benz dealership appears to be open. They seem to be a larger store than the Greenwich Avenue store with more hardware. I sat out for a while after my walk. I then went by the Greenwich Library, and I read PC World magazine. I chatted with two regulars. They were just starting an advent in the auditorium for "Covenant of Care" which is to benefit military families in this area.

I slept until 7 A.M.. I got up, and I got dressed warmly, and I went out without making my bed. I went to the Shell station on East Putnam Avenue and Sherwood Place, and I got my emissions tested at 8 A.M., when they opened, and I paid the fee, and the Audi passed the Connecticut emissions test. I then went by the Chase Bank on West Putnam Avenue just west of Greenwich Avenue, when they opened at 8:30 A.M.. It started snowing when I arrived there. I then went by the Greenwich Automotive Services Gulf station, and I bought \$21 of self service premium gasoline at \$3.319 a gallon for 6.326 gallons for 75.9 miles driving since December 10, 2009 at odometer reading of 65329 miles for 11.998 miles per gallon driving in mostly local traffic. I then returned home driving very slowly in about three inches of snow with snow falling. There were a lot of cars skidding and there was traffic backed up heading east on the hill opposite the A&P with

the cars skidding. It was the first time, since I have owned the Audi in two years that I have driven it on snow, and it seemed to handle well enough on snow, but of course you have to watch out for the other guy. I printed out my December 2009 Microsoft Money 2007 income versus spending report. I will fax it to an interested relative shortly. CIO

I will still have to be able to afford to buy the \$30 cans of Bugler or Tops cigarette tobacco at CVS, and one can only does a carton, so I will be smoking less until I quit. I will check around in Port Chester, New York to see if cigarettes tobacco is cheaper, but at CVS in Rye Brook, it is actually more expensive than Connecticut. However, I do plan to try quitting smoking hopefully some time sooner or later. However, I do not want to go cold turkey, but at my own pace.

Also the 21 mg. CVS nicotine transdermal patches are \$10 off a box of 14 patches this week for \$29.99 plus tax.

This time of the year as usual at the Holiday time with a lot of people out of school and out of work, the internet seems to have slowed down quite a bit particularly from the west coast of the United States of America when logging on from the east coast of the United States of America.

Since I use Outlook 2007 for my email program, when my email arrives, it tries to download the graphics from the remote servers, and because of the slowness of the internet the email program is very slow to respond and can even freeze.

One can prevent Graphics from downloading in the Outlook 2007 email program by selecting from the Menu bar, Help, Privacy Options, Automatic Download, and then check "Don't download pictures automatically in HTML email messages or RSS items". This can save one a lot of time when going through, one's email with Outlook 2007. If one wants to view the graphics, one can select from the email bar to download the graphics.

For example the web site <http://news.bbc.co.uk/> is not evening working here at this hour of the morning or is extremely slow to load.

I will now shut down the primary Vista computer, and I will go to bed soon.

I threw out the garbage, and I picked up the mail. I washed the breakfast dishes, and I made my bed. I showered, and I cleaned up. I went out, and I chatted with a neighbor. The Audi would not start the first time like it normally does. I waited about 10 minutes, it almost started. The battery was strong though. I went upstairs, and I got my Slaymaker Jump Start System in case I needed it. It did not start the third time, and I waited another 10 minutes to let the gasoline vaporize. It started right up the fourth time. It was 28 degrees Fahrenheit outside, but the Audi had not been started since Christmas Day. I took the Audi for a drive to charge it up more. I drove over by Exit 2 in Byram, but the Connecticut turnpike was real slow east bound, so I drove along the waterfront area of Greenwich including Steamboat Road as far as Staples in Old Greenwich. I then tour the store which was not very busy. I used the bathroom there. I then drove back to downtown Greenwich on I-95 west bound to Exit 3 for downtown Greenwich, Connecticut. I drove by the Shell station on East Putnam Avenue and Sherwood Place, and they test emissions from 8 A.M. to 5 P.M., so one of these days I have to get it done for \$20 cash. I then went downtown, and I used the bathroom at Starbucks.

I then went by Zen stationary. I walked lower Greenwich Avenue and the train station area. I then sat out, and I smoked my pipe. I used the bathroom at Starbucks. The senior and the arts center was closed. I then stopped by CVS. I bought for 50% off three boxes of 18 Hallmark Christmas Cards all with the same picture of a Village Green in snow with sparkles for \$7.49 each box and \$1.35 tax for \$23.92 total. That is enough cards for the next two Christmases. I then walked upper Greenwich Avenue. I stopped back by CVS to use the bathroom. I then sat out after I finished my walk, and I smoked my pipe again. I then used the bathroom at Starbucks again. I then went by the Stop and Shop, and I bought Chiquita bananas for .69 a pound for \$1.70, a 20 ounce half of a day old blueberry cream cake for \$2.50, a half gallon of Minute Maid premium orange juice for \$2, and a three pound bag of baby red potatoes for \$2.50 for \$8.70 total.

So far this years with my Stop and Shop card, I have saved \$619.40. With my CVS card, I have saved \$745.09 for a total of \$1,364.40 savings with the two cards this year. On my limited income and budget that is a lot of savings. Of course, you have to buy the sale items that go on the cards.

I then returned home. I chatted with a relative. I put away my groceries. I will now eat the same dinner as last night. I have a 1 P.M. appointment tomorrow, so I will have to be up at 10 A.M., which means I should go to bed earlier this morning. CIO

The neighbor does not like Frank Sinatra because he did not wave to him from his boat, when the neighbor's boat passed them on the waterfront. I then went downtown, and I walked lower Greenwich Avenue. I took a picture for four people in front of the closed Figaro restaurant with their Kodak throw away camera. I chatted in French with an interracial family from Haiti. They wished me "Joyeux Noel". Starbucks closed at 4 P.M.. I played a Stocking Stuffer scratch card for a dollar at Zen stationary, and I did not win. I drove down to the Greenwich Train station which was opened, and I used the bathroom. I gave one of its regulars three cigarettes. I noticed on Arch street at McArdele McMillan, the four reindeer have gone back to the North Pole. I then returned back to the center up of town, and I walked up Greenwich Avenue. CVS was opened until 8 P.M.. I chatted with the Round Hill fire department there about the price of tea in China. On upper Greenwich Avenue, I chatted with a Russian family about Lake Forest, Illinois, where some of the Czar's family live in exile. I noticed on the way down Greenwich Avenue, we have a Christmas miracle, and the Baby Jesus has been returned to the Nativity scene. I finished my walk. I then drove back by the Greenwich Train station, and I used the bathroom. I then drove down by the waterfront on Steamboat Road, and the restaurant at the Delemar Hotel was busy with a full parking lot. I was told they do not have a liquor license and can only serve wine. I found a pair of small black suede women's gloves on the ground by the pier on Steamboat Road. I retrieved them. The Indian Harbor Yacht Club was not opened. I then returned home. I ate one of the Christmas cookies. I chatted with a friend. CIO

If you need to catch up on some of her previous broadcasts, they are posted here The Queen's First Christmas Broadcast 1952 . Of course a lot of tall people never recognize her, since she is only 5 foot 3 inches tall, and Prince Charles and Prince Phillip are only 5 foot 10 inches tall. I guess it comes from being related to Queen Victoria Victoria of the United Kingdom - Wikipedia, the free encyclopedia who was 4 foot 7 inches tall.

Unusual sightings on Greenwich Avenue in the last two days, I saw an African that was about 600 pounds and 6 feet tall, and yesterday, I saw a white teenage boy who was about 6 foot 8 inches tall, so there are bigger people around. Of course having traveled the world, the biggest women I ever saw worked at coffee shops for truckers in Iowa. The biggest men that I ever saw were up in Canada. I am told that the Dutch have some of the biggest people in the world, but when I was in Amsterdam for four days before the Albertville Olympics in 1992, I saw a lot of teenagers that were bigger than I am at 6 foot tall and 220 pounds, so I would imagine their parents are quite large. Note: <888> 12/24/09 Thursday 11:55 P.M.. I worked the grapevine. It seems to be mostly inside office types that do not worry too much about the potential weather outside, until they think about traveling. I can not remember, when the volcano erupted next to Clark Air Force base in the Philippines about 18 years ago, whether we got the 2.5 foot snow fall the same winter or the following winter. That same heavy snowfall winter, we also had about eight snow falls over six inches. Needless to say, when you get more than two feet of snow, you can not move around usually in four wheel drive vehicles, since the roads are frequently obstructed with collapsed trees and power lines. I do recall, people use to use snow mobiles on the Post Road in Greenwich in that period. The only snow mobile shop I know of in this area is near the www.forbes.com farm in Far Hills, New Jersey, but that was back in December 1973, when I think I was there after visiting George Cary's grandfather's farm in Gladstone, New Jersey, and in that blizzard after repairing my Volvo fan belt at the snow mobile shop in Far Hills, New Jersey, we made it to <http://mikelouisscott.com/fred.htm>'s party on upper Park Avenue in Manhattan at his girl friend Sonja Van Voorhees family's apartment. George Cary, Fred Von Mierers, Jim Eldert, and Bob Griffin, and myself were all at that party, and I recall afterwards, a few of us went over to a party at my sister's and brother-in-law's apartment on East 89th street. Thus I also know the Yorkville area of Manhattan also. Alfred Eisenstat use to be out after midnight doing things like standing in the middle of 86th street and 2nd Avenue taking pictures with a 4 by 5 inch Graphlix camera on a tripod. CIO

Note: <888> 12/24/09 Thursday 10:05 P.M.. I ate a three egg omelet with three slices of processed cheese with grated parmesan and Romano cheese and five strips of bacon and a toasted English muffin with butter and watered down passion punch and green tea. I cleaned the Ionic Pro air purifier. I put it on a Time Life book on cooking underneath it, so it is more stable sitting on top of the Dell D410 woofer speaker.

I noticed when I was at the Stop and Shop today, the National Inquirer or some other magazine at the checkout counter said that Queen Elizabeth II was fatally ill, and she had made Prince William king. However, there is nothing here Welcome to the official website of the British Monarchy , so somebody in England should probably use a lawyer to settle any legal problems that might arrive from such misinformation. Note: <888> 12/24/09 Thursday 8:25 P.M.. I woke up at 1 P.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I picked up my mail. I got my \$20 Christmas voucher for the Stop and Shop. I went out, and I threw out the garbage. I went by the Stop and Shop. I bought Land-O-Lakes white slices of American cheese for \$4.99 a pound for \$4.89, slices of Virginia ham for \$5.99 a pound for \$8.95, a package of six wheat Kaiser rolls for \$3.49, a 30 ounce jar of Hellmann's mayonnaise with olive oil for \$4.39, and a two pound bag of baby carrots for \$2.50 for \$24.22 total. I then went downtown. The Senior and the Arts center was closed today. I walked the entire length of Greenwich Avenue and the train station area. I gave a regular at the train station 6 cigarettes. He told me the train station is suppose to be opened tomorrow. I used the bathroom at Starbucks, and I was told they will also be opened tomorrow morning. I browsed CVS, but I did not need to buy anything. Somebody that looked Andrew Carnegie said hello to me while I was sitting across the street from the new AT&T store having a cigarette. I also told the door keeper at the Apple Ipod store, they should try to save energy in their store, instead of heating the great outdoors. A lot of the other shops on Greenwich Avenue have very nice Christmas window displays. They still have not returned the baby Jesus that was stolen from the nativity display in front of St. Mary's last year. The tree on the north side of the veterans monument is now lighted up. After my regular walk on Greenwich Avenue, I returned home. I chatted with a relative. The relative got my gift of music CDs. The building fire alarm went off for my next door neighbor who cooked a smokey hamburger. I called 911 to tell them it was not an emergency. They dispatched a fire truck to check it out anyway. I saw the firemen in and watched them leave. I chatted with another neighbor. I showed the neighbor with the smokey apartment, my new computer setup. I chatted with him about the price of tea in China. I chatted with a relative and a friend of the relative from Oklahoma. CIO

Note: <888> 12/24/09 Thursday 5:15 A.M.. Eric told me he lived in a very simple house in Ridgefield, Connecticut; since the people in Greenwich, Connecticut were too snobby. He told me his house in Ridgefield, Connecticut had the most tulips planted around it. The last time I went to Ridgefield, Connecticut was about four years ago in April, when gasoline was close to \$5 a gallon, and I had to charge up my car battery after a long winter of not driving too much. I stopped by the Ridgefield Hardware store, and I bought a balsa wood toy plane for about \$1.59, and I still have it; so that is the extent of my private air force as far as I know. Usually when I am in Ridgefield, Connecticut, I stop by the Ridgefield Library to see what is going on. When I first got out of www.lfc.edu , and I returned to America from Europe, and my family moved back to Greenwich, Connecticut for the third time in June 1973, I was hitchhiking up North Street to the Bum Steer bar to see what the back country youth were doing. I got a ride with somebody from Ridgefield, Connecticut who had been sailing on Tom Watson's sail boat at the Indian Harbor Yacht Club, and instead of dropping me off at the Bum Steer restaurant, he took me up to Fox Hollow or some apartment complex like that in Ridgefield, Connecticut. I was later told by a friend the place is sinking the mud, since it was poorly developed. Also when we had the Saint Bernard dog at Cornelia Drive, we gave it away to a family in Ridgefield, Connecticut that had three young sons. What is strange is that having been around the IBM sailing team all of these years, I still do not know how to sail. CIO

Note: <888> 12/24/09 Thursday 4:45 A.M.. It just so happens, when I was networking with the people up in Danbury, Connecticut whom were making the mirror for the Hubble telescope about 20 years ago, I happened to meet Eric from Enschede **Enschede - Welcome to Enschede** in the Netherlands. He explained to me, he was the copilot on a www.klm.com Boeing 747, when it had all four engines malfunction and stop on a trip from the United States to Japan over Alaska, when it flew over a volcano or near a volcano that had recently erupted. He and the pilot were after a time able to restart the jet, and continue on to a local airport, since the jet suffered a lot of damage. Eric told me he was Queen Beatrice's **The Dutch Royal House** nephew, and his family had lived in the same house in Enschede since the 14th century. He explained his primary job for KLM or Royal Dutch Airlines was flying around the world twice a week delivering flowers out of **Schiphol** -

Reizigers which is the world's largest building housing the world's busiest flower market. They can pick up and deliver anything in the world in two days in terms of flower products or similar products. CIO

Note: <888> 12/24/09 Thursday 4:00 A.M.. I chatted with a few hotels. Not much seems to be happening. Worst case scenario is that if the volcano in the Philippines erupts with a major eruption like happened with the other volcano in the Philippines about 18 years ago, we could end up with a two to three foot snow fall here in Greenwich, Connecticut and a lot of smaller snow falls like happened back 18 years ago. Of course back then there was more money in Greenwich, Connecticut to deal with the problem. I am not sure that is still the case, since a lot of the people I chat with seem to be from warmer areas, and are basically inside people oblivious to the weather outside whether it is cold or hot. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I listened to Christmas music while doing that. I picked up my mail. I said hello to neighbors. I threw out the garbage. I put the nuts in the car. I then went back in CVS, and I bought five 10 ounce cans of CVS deluxe mixed nuts for \$3.50 each less a \$5 off \$15 CVS bonus bucks coupon for \$12.50 total. While at CVS, I chatted with someone from Casa Novia,

New York, and from Austria and someone with a customer with an L.L. Bean Maine Guide Jacket that I had seen before. I also chatted with the British fellow at Ritz camera across the street. I then drove further down Greenwich Avenue to my usual parking area. The Senior and the Arts center was closed. I cleaned off the snow from the benches in front of the senior and the arts center and also from the benches in front of the post office and also the benches across the street from the senior and the arts center at the veterans monument. I also cleaned off the snow from the wreath at the veterans monument, and I propped it up properly at the base of the flag pole. I then walked lower Greenwich Avenue and the train station area. The new Peoples Bank is now opened at the bottom of Greenwich Avenue on the west side of the street. They still have not moved the temporary Williams trailer away yet. On the way back up Greenwich Avenue, I stopped by CVS again, and I toured the store, and I used the bathroom. I noticed in their electronics section, they have a Plantronics Bluetooth wireless ear piece for \$39.99 that might work with the Ciraco wireless Bluetooth device on a laptop computer. After I finished my walk, I noticed the power is still off on the light on the tree on the north side of the veterans monument. It appears, there is a timer on the base of the lamp, when the power line is connected, and obviously the timer is not working properly. The timer is in a sealed box. The electrical outlet that it is connected to does not have any power. I checked to see if there was a trip switch on it to reset it, but the electrical outlet seemed to be a bit rusty. After I finished my walk, I drove down by the waterfront on Steamboat Road. Long Island is lighted up like it always is on a clear night with the Robber Barons on the North Shore of Long Island enjoying their booty. The Benedict house was all lighted up too. I then went by the Greenwich Library, and I chatted with the staff, there were no patrons there. I used the bathroom there. I then went by the Stop and Shop, and I bought two 8 packs of Stop and Shop hot dog buns for \$1.50 each 8 pack, fresh Chiquita bananas for .69 a pound for \$1.59, and a 2.3 pound top round eye round roast of beef for \$2.99 a pound for \$6.07 for \$10.66 total. I then returned home. I was not able to get my usual parking place. During the holidays, we always have guests changing the regular parking arrangement around. I chatted with a relative. I will now reheat and eat the same dinner as last night. I received from UPS, the National Geographic DNA test kit that a relative bought me for Christmas. Not much seems to be on television anymore, but since I pay \$87 a month for digital www.cablevision.com television, I occasionally look at it to see if there is anything worth watching, which is usually not the case. I pretended like I was on the Exxon Mobil

company airplane, and I ate half of a 11.5 ounce can of Planter's mixed nuts. Greenwich, Connecticut is suppose to be an Exxon Company town, because the Rockefellers have lived here for a long time, but from what I know which is not much, they like their privacy, so they might have moved to one of those more private suburban communities without all of the tourists and day trippers.

I forgot to mention that the new Greenwich Hardware store on West Putnam Avenue next to www.mcdonalds.com has some Christmas trees for sale on the side of their building. I have yet to explore the new hardware store which also has a Taylor Rental location.

The local Greenwich Time www.greenwichtime.com newspaper does not tell the local citizens much anymore, since they were bought out by the Hearst Newspaper chain which is not profitable with the internet activity taking away its business. The Greenwich Time was forced to sell its downtown office, and the moved away from downtown Greenwich to remote location on East Putnam Avenue near the border of Stamford. They supposedly write most of their content in other offices in Stamford and Bridgeport, so they are not really a local newspaper anymore. Back in the old days when they were downtown, one could knock on the back door at night, and chat with some of the staff members working all night on the morning edition.

Basically with a number of the local New York City networks having personnel in town along with the www.time.com people and other foreign press, we tend to be overly saturated with media people for a relatively small town.

There are so many new publications, that I am not familiar with, it would seem to me that everyone seems to want to express their own viewpoints, as it relates to their own local environments.

I think the www.cablevision.com in this area comes from Norwalk, Connecticut; so we are probably watching on Cablevision what is popular in the Norwalk, Connecticut area.

Since a lot of people in the Fairfield County area have advanced educations, they read a lot, and thus to people whom do not read too much, we seem like the "Dead Zone", without too much going on.

Frankly I enjoy reading, but I have not had time to read the last two to three months of periodical literature that I have received, since I have been busy on other activities. In my education I was taught "Publish or Perish".

For all I know, with the major recession and depression going on worldwide, there is not really too much to report on, and most people are simply spending more time living quietly at their homes, until the economy improves sooner or later. It is my viewpoint, it could be a long time even over 10 years before the economy improves, so we have to get use to it. Having lived through the 1970s and early 1980s, I remember what it was like then, and from my viewpoint I have already downsized and simplified my lifestyle, so there is not much need to change it too much anyway. Thus the Brother MFC-8840D all purpose machine is easy to access for copying and faxing. I put the leather liquor case back on the top shelf in the left living room closet. I also took the second power strip with the shorter cord off the floor, and I connected it the primary Dell D410, and I moved the power strip with the longer cord from there to the second Dell D410. With the longer cord, I was able to place it on the table top behind the laptop, so it is easier to turn on the power to it, and the monitor, and external DVD drive, and the same power strip is also connected to the Toshiba laptop in the bookcase to the left. Also on the right side of the base of the Eizo LCD monitor there is a switch to turn it on and off. On the primary Vista computer, I also moved the two LCD monitors further to the right. Note: <888> 12/22/09 Tuesday 4:10 A.M.. The XP Professional ASR backups of the two Dell Latitude D410 laptops were taking two hours apiece instead of a half hour, because I was backing them up the LAN F: drive instead of the Samba external E: drive. I am now backing them up to the Samba external E: drive which should take less than an hour. I will leave the copies on the backups on the LAN F: drive, since I have plenty of room on it. I had to restore the backup on the Abit computer, since it would not start properly. I am just finishing up installing the Logitech web cam on both partitions. I will then back up the changes to the second internal hard drive.

On the second Dell Latitude D410 laptop computer, I took out the Staples heavy cardboard CD box that was supporting the Eizo LCD monitor which is heavy, and I put in a leather covered wooden liquor box that is more sturdy.

However to use the Brother machine behind it, one has to move the Dell D410 laptop and its docking station from the table to the chair, and put the Eizo monitor on the table. However, I only use the Brother machine occasionally for copying and faxing, so that should not be too much of a problem.

I transferred ownership on the second Dell D410 laptop to myself. I also printed out four copies of the information on the bottom of both Dell D410 laptops. CIO

Note: <888> 12/21/09 Monday 9:45 P.M.. I have the second Dell Latitude D410 laptop computer configured. Since it is almost identical to first one with both having 80 GB hard drives, I just restored my Windows 7RC backup of the first one to the second one. I was able to activate both partitions without any problem. It has a separate Windows XP Professional COA than the first one. The second one is slightly newer, in that it has the built in Intel wireless card which I installed the drivers for on both partitions. I took the Staples CD box, and I put it on the table behind it, and I moved the second LCD monitor or Eizo LCD monitor from the FIC server, and I put it on top of the CD box in front of the Brother MFC-8840D all purpose machine, and thus the second Dell D410 laptop also has a second monitor to use when in the docking station. The CVS Logitech web cam caused a conflict with the Audio with it in Windows 7RC, so I put on the Creative Webcam Instant that works just fine in both partitions, and I have it sitting on the CD box in front of the Eizo LCD monitor. I am doing a Windows 7RC Complete PC backup of both partitions to the Samba external hard drive. I will then do a Windows XP Professional ASR backup to the Samba external hard drive. I will post some pictures after I eat.

I put the CVS Logitech web cam on the Abit computer, but I still have to configure it.

I then walked upper Greenwich Avenue with another regular walker and east on East Putnam Avenue as far as Christ Church, and then we walked back west on Putnam Avenue, to Garlick and Herbs at the old bowling alley shopping plaza, and we sat outside enjoying the sun, while the other walker had coffee. I do not drink beverages, when I am downtown, since I would have to go to the bathroom, and there are not always bathrooms available. Note: <888> 12/17/09 Thursday 6:35 P.M.. From my perspective over 48 years living in Greenwich, Connecticut not much really ever happens except grocery shopping, maintenance, and a few other leisure activities like reading. However, when ever one leaves this town, it can get very expensive and busy with lots of people. Anyone that one seems to socialize with seems to always want money or volunteer unpaid work from one, so it is better to remain private here and to go about one's own private business.

It seems like everyone is always waiting for someone downtown that they saw on television, and if they suffer from that problem, they should quit paying for television, and learn a skill that will help them to learn a living. A lot of people around the downtown area seem to have lawyers hoping to make some sort of profit off the wealthier back country individuals, whom they think watch television all of the time. Most back country people read a lot, and they watch very little if any television, so they tend not to be star struck, when they go out in the general public. A lot of individuals from neighboring communities seem to be making money off the downtown area in Greenwich, Connecticut, but they do not always have the same view point or ethics that some of the better educated individuals might have in the various back country areas. For general conversation, most of the back country people in their leisure time chat about gardening, and other household activities. Some of the Old Guard couples spend a lot of their free time playing the card game bridge.

Most of them are not too interested in politics, since that tends to be a low paying job that would not permit one to live in the back country area. A lot of the urban residents whom

travel a lot on business prefer the downtown area for its many conveniences. As far as I can tell very few people pay any attention to the many out of town visitors whom have shown up over the years, since they do not know them.

Just because some group advertises the town of Greenwich, Connecticut a lot; does not mean they actually have any business connections with the town. I know a lot of individuals have mail boxes at the post office, and whether they actually have residence here in town is opened to debate.

Every day items tend to be more expensive to purchase here, and of course residents of private property all have to pay taxes. A great many individuals here work in neighboring towns and Manhattan, so some of them would have some sort of professional expertise, which may or may not be relevant to the town here locally.

Being a corporate community, a majority of the residents move every five years, so frequently people that one might think live here, do not actually live here anymore.

Also since it is an older community, a lot of the elderly citizens tend to retire to the retirement communities down south, where it is warmer and life might possibly be cheaper.

I sautéed a 7 ounce Jones ham steak in butter and olive oil for a few minutes a side over medium high electric burner heat seasoning it with garlic powder, ground black pepper, and Italian seasoning. I served it with Dijon mustard on it. I ate it with my usual steamed vegetable mixture with olive oil and watered down punch. CIO

My 3 P.M. appointment today was cancelled. I woke up at 1:30 P.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50%

mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes, and I made my bed.

Because of this [Smoking Mad | Connecticut Cigarette Tax Increases Today](#) , about a thousand Connecticut residents are having internet cigarette tax bill problems [Connecticut Going After Online Cigarette Buyers | Internet | Financial Articles & Investing News | TheStreet.com](#) including myself. I was given tax amnesty, since I am legally disabled with minimal resources to pay any back taxes, but I can no longer make any tobacco internet purchases, and it will be on my tax record for 7 years.

I called around, a 12 ounce can of Captain Black pipe tobacco at CVS at the Riverside Shopping center is \$43 plus sales tax, and 6 ounce can of Bugler and Tops cigarettes tobacco are about \$30 to \$32 plus sales tax. The prices are the same nearby in New York State.

However, there is no Connecticut tax to order a Top Cigarette Injector Machine for \$4.99 from here [Other Smoking Tobacco \(Page 2 of 2\) | OrderSmokesDirect.com - Your online source for discount tobacco](#) and one would need the ZigZag 200 package Cigarette tubes for \$4.49, and the second option one is light kings. Thus say if one order two injector machines for \$4.99 and six boxes of light king cigarette tubes, the price would be \$36.92 and \$19.95 shipping or \$56.87, and since say at CVS six 6 ounce cans of Tops or Bugler Cigarette tobacco would be about \$35 a can with tax or \$210 plus \$56.87 or round up to \$57 for \$267 subtotal divided by six cartons worth would be \$44.50 a carton or about half the Connecticut price of cigarettes. Of course, one would still have to use the machine to make one's own cigarettes which would be time consuming. Also a carton of King Mountain Ultra Lights 100s weighs 11 ounces, so with Zigzag king size filter light papers allowing for paper, filter and packaging weight, a 6 ounce can of Bugler or Top cigarette tobacco from CVS might be enough tobacco for a carton. Thus it would be half the price. Of course, if one were still smoking one could pay the Connecticut price for cigarettes and cut back their smoking in half.

I hope to quit smoking tobacco sometime soon, but I have to allow for usage during the quitting process.

I showered, and I cleaned up. I threw out the garbage. I went downtown, and I went by the Chase Bank on West Putnam Avenue just west of Greenwich Avenue. I then downtown, and I walked the entire length of Greenwich Avenue and the train station area. The tree on the north side of the veterans monument across from the senior and the arts center has holiday lights installed, but for some reason, nobody has turned them on. I stopped by Zyn's stationary, and I bought three 1.5 boxes of Sir Walter Raleigh pipe tobacco for \$4.39 a box plus .79 sale tax for \$13.96 total. Thus I should have some spare pipe tobacco, if I need to smoke my pipes. I stopped by the Greenwich Cigar store, and it is a \$1 more there, but it comes in a pouch instead of a box for the same weight. During my walk, I also stopped by CVS, and I bought two 9 ounce cans of Planters digestive healthy mixed nuts for \$3.50 a can, and a 2.5 ounce garlic powder for .88 and a 1.09 ounce Italian spices for .88 for \$8.76 total. I saw a retired night person still moving around. I finished

my walk. I used the bathroom twice during and after my walk at the Senior and the Arts center. I next stopped by the Greenwich Library, and I chatted with a local lawyer about the price of tea in China and the custodian. The reference librarian told me Greenwich Public schools are out starting December 24, 2009 until they return January 4, 2010. I next returned home, and I picked up my mail. CIO

Note: <888> 12/15/09 Tuesday 3:30 A.M.. I looked some more for the Sir Walter Raleigh pipe tobacco. The last time I recall seeing it, I recall I had put the two packages in front of the microwave popcorn in the kitchen bookcase on the top left side shelf. Possibly it disappeared out of my apartment sometime while I was away this summer. I could have possibly smoked it, but I had several years of dust on my pipes, so I do not think I smoked it. I search my notes, and I found here <http://mikelouisscott.com/mlsnote1.pdf> that I bought two package of Sir Walter Raleigh pipe tobacco at Zyn's stationary on Greenwich Avenue on June 1, 2001 for \$2.49 each and .30 tax for \$5.28 total, so I might have smoked it between then and now, and if not, it would probably be stale anyway. I had a theory that since it had tiger colors of orange and black, it came from India with Tiger scent on it to keep away Mountain Lions and Cougars in America, but that was just a theory.

I am a bit tired, so I will now shut down the primary Vista computer, and I will go to bed soon. I have a 3 P.M. appointment today. Today is suppose to be cloudy with a high of 50 degrees Fahrenheit and a low of 28 degrees Fahrenheit. CIO

I refilled the Glade Plug-in refill in the kitchen with a mixture of 40% English leather cologne and 60% isopropyl alcohol. One my two little perfume funnels has disappeared. CIO

Note: <888> 12/14/09 Monday 11:10 P.M.. I looked some more for the two packages of Sir Walter Raleigh pipe tobacco, but I could not find it. I used to keep it around especially since it was sealed for emergencies, so I doubt it I smoked it. I can not figure out what happened to it, but it was at least three to five years old. Possibly Walter Cronkite snuck into my office and barrowed it. It is also well known detectives and CIA people smoke pipes, so maybe some of those snoopy people snuck into my apartment and barrowed it.

I have not noticed many things disappearing over the years. I once had a brass Arabic oil lamp like Aladdin's lamp that disappeared. I also once had a paper Mache piggy bank like they use to use to advertise www.chase.com on the internet and that once disappeared, but I might have given that to Scott Nelson since he was hard up working for the Chart House in Irvington, New York and doing catering for the Rockefellers over in north Tarrytown, New York. I thought he might have been one of those secret Rockefellers that use other names, since he had Nelson's look. However, he did not smoke a pipe, but I recall he smoked other products. He lived over the bakery in Irvington, New York which was very warm in the winter. He also was from Minnesota, so he was use to cold weather. He did not drive a car though. I think he moved back into Manhattan to go to Columbia University to become a dentist. I lost track of him, when I got into personal computers 20 years ago. The last time I saw him, he was with a very tall Hispanic fellow from Latin America that worked ConEd at the usual watering hole in White Plains, New York. I might have seen him since at one of the two pubs behind the Natural History Museum in Manhattan where a variety of people go next to Pizza Uno or Duo. As I recall, he spoke German, and he spent a lot of time going to Washington D.C.. He had also lived in Key West, Florida and Nantucket. I think I first met him when I first came off of Nantucket in December 1983 at the same pubs in Manhattan, and he was staying at a Swiss Hotel just west of the Waldorf Astoria. Thus he might still be in the area. Having done catering at North Tarrytown, New York for the Rockefellers, he might know what they really look like. I think they have so much money, they tend to be fat, and do not go out in public very much of the time. Scott Nelson's family own a gourmet meat company in Minnesota. CIO

Note: <888> 12/14/09 Monday 10:15 P.M.. I got the \$15 rebate check on the new Bosch windshield wipers today. CIO

Note: <888> 12/14/09 Monday 10:10 P.M.. Somewhere in the apartment, I have two packages of unopened Sir Walter Raleigh pipe tobacco that I can not seem to find. I looked everywhere that I could think of.

This morning I also installed all of the updates on all of the computers. CIO

Note: <888> 12/14/09 Monday 9:40 P.M.. I woke up at 4 A.M. this morning. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes, and I made my bed. I made a number of routine telephone calls today trying to figure out some things. I also surfed the internet a bit. At noon, I ate the reheated linguine and tomato meat sauce mixture with grated Parmesan and Romano cheese and watered down punch. I took a nap after that until 3 P.M.. I made some more routine telephone calls. In the future I am going to have to smoke my pipes with pipe tobacco once I run out of cigarettes, because they are getting too expensive. Apparently besides cigarettes; pipe tobacco, cigars, cigar cigarettes, and rolling tobacco are now highly taxed. I dusted off my four pipes and other tobacco implements, and I now have them ready to use. I went outside, and I chatted with neighbors. I picked up the mail. I chatted with Mohegan Sun | Entertainment - Mohegan Sun's World-Class Concerts and Entertainment , and they do not sell tax free cigarettes. However, they told me if you are part American Indian and can prove it, they can help you out with a job. I chatted with two relatives and a friend. A female relative is going to pay for me to take a DNA test, so they can get my Y chromosome information, which only male relatives have, so they can figure out what part of the world one is from. The Tobacconist of Greenwich has pipe tobacco for about \$4 an ounce. I currently have a ounce of their Round Hill blend, which I think they now call Back Country, and I have an ounce of Grand Marnier. I think I bought it this summer, when I had extra money, and I paid about \$8.50 for the two ounces. I guess the American Indians now call the current president, the skinny black father. CIO

Note: <888> 12/13/09 Sunday 8:15 P.M.. I chatted with two relatives. I made my regular linguine and tomato meat sauce mixture, and I ate half with grated parmesan and Romano cheese on it and had it with a glass of watered down punch. I refrigerated the other half in a Rubbermaid container.

I will now shut down the primary Vista computer, and I will take a nap. CIO

Note: <888> 12/13/09 Sunday 5:30 P.M.. I chatted with a relative and a friend. I threw out some garbage in the garbage room next door, since it is raining cats and dogs outside. CIO

Note: <888> 12/13/09 Sunday 1:45 P.M.. After the last note, I installed the updates on the primary Vista and the FIC server computers. I watched the movie "The Apple Dumpling Gang" until 5 A.M.. I ate some premium mixed nuts. I went to bed. I had a telephone call from a relative at 8 A.M.. I finally woke up at noon. I put the table that I repaired the leg on back in the bathroom, and I moved the mahogany tea table to where it was placed underneath the oak dining table. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I will now wash the breakfast dishes, and I will make my bed. I will then shower and clean up. It is suppose to rain until midnight, so I will not be going out today. I did a Vista Complete PC

However, when I go to bed, I turn them all off. CIO

Note: <888> 12/13/09 Sunday 1:45 A.M.. It says here International Calling - Call Rates - Skype, I could call up Tony in Sao Paulo for 3 cents a minute with www.skype.com . However, for all I know he went down on the Air France jet off of Brazil last summer. His father supposedly owned the biggest grocery store in Sao Paulo, and his grandfather owned a million acres of coffee plantation, but I do not know anything about those businesses. Wiley Middleton, if he is still alive is suppose to know something about importing coffee.

Note: <888> 12/13/09 Sunday 1:35 A.M.. I know Fred http://mikelouisscott.com/fred.htm use to go to birthday parties for Carol Maytag in Manhattan, so he might be the New York City Maytag repairman, which might be profitable. CIO

Note: <888> 12/13/09 Sunday 1:30 A.M.. I ate 1/3rd of a 20 ounce can of CVS Deluxe premium mixed nuts. Possibly mixed nuts come from Brazil, since I know they have a lot of different rainforest nut trees down there. However, I am not sure about the pecans. Having had extensive tropical experience in the winter in Florida and also in the summer from age 4 to 6, I would be afraid to go down to Brazil because of all of the dangerous tropical animals like Piranhas and Crocodiles. However, southern Brazil is suppose to be cooler, but I am not sure what sort of animals they have down there. I know Brazilian Jaguars are not too friendly. Besides most of the Europeans down there seem to speak German, which I do not. Although I studied Latin six years, I am not sure I could make sense out of Portuguese. CIO

Note: <888> 12/13/09 Sunday 12:45 A.M.. Yes that is the entrance to the World Trade Center North tower before Tony and I took the elevator to the observation deck to enjoy the view. It was the only time I ever went to the observation deck. I do recall job hunting back in the 1970s on some of the lower levels. I recall it had purple carpeting in the lobby. Also I passed through the lower level many times taking the subway down to Wall Street.

The new building information is here || World Trade Center || .

As I recall that day I drove over to Valhalla, New York to pick up Tony. We then waited for the Valhalla train into Manhattan, but it never arrived, so we drove down to Greenwich, and caught the train from Greenwich. We went to the statue of Liberty, the World Trade Center, walked around Washington Square, and went to the Barnes and

Noble bookstore at around 17th street and Fifth Avenue, and then returned to Greenwich, and I drove Tony back to Valhalla. As I recall Tony was a Rotary Exchange student, and he was living next to the reservoir dam for the reservoirs over there. He later moved up to Danbury, Connecticut and stayed with Bill Lawrence who had a guest cottage. He visited me once after he returned to Brazil around the winter before I moved into 71 Vinci Drive, when I was at 700 Steamboat Road which would have been the winter of 1987 as I recall, and I drove him over here and showed him the building when it was under construction. There were a lot of Brazilians working on the building. As I recall, I returned to Greenwich, Connecticut from Nantucket in December of 1983, and I moved into this building at 71 Vinci Drive in December of 1988, so I have been here for 21 years if I am correct. The first 3 years back in Greenwich, I did not have a car, and around October 1986, I got the yellow Volkswagen Dasher from somebody in Darien, Connecticut. Thus it was probably in the winter of 1987, I met Tony, and he might have visited again in the winter of 1988. As I recall the last I heard from him about 15 years ago, he was working for Trans Brazilian airlines as a flight attendant. I still have his parents address in Sao Paulo, Brazil. I do know he traveled a lot. After I was at the Albertville, France Olympics in February 1992 and back in Paris, I met somebody from Milan, Italy that looked like Tony, and he did not know English only French and Italian, so it was not Tony. That was at the discothèque behind the Paris Opera, where a Heineken cost \$10. I did see somebody that looked like Tony this summer downtown wearing Dutch clogs, so maybe he is now running a coffee shop in Amsterdam. His email address bounced back last week, so he no longer uses it. CIO

I ate a ham and cheese sandwich on a Kaiser roll with mayo, and 1/4th of a 5.3 ounce tube of CVS sour cream and onion potato chips, and a dill pickle slice and a glass of watered down punch. I checked with the building custodian, and he is busy today fixing the leak in the ceiling of the building entrance, so he will not be able to work underneath my sink today. I put the items back underneath the kitchen sink. CIO

Note: <888> 12/10/09 Thursday 12:50 P.M.. I woke up at 6 A.M. this morning. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I took the items out from underneath the kitchen sink, so the building custodian can later on today repair a breather tube from the hot water tank to the kitchen sink. As of now, he has not done it, but he said he would get it done today. Thus the kitchen with all of the stuff on the counter is not easy to prepare food in. I next went

out, and I mailed my Christmas cards and letters at the Valley Road post office. I then went by the Chase Bank on West Putnam Avenue just west of Greenwich Avenue. I next used the bathroom at the Senior and the Arts Center. I walked the entire length of Greenwich Avenue and the train station area. I stopped by CVS. I bought two 24 ounce can of Dinty Moore beef stew for \$2 each, and two 12 packs of Thomas' English muffins for \$2.49 a 12 pack for \$8.98 total. I then bought a 2X 12 roll pack of Scott toilet paper for \$6.96 less a 75 cent coupon beneath the display and .37 tax for \$6.58 total. I stopped by the new AT&T store, and I chatted about communications. I finished my walk, and I then used the bathroom again at the Senior and the Arts center. I next went by the Greenwich Library, and I chatted with a local Norwegian that reminded me that Norwegians do watch television, but they only use it for children's entertainment. I then went by the Greenwich Automotive Services Gulf station, and I bought \$17 of self service premium gasoline for \$3.279 a gallon for 5.183 gallons at odometer 65253 miles for 56.7 mile driving since November 24, 2009 for 10.94 miles per gallon driving mostly in local traffic. I then returned home, and I said hello to neighbors. The building custodian said he would work on the kitchen sink drain pipe vent this afternoon. CIO

Note: <888> 12/09/09 Wednesday 9:50 P.M.. I went outside briefly. I picked up the mail. I chatted with a relative. I microwaved a 21 ounce Maria Callendar frozen meat lasagna that I put some grated parmesan and Romano cheese on, and I ate it with a glass of watered down punch. I will now shut down the primary Vista computer, and I will go to bed soon. Have a good night. Partly cloudy and windy tomorrow with a high of 36 degrees Fahrenheit. CIO

Note: <888> 12/09/09 Wednesday 8:25 P.M.. I finished doing my Christmas cards with Christmas letters. I have 27 ready to mail. Three are international, so I used 33, 44 cent stamps for postage all together. I chatted with a friend while doing them. I will mail them tomorrow.

I went back to bed until noon. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I chatted with a relative. I threw out the garbage. The front entry way of our building at 71 Vinci Drive is leaking water from the heavy rain storm we had earlier this morning and last night. I will do my Christmas Cards and Christmas letter today. CIO

Note: <888> 12/09/09 Wednesday 2:25 A.M.. I pretended I was back on the Company Jet, and I ate a 10 ounce can of Planter's Deluxe mixed nuts. Back in the old days when my father Louis Dale Scott was still alive before he passed away in January 1989, we use to eat a lot Planter's nuts on the various company jets we traveled around on.

I got curious, so I looked up one of the last companies that he worked for out of the Hague in the Netherlands for. All I could find was KW Online : King Wilkinson (Saudi Arabia) Ltd. , and they had this contact page KW Contact Us . I tried calling them with www.net2phone.com , but their servers would not work for the number. Thus I broke down, and I put \$10 on my www.skype.com account. I then called them up at 96638010000, and the first two times nobody answered. The third time I was transferred by the message service to the field, and an agent that spoke Arabic picked up the phone, but he hung up right away. The call for 57 seconds cost \$0.324 or \$0.245 a minute. I then called up the Casa Marina in Key West again at 1-305-296-3535, and I chatted briefly with the night agent, and it cost me \$0.021 a minute for 2.51 minutes for a cost of \$0.102, and I now have \$9.57 left on my Skype account that is good for 180 days I think.

I leave the heat on the living room when I am awake at night, but I turn it off, when I go to bed, so it gets colder while I sleep.

Heavy rain and wind today with a high of 48 degrees Fahrenheit and a low of 33 degrees Fahrenheit. I am a bit tired, so I will now shut down the primary Vista computer, and I will go to bed soon. Have a good day, and stay dry. CIO

on the FIC server by using www.net2phone.com by calling the Metropolitan Police in London U.K. Metropolitan Police Service , and they have an anti-terrorist hotline Metropolitan Police Service - Specialist Operations at 44-0800-789-321, but it does not work through net2phone right now, but 44-207-230-1212 did. They suggest I call BT in the future. I also tested it by calling up the Casa Marina in Key West, Florida Key West Hotel Resorts & Florida Keys Beach Accommodations - Casa Marina Resort Key West . It seems to work just fine. However, I think www.skype.com sounds clearer when calling Europe.

Before I met John Bolton in Key West, Florida in January 1978, I had been a guest in the Bahamas of Richard Mercy at Paradise Island. He lived at Eaton Square in London, England, but I guess as I got more tanned down in Florida, the British did not recognize me, so I was left dealing with Snow Birds from up north in America.

None of the people that I knew in my life before Personal Computers have felt like keeping up with me after 20 years of personal computer activity, since I guess they are involved in other more profitable activities, and they now all seem to find me boring, since I gave up

going to Pubs, when I got mugged when I was a designated driver in Manhattan about 17 years ago, and since I could never really afford to drink much alcohol anyway, since I smoke cigarettes. The last time I bothered to drink to much alcohol regularly was when I lived in Europe in the fall and spring of 1972, when wine was cheaper than bottled water. Nobody drank the local water, since it would give you diarrhea. Of course in Europe, I did not do to much driving then except driving from Athens to Istanbul with both the Greek and Turkish military following me both ways on both sides of the border most of the trip. I have found going to Europe on cheap trips is not really worth it, since the security costs can be overwhelming. I once saw Queen Elizabeth and Prince Phillip in Manhattan on July 5, 1976, and during that weekend of celebrations, there were about five million people standing around, so I do not think I would want to deal with that many people if I ever went to London, England on a cheap trip. From what I know when you are a guest in a foreign country, they expect you to try to enjoy yourself despite all of the security around.

Of course on a night time schedule, when I was in Paris before the Albertville, France winter Olympics in February 1992, I had to deal with thousands of security people in the day time, but when I went out at night, there was nobody around. Thus I guess security people that cover people in the daytime forget about them at night, or it is some sort of con game trying to rip off poor hard working people that work at night, when they venture out into the daytime.

Maybe somebody could invite Microsoft's Security person that was at the Hauppauge, Long Island Hyatt Microsoft conference when I was there about three years ago, to show how big some people can be out in the Midwest of America, for those of you whom do not know better. CIO

Lille Gibbons note:

Dear Neighbor,

Just a reminder- I will be co-hosting an informational forum on H1N1 Thursday night:

DATE: Thursday, December 10th, 2009

TIME: 7:00PM to 8:00PM

LOCATION: Greenwich Library

I will be joined by representatives from the State Department of Public Health, Greenwich Hospital, Greenwich Health Department, and Greenwich Public Schools to explain measures you can take to keep from getting sick, and how State and Local officials are preparing and responding to the H1N1 threat. They will also be happy to answer any questions you may have.

It is my hope that this forum will serve to empower us all to stay healthy, as well as combat

any fears you may have about our government's preparedness and response plan.

Should you need any more information on this event or have any questions, please do not hesitate to contact my office at 800-842-1423 or lile.gibbons@housegop.ct.gov. I hope to see you on December 10th!

All My Best,

Lile Gibbons

Note: <888> 12/08/09 Tuesday 8:35 P.M.. I have very sad news to report for all of those British citizens whom know Greenwich, Connecticut, since Greenwich, Connecticut was made famous by the Duke of Windsor dedicating a statue in Old Greenwich, Connecticut in the 1920s at the Electrolux factory which is long since gone. The old Electrolux store on the first side street to the east as one comes down Greenwich Avenue seems to have been closed, and they are now remodeling the building. I do not know whether or not it will be a new Electrolux shop or not or some other venture by the British Swedish community in town. We will have to wait to see what develops at that location. There use to be a vegetarian restaurant next door at the same location about five years ago too, which was very popular with the neighboring office lunch crowd. Greenwich Avenue has become so upscale, it is only a matter of time, before some other new entrepreneurs will try their hand at some new business there in the many vacant store fronts.

I came up with this about \$50 jeeps.

ARMY JEEP IN A CRATE FOR \$50

Brian's Military Jeeps helps you 'Keep Em Rolling'. Today's date is: Tuesday, December 8, 2009

Buy A WWII jeep still in the case for 50 Dollars , thus the probably are not still available.

When I was at www.lfc.edu from 1968 to 1972, Lake Forest, Illinois is about 50 miles south of Kenosha, Wisconsin City of Kenosha, Wisconsin where Official Jeep Site - 4x4 SUV, Sport Utility Vehicle used to make their vehicles then. Thus possibly the \$50 jeeps were available at the time, when I was at www.lfc.edu . Instead, I bought a 1952 Mercedes 300B sedan for \$300 from Loeber Mercedes in Skokie, Illinois Lincolnwood Mercedes Benz, Porsche, Smart Dealership | Chicago, Evanston, Oak Park | Loeber Motors | Illinois , which began my involvement with foreign cars for most of my life there after.

However, across the street from me for any rich American car types, there is a Jeep Dealership JEEP CHRYSLER DODGE CITY | New Chrysler, Dodge, and Jeep dealership in Greenwich, CT 06830 , but usually if you own a Jeep around here, you also need an Off Road Sand Permit for driving on the beach in Nantucket, and you probably need a house there, and you probably need a Ski Chalet up in Stratton Mountain, Vermont or Stowe, Vermont or some other remote Vermont hideaway, where they do not always plow the roads in the winter. Note: <888> 12/08/09 Tuesday 5:15 P.M.. I woke up at 6 A.M. this morning. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I went back to bed until noon. I washed the breakfast dishes. I made my bed. I showered, and I cleaned up. I threw out the garbage, and I chatted with neighbors. The building custodian wants to install a drain vent connector tube on my kitchen sink this coming Thursday. I ate a ham and cheese sandwich on a Kaiser roll with mayo, and 1/4th of a 5.3 ounce tube of CVS sour cream and onion potato chips, and a dill pickle slice and a glass of watered down punch. I went out, and I went by the Chase Bank on West Putnam Avenue just west of Greenwich Avenue. I then went downtown, and I used the bathroom at the Senior and the Arts center. I walked lower Greenwich Avenue. I chatted with someone from Scotland, and I gave them my calling card. I chatted with a Bluetooth ear piece wearer, and I told them that they could possibly work with laptops. I chatted with the Russian ballet teacher at the Senior and the Arts center. I then went to the central Greenwich, Connecticut post office, and I bought a twenty 44 cent Madonna and Child stamps, twenty 44 cent Nutcracker stamps, and twenty 44 cent King and Queen stamps for \$26.40 total. I then used the bathroom at the Senior and the Arts center. I then returned home. I picked up my mail. I have plenty of spare Christmas cards, so one of these days I need to do my Christmas cards and Christmas letter, when I have time, and I am in the mood. CIO

Note: <888> 12/07/09 Monday 10:15 P.M.. I ate the other half of the 13.5 ounce box of Reduced Fat Cheez-its. Since Cheez-its have cheese in them, some dairy farmers probably makes money off them.

Not much happening way out here in Southwestern Greenwich, Connecticut. I have noticed in the recession a lot of the formerly rich people are now driving the Chrysler automobiles that look like Bentleys, but are cheaper. There is also a Jeep dealership across the street from where I live, and it is practical car on the narrow roads in New England that frequently can have snow and ice.

Back at www.lfc.edu in my period there from 1968 to 1972, a man "Pasquaisy?" who had the hot dog shop next to the thrift shop in downtown Lake Forest, Illinois would sell www.army.mil surplus jeeps for \$50. They would come in a crate with the parts covered in some sort of grease, and one would have to assemble them to have a working jeep. Thus there is probably still some warehouse in the Midwest with a whole of crates full of old Army jeeps.

They use to make www.gm.com cars in Tarrytown, New York, and they use to make www.ford.com cars in New Jersey, so back in my time in Manhattan, since I knew members of both Ford and GM families, I spent quite a bit of time around automobile workers on weekends, when they would come into the City. I also think www.chrysler.com use to make cars in Syracuse, New York. I personally can not afford to drive too much, and even if I had more money for gasoline, the highways are very busy around here, and I try to avoid driving on them most of the time.

From what I know as an economist, the recession or depression can get even worse. You know it is bad, when you have to quit paying for Cable Television. Also, if one has to discontinue phone service, one can always rely on the internet for long distance phone service. I will always keep basic Verizon service for incoming calls. Since I spend all of my working time on the internet and have invested a great deal of money in personal computers over the last 20 years, I would never get rid of the internet, since it is what I do for better or worse. I do not think there is any point in investing in other fields and areas that I have already checked out in the past, since I already know the internet meets my needs versus networking with strangers and reading newspapers and observing daily life downtown. Many people read the news, but most people try to avoid being in the news.

There is an old protestant saying that the only time one should be in the news is when one is born, married, and dies.

Thus the fact that so few people of the masses are in the news so much of the time, they must be news hogs feeding off the gullible people who read and believe too much of the news.

I am a bit tired, so I will now shut down the primary Vista computer, and I will go to bed soon. Have a good night.

Partly cloudy tomorrow with a high of 41 degrees Fahrenheit and a low of 34 degrees Fahrenheit. CIO

I went out after the last note. I went downtown, and I used the bathroom at the Senior and the Arts center. They are not yet issuing new parking passes for the Senior and the Arts center yet. I walked the entire length of Greenwich Avenue and the train station area. I stopped by CVS, and I bought four 9.5 ounce cans of CVS smoked almonds for \$3.50 each for \$14 total. I finished my walk, and I used the bathroom at the Senior and the Arts center.

I weighed myself before getting in the shower before going out, and I now weigh 219 pounds, so I think I should try to lose some weight sometimes soon.

I next drove down by the waterfront on Steamboat Road. I chatted with a jogger from Bridgeport, Connecticut about the waterfront. They are still working on building news houses on the west side of Greenwich Harbor.

I then went by the Greenwich Library. I chatted with a former neighbor from Steamboat Road, and I was told the Royal Bank of Scotland Greenwich Capital Markets has moved out of the building at 600 Steamboat Road. I do not know if their new building in Stamford, Connecticut is finished or not. I think they are now owned by the British government.

I chatted with the reference librarian about the price of tea in China. I toured the discarded book rack downstairs in the coffee shop.

I then returned home.

I will now make and eat a 7 ounce sautéed petit sirloin steak with a sliced and peeled medium onion with the usual sauces on it and with steamed vegetables with olive oil and watered down punch and a cup of green tea with splenda and lemon juice. CIO

The apartment living room is currently 69 degrees Fahrenheit, and it is has been going down to freezing at night outside. Note: <888> 12/06/09 Sunday 10:35 P.M.. It was a bit difficult, but I was able to get the Newegg.com - MOTOROLA H780 Bluetooth Headset Bulk Package - Bluetooth Cell Phone Accessories to work with the Newegg.com - cirago BTA-6210 USB 2.0 Micro Bluetooth Dongle support Bluetooth 2.1 - Network - Bluetooth on the FIC server running Vista Ultimate.

First I installed the program for Cirago International Ltd. - Customer Servies, RMA and Technical Support , I downloaded the "BTA-6210 V2.1 for Vista 32 bit and 64 bit", and I installed it. When prompted, I installed the Cirago BTA-6210 V2.1 in the FIC server USB 2.0 hub. Once the program finished installing, I rebooted the FIC server.

However, although the Motorola H780 installed, it did not work. I finally uninstalled in Device Drivers under Sound, Video, and Game Controllers, the Bluetooth Audio and the Bluetooth Record devices. Also Bluetooth I uninstalled all of the devices. However, then I

selected to Scan Again, it installed both the Generic and the Microsoft Bluetooth Radios, but that did not work either. I then uninstalled them again except Generic Bluetooth Radio. I then under drivers for Generic Bluetooth Radio, I selected Update Driver, Browse My Computer, Let me pick from a list of device drivers on my computer, and it showed two identical Generic Bluetooth Radio icons. I choose the second device drive, and I let it install again installing the same devices as I began with.

Under Bluetooth, I now had the Generic Bluetooth Radio, and Bluetooth RFBUS, Bluetooth RFCOMM, and Bluetooth RFHID.

Under Sound, Video, and Game Controllers, with the Motorola Bluetooth H780 headset turned on, I have Bluetooth Audio Device listed.

However, I first under the Bluetooth Settings program, Options, under General at the bottom of the tab, I enabled Audio Sink Device with the other defaults.

Under Bluetooth Information Exchanger, I selected Computer Places and checked Display Shortcut on Desktop and Display Shortcut on Bluetooth Settings.

Under Assistant, I chose Classic Mode, Enable Auto Search of Devices, and only selected Headphones, along with the other defaults and saved the tabs.

With the Motorola H780 Bluetooth headset turned on, from the Bluetooth Icon in the Tray, I chose Add New Connection, and the program added it to the Bluetooth Settings Window. I then chose Connect, and I was prompted from the message down by the tray, I click on the message that Bluetooth is trying to install a device, and when the windows opens for the H780 device, I entered the PIN Code "0000", and after completing that procedure, the Motorola H780 Bluetooth headset worked just fine with Vista Ultimate. The only problem is that in the Audio Device settings with Bluetooth Record turned to 100, it could sound a little bit louder, but it is loud enough to be heard.

Since it is a complicated procedure, I will not put it on the adjacent primary Vista computer, since the server goes all of the time, it is available all of the time with whatever communications program, one might use. I plugged the H780 power supply into the surge protector nearby on the floor, and have it connected to the H780 when charging just beneath the left side of the left monitor of the FIC server to have it available for use. Of course the Cirago Bluetooth USB 2.0 device and the Motorola H780 Bluetooth headset can easily be transferred to the Dell D410 laptop, when needed. CIO

Note: <888> 12/06/09 Sunday 7:10 P.M.. I went out after the last note. I went downtown, and I walked the entire length of Greenwich Avenue and the train station area. I used the bathroom at the Senior and the Arts center before and after my walk. I noticed that at the veterans monument across the street from the senior and the arts center, the Christmas tree lights that were installed on both trees on either side of it as well as the sidewalk lights on either side of it are not turned on at night. Somebody should fix that problem, when they have the time. After my walk, I returned home, and I chatted with a neighbor. CIO

Note: <888> 12/06/09 Sunday 4:40 P.M.. I finished the backup, and I shut down the Dell D410 laptop. I will now shut down the primary Vista computer, and I will go out for a walk. CIO

Note: <888> 12/06/09 Sunday 4:25 P.M.. I showered, and I cleaned up. I checked outside, there is no snow around from last night. I will go out for a walk in about 15 minutes after I finish the ASR backup of the Dell D410 laptop. CIO

Note: <888> 12/06/09 Sunday 3:30 P.M.. After the last note, I watched a program on the weather channel about chasing tornadoes which looks very dangerous. I chatted with a friend. I went to bed about 8:30 P.M.. I woke up, and I ate half of a 13.5 ounce box of reduced fat Cheez-its. Yesterday, I also finished off the open can of mixed nuts. I woke up at 7 A.M.. I ate breakfast of oatmeal with honey and milk and a sliced banana, a toasted English muffin with olive oil, a 50% to 50% mixture of fruit juice punch and cold filtered water, and a cup of coffee with splenda and milk. I washed the breakfast dishes.

I have installed on the Dell Latitude D410 laptop computer the following two items that I purchased recently.

Tracking is Newegg.com - Computer Parts, PC Components, Laptop Computers, Digital Cameras and more tracking ! on the order for Newegg.com - MOTOROLA H780 Bluetooth Headset Bulk Package - Bluetooth Cell Phone Accessories for \$29.99 with free shipping.

Tracking is Newegg.com - Computer Parts, PC Components, Laptop Computers, Digital Cameras and more tracking! on the order for Newegg.com - cirago BTA-6210 USB 2.0 Micro Bluetooth Dongle support Bluetooth 2.1 - Network - Bluetooth for \$24.99 and \$2.99 shipping for \$27.98 total.

They worked plug and play on the Windows 7 RC partition without any problem, but I could not get them to work on the XP Professional partition. I was finally able to get them to work on the XP Professional partition.

First I removed the Dell D410 laptop Bluetooth device that I had installed, since it was conflicting with the Cirago Bluetooth device.

Second from this page Cirago International Ltd. - Customer Servies, RMA and Technical Support , I downloaded the "BTA-6210 V2.1 for Win XP", and I installed it. Then one reboots. In the Bluetooth Settings program, one selects options, and from the first page General at the bottom of the page, one has to enable "Audio Sink Service". With the Motorola H780 Bluetooth headset turned on, the program finds it, and one has to enter the device code of "0000" . One than has to select the option to Connect it, and it works perfectly fine in Windows XP Professional.

However, DO NOT try the Win7 version on Widows 7 which is not needed. When I tried it the Motorola H780 Bluetooth device would not work, and I had to restore my good backup of both partitions, and then reinstall it again on XP.

I am now doing a Windows 7 Complete PC backup of both partitions, and then I will do a Windows XP Professional Automatic System Recovery backup of the XP Professional partition.

They said 20,000 people commute into town every day to work and take care of the senior population and 10,000 leave town every day to make money elsewhere. They said more Eastern Europeans are entering the senior care activity replacing the existing Hispanic group of health care providers. They want to change the 1983 Zoning ordinance, so that more mother in law and accessory apartments can be built in larger home built after 1983. I also watched some of the BBC news. I went by the Chase Bank just west of Greenwich Avenue on West Putnam Avenue. I then walked then entire length of Greenwich Avenue and the train station area. I sat out at various locations. I used the bathroom at the Senior and the Arts center. They had a Picasso exhibit this evening. I stopped by the Greenwich Hardware store, and I chatted with the friendly staff about the price of tea in China. Since the Greenwich Hardware store has an Italian employee, and it is across the street from St. Mary's Roman Catholic church, I occasionally chat with them about church matters. I reminded them that the archdiocese of Chicago is the wealthiest in the Catholic church, and they have a

retreat in McHenry, Illinois with a golf course where the Vatican was suppose to move in World War II if they were kicked out of Rome by the Nazis. It looks like it would be quite comfortable to live there, but of course you would have to be a Roman Catholic church official. I next toured CVS. I noticed some holiday parties going on downtown. After I finished my walk, I sat out for a while, and then I walked down Arch street, and I looked at the Rein Deer in front of McArdle McMillan. Rein deer come from Lapland, and I think in the wild they like eating moss. I then walked east on Grigg Street. I then toured the new www.apple.com www.ipod.com store. A large 25 inch desktop costs about \$1,400. The computer works are contained in the screen. It uses and www.intel.com processor, and it is not suppose to over heat. I was told you can not yet run Windows 7 with Boot Camp. They do not have touch screen yet either. The new operating system is called Snow Leopard, and it is about \$180, but an upgrade is only \$30. I gave three of the staff calling calls. I also mentioned that they could use some sort of clear plastic lining on their doors to seal them in the winter. I also stopped by the Reinfert Design shop just north of them earlier in my walk. I then use the bathroom at the Senior and the Arts center. I then went by the Greenwich Library. CO Meeting Organizer EGU2010

Biltmore Email Newsletter

Lille R. Gibbons Note:

I want to inform you of an upcoming Public Forum with CTDOT.

The Connecticut Department of Transportation (CTDOT) will conduct a Public Information Meeting concerning the rehabilitation of Bridge No. 00017, which carries Lockwood Lane over Interstate Route 95 (I-95), in the town of Greenwich. The meeting will be held on Wednesday, December 9, 2009 at 7:00 p.m. in the Eastern Greenwich Civic Center, 90 Harding Road, Old Greenwich, Connecticut.

The existing bridge, built in 1958, is a four-span steel multi-beam structure. It is situated between U.S. Route 1 and Leonard Avenue approximately one mile west of the Stamford-Greenwich town line and carries one lane of traffic in both the northbound and southbound directions. It has an overall length and width of 236 feet and 52.5 feet, respectively, and a curb-to-curb width of 30 feet. There are 10-foot wide sidewalks on each side of the bridge. The superstructure consists of four spans of multiple steel beams with a reinforced concrete deck. The substructure consists of reinforced concrete piers and abutments.

Due to the overall deck condition, the proposed project consists of replacement of the bridge superstructure with shallower multiple high strength steel beams, a reinforced concrete deck, and a bituminous concrete overlay. There will be a slight raise in the roadway elevation of Lockwood Lane to increase the vertical clearance below the bridge over I-95. The length and width of the proposed structure will match the existing, including the sidewalks on each side of the bridge. The existing substructure will remain, but it will be modified to accommodate the proposed shallower beams and raised roadway.

Work is anticipated to begin in the fall of 2012 and be completed in the fall of 2013.

The bridge will be closed to traffic during construction. Traffic will be detoured onto local streets. Short duration, off peak, partial closures of I-95 will be utilized as necessary. Impacts to private property consisting of temporary construction easements are anticipated.

Plans will be available for public review. CTDOT personnel will be available during the meeting to discuss this project. More detailed information is available at CTDOT's Office of Engineering, 2800 Berlin Turnpike, Newington, Connecticut, during office hours, Monday through Friday, 8:30 a.m. to 4:00 p.m., excluding holidays. Any one wishing to review the plans may contact Ms. Mary E. Baker at (860) 594-3402 or (860) 563-9375 to make an appointment.

All persons interested in this project are welcome to attend this meeting and discuss the project with CTDOT personnel.

Note: <888> 12/02/09 Wednesday 8:30 A.M.. I put out my Christmas decorations. I took the teak stand out from underneath the Buckingham Palace model, and I put a plate on it to raise it up. I put the teak stand on the lazy Susan at the apartment entrance with the small two foot high artificial decorated tree on it. I connected up its two strings of Italian lights with a power strip placed by the left base of the tree, so one can turn on and off the lights. I put the green artificial wreath outside of the front door. I put some small candles underneath the tree. I hung a small green burlap wreath from the left panel of the right living room closet door. I put four white and gold trim cheese plates with the nutcracker butter knives on top of the HP C4280 photo printer at the kitchen entrance. CIO

Note: <888> 12/01/09 Tuesday 7:30 P.M.. I noticed today at the east side of the parking lot of the far West Putnam Avenue Chase bank branch, they are now selling fresh Christmas trees and other Christmas greenery. Back in Manhattan in the old days, the friendly people from Vermont use to stand outside all night protecting and selling their Christmas trees. I remember when I lived in Manhattan, the people from Vermont sold Christmas trees on First Avenue at Beekman Place which lies between East 50th and East 51st street, and they also sold Christmas Trees on Broadway at West 72nd Street near the Lincoln Savings Bank on the northwest corner. I also bought a six pack of CVS Sensitive Skin beauty soap for \$5.99 and .36 tax for \$6.35 total. I then went further downtown, and I went by the Merry Go Round Mews thrift shop. They have their annual Christmas display setup with lots of Christmas items for sale. I saw a 50% off sign, but I am not sure what is 50% off. I chatted with a local about the price of tea in China. I then used the bathroom at the Senior and the Arts center. I then went to my 3 P.M. appointment. In the display cases at the Greenwich Town Hall, they have a display of World War I uniforms and other military items. I then went back by CVS, and I picked up another prescription. I noticed in the their dumpster at the rear of the store, they have thrown out some food items that look like bottled chocolate milk or some other nutritional aid. I then returned home. I picked up my mail. I received a coupon from CVS for 20% discount on one item on December 12 or 13. I also received in the same notice that I have saved \$890.52 in ExtraCare Savings this past year.
